

Prescott - Locations by Mileage

The Prescott subdivision was measured from zero at Broad Street to Prescott. Some changes were made in the late 1920 period when measurements were changed to zero at Ottawa West although this may only have affected the measurements in the Ottawa area. Young Street was mile 0.79 from Broad Street and 0.96 from Ottawa West in 1928. Around 1960 the Ottawa Terminals section became part of the Ellwood subdivision which was measured from zero at Chaudiere Junction to Hull.
