

Local Railway Items from Ottawa Papers - 1895

04/01/1895 Renfrew Mercury Renfrew

A man named Bourdeau, a resident of Arnprior, was badly hurt by a steam shovel on the OA & PS Railway one day last week. He was standing on the bank above the cut where the shovel was at work, when the earth gave way beneath him, and he fell into the shovel. The accident was not discovered before the derrick had been swung around and the contents of the shovel dumped on a flat car, when the unfortunate man was found among the earth and gravel. One of his wrists was broken and he was badly cut about the face.

04/01/1895 Ottawa Journal Renfrew

THOUGHTFULNESS OF A RAILWAY OFFICIAL. A man named Joseph Pelsky, employed in a shanty near Long Lake, had one of his legs badly crushed by a falling tree on Thursday. He was brought down on the OA & P S R., last evening and taken to the Water street hospital. Mr. Chamberlain, general manager of the line, had a train sent from Barry's Bay to Long Lake to pick up the sufferer, and in consequence the regular evening train was two hours late in reaching Ottawa.

04/01/1895 Arnprior Chronicle Renfrew

Toronto News

A "HUMMER" IN HIS LINE

Mr. Geo. H. Phillips, travelling passenger and freight agent of the Ottawa, Arnprior & Parry Sound Railway, is a hustler after business for that road. He is a genial, courteous gentleman who carries within his head a mine of general information, and is an entertaining conversationalist. He had charge of the excursion business over the OA & PS Railway during the past summer, and made a grand success of it. At present he is talking up the Ottawa carnival in such glowing terms that the people have been "set-a-thinking," and there is not a shadow of a doubt but that the OA & PS will have large numbers of carnival excursionists from every point Mr. Phillips has visited. He's a hummer in his line and a jewel for the carnival committee.

Friday 11/01/1895 Renfrew Mercury Renfrew Madawaska

--A siding is being built at the Madawaska crossing for the benefit of the upper Bonnechere and Petawawa shanties.--

Tuesday 15/01/1895 Ottawa Free Press Hull Electric

Among the bills assented to by the Lieutenant Governor of Quebec at the close of the legislature on Saturday was a measure confirming the franchise of the Hull Electric Company to run an electric railway from Hull to the village of Aylmer. More.

Thursday 17/01/1895 The Equity, Shawville Pontiac & Pacific Junction

Mr. W.D. Harris, C. Engineer of the P. & P. J. and G.V. Railways has, we learn, been appointed Managing Director of the Pontiac Road, and as the gentleman is said to be in favor of an express service on the line, would it not be well for the many businessmen interested to take some action in bringing the matter before his notice.

Friday 18/01/1895 Renfrew Mercury Renfrew South March

A new station is being built on the O.A. & P.S. Railway at South March.

Thursday 21/01/1895 Ottawa Citizen Maniwaki

Yesterday afternoon a number of leading persons from the Gatineau district waited upon Mr. Harris of the G.V. Railway with a view to having the company abandon its present intention of constructing the road seven or eight miles back from the river on the west side in Bouchette township. They point out that the settlers in that township were chiefly close to the river, and their interested should be considered in its construction. Mr. Harris assured them that he would bring the matter to the attention of Mr. Beemer upon his return to the city. It is said that the reason for the company taking the back way route is to come in touch with several beautiful lakes and favorite resorts for sportsmen. Mr. J. Logue of Maniwaki, headed the deputation.

Friday 25/01/1895 Renfrew Mercury Havelock Bathurst

Bathurst station on the C.P.R. has been reduced to a flag station. All part of the CPR's economy plan.

Friday 25/01/1895 Renfrew Mercury Prescott Kemptville

The people of Kemptville are highly indignant at the action of the C.P.R. in closing the principal station there. All the hands have been dismissed and the townspeople who travel and the mails are forced to go to the junction station two miles from the village.

Friday 25/01/1895 Brockville Recorder Prescott Kemptville

The station on the old St. Lawrence & Ottawa Railway at Kemptville has been closed by the C.P.R. and freight and passenger business has to be transacted at the junction two miles out.

The Advance says the people are very indignant at the government for allowing the C.P.R. to close the lower station. The mail has to be carried two miles to the junction.

26/01/1895 Brockville Recorder Kingston (CN) Brockville

By far the heaviest snowstorm of the season commenced this morning and at noon today was still in progress. When it started, a heavy north east gale was blowing and as a result, many of the railways were delayed. Between here and Lyn, the Grand Trunk express from Toronto had to go through some deep cuts where the snow was drifted to such an extent that only the tops of the smoke stacks could be seen. The CPR express from here to Ottawa was delayed but is expected to get through. Our citizens, knowing the condition of things on other roads, said the B&W train would not be seen here again until the first heavy thaw set in. However, "old reliable" pulled up at the Brockville station sharp on time.

January 28, 1895 - The effects of the terrible storm of the weekend have by no means passed away yet. Even "Old Reliable", the B&W railroad, came to grief this morning and has not yet left Westport. (Branchline)

Friday 01/02/1895 Renfrew Mercury Renfrew Barrys Bay

The threatened stoppage of trains on the O.A. & P.S. Ry. line at Barry's Bay has taken place. The station master has been removed from that place and trains no longer stop there. Passengers are taken on and left off at Wilno, six miles east of Barry's Bay, and Martins, two miles west of the same place. The proprietor of the land, who thought that he had the company at his mercy, has now found out his mistake: but the misfortune is that others suffer as well as he does. The sidings at Barry's Bay have been taken up and the iron is being used in putting in a siding on the land of Mr. August Pilatzkie on lot 34 in the 25th Con. of Grattan.

Friday 01/02/1895 Brockville Recorder Belleville Perth

About thirty men have been taken on at the C.P.R. car works in Perth. They will be given about two days work in a week.

Friday 01/02/1895 Brockville Recorder Kingston (CN) Lyn water

Mr. G. Cornish of Belleville, with his staff of carpenters is busy reconstructing the two G.T.R. water tanks at Lyn, used for holding water used in the stock yards.

Friday 01/02/1895 Ottawa Journal Aylmer branch

Aylmer Branch Sold.

Pontiac Road to buy it from the CPR for \$84,000

The Aylmer branch of the CPR will pass into new hands within a couple of weeks.

The line has at last been purchased by the Pontiac and Pacific Junction Ry.

Rumors of the purchase had been afloat for some months but it was not until this morning that anything definite of the purchase was let out.

A Journal reporter met Mr. H.J. Beemer in the rotunda of the Russell House this morning and questioned him about the talked of transfer of the line.

He said "Yes, I may say it is all settled now between the companies. The purchase price has been agreed upon although all the details of the transaction have not been yet arranged."

The Journal learned that the price to be paid is \$84,000. This sum is equivalent to the amount of subsidies votes to the P. & P.J. Ry. some years ago for the building of the line from Hull to Aylmer, \$60,000 being voted by the Quebec government, \$24,000 by the Dominion government.

Given an Entrance

The purchase of the Aylmer branch will be of great importance to the P. & P.J. Ry. as the company have very much in need of an independent entrance to the city. The prosperity of the line has been very much hindered on account of the end of the line being in the hands of the C.P.R. The company had to pay large sums of money annually for the privilege of running their trains over the Aylmer branch to Hull. The company was also greatly inconvenienced in the carrying of freight and passengers. There was always some delay with freight at Aylmer and the passengers on the P. & P.J. Ry trains east and west were obliged to change cars at Aylmer always causing considerable delay.

Until such a time as the Interprovincial bridge is built, the P.& P.J. Ry. will run trains over the C.P.R. from Hull into Ottawa paying toll to the C.P.R. for the privilege of crossing the railway bridge over the Ottawa.

Not Rolling Stock

It is understood that the purchase of the Aylmer branch does not include rolling stock, but takes in the station at Aylmer, the roadbed and all rights now held by the C.P.R.

An old line

The Aylmer branch is the third oldest railway entering Ottawa, It was built in 1877 about the time the old occidental railway was constructed. The branch is seven miles in length. The first railway entering Ottawa was the St. Lawrence and Ottawa in 1854. In 1874 the Canada Central was opened from Ottawa to Sand Point.

The P. & P.J. Ry. runs through Pontiac county as far as Black River, and is now about 60 miles long. The road is practically owned by Mr. H.J. Beemer of Montreal.

Saturday 02/02/1895 Ottawa Journal Ottawa Electric

Article - More additions to the Street Railway

Monday 04/02/1895 Ottawa Free Press Aylmer branch

The Pontiac and Pacific Junction Railway are anxious to secure closer connection with Ottawa and a deal will shortly be closed by which the Aylmer branch of the C.P.R. extending seven miles between Hull and the town of Aylmer will pass into their hands. -- -- Mr. W. Dale Harris-- wished to state that no bargain had yet been concluded between the companies. It was a misapprehension on the part of many that the Aylmer branch had already been purchased. He was of the opinion that before the end of the present month the Pontiac and Pacific would be the sole owners of a line extending from Hull station of the C.P.R. to the Black river. In the meantime however there are a number of details requiring arrangement. The Pontiac trains will run into Ottawa, but it must be over the C.P.R. bridge above the Chaudiere Falls until some other means of entry be found.

INTERPROVINCIAL BRIDGE

The company is also bound to build a line round to the eastern part of Hull, and the site of the station will be in either wards 3 or 4, a convenient point for the proposed Interprovincial bridge which Mr. Beemer will doubtless build if sufficient subsidies are forthcoming from the federal government and likewise from Ontario and Quebec.

The purchase of the Aylmer branch will for the present make little or no difference in the train service from Ottawa except that facilities for transportation of both freight and passengers to the upper end of the line will be much better. The purchase will not include the Canadian Pacific railway rolling stock at present in use on the road. The P. & P. J. will use its own cars and engines.

Work on the last section of the road from the sixtieth to the seventieth mile as far as Waltham, near Black River, will also go ahead, the provincial government having added a \$20,000 bonus for the completion of this line.

The proposed deal will place the Pontiac and Pacific Junction Railway in a much better position to do business from Ottawa as the transfer at Aylmer will be done away with.

Wednesday 06/02/1895 Ottawa Journal Ottawa Electric

The Electric Railway Co. have already commenced the purchase of materials for the contemplated extensions this spring.

Several thousand ties for the purpose are now being piled in the C.P.R. yards.

The extensions called for by the company's charter are, along Nicholas Street from Rideau street to the city limits, Theodore from Nicholas to Chapel and down Chapel to Rideau; and from the Richmond Road along Preston street in the direction of the Experimental farms.

Sent a letter to the city etc.

Thursday 07/02/1895 Ottawa Free Press Maniwaki

A number of men left yesterday to start work on the Gatineau Valley railway bridge at the Pickanock.

Thursday 07/02/1895 Ottawa Free Press New York Central

Conversation with a Cornwall gentleman of influence yesterday, brought to light that the people down there are again preparing to agitate for a railway from the factory town to a junction with the Canada Atlantic road and thus have immediate connection with the capital. As this matter is evidently to become a plank in the platform of each political party at the next general election the subject is of some interest. Among the charters already in existence by which Cornwall may connect itself with the outer world better than at present is one held by Dr. Bergin, to Sault Ste. Marie, another to Perth and another direct to Ottawa. Again the Central Counties road holds one from Moose Creek on the C.A.R. to Cornwall, and this road has already been surveyed.

The agitation at this time appears to have taken a firm root and developments are confidently expected, as the result of the election stump. Dr. Bergin's subsidy has run to seed on the proposed Soo road and that route is considered by not a few out of the running.

A deputation is coming up from Cornwall to talk the matter over here in political circles and probably at the same time, interview Mr. Chamberlain, of the C.A.R. on the subject. Meanwhile the Canada Atlantic road is not committed in any way, and the officials are reticent as to the future line of action. There is a feeling in Cornwall that the matter should not be treated politically but in an unanimous way, calculated to be of mutual benefit, irrespective of party or politics.

Friday 08/02/1895 Brockville Recorder Westport Lyn

Mr. M.B. Black has the contract for this year for carrying the mails from Lyn post office to the G.T.R. When are we to secure the luxury of a mail off the B. & W. railway? A strong petition to the Postmaster General might have some influence about this time.

Friday 08/02/1895 Ottawa Journal Hull Electric

Peter Ryan, ex-M.P.P. of Toronto has purchased the exclusive rights and privileges of the Hull Electric Ry. Co. of which Mr. T. Viau is the moving spirit.

Friday 08/02/1895 Ottawa Journal Carleton Place Britannia

Station Agent Mccammond's house at Britannia that was burned down on Wednesday was insured for \$300. All the furniture was saved.
NB - this may not be the station.

Monday 11/02/1895 Ottawa Journal Renfrew

Mr. Simpson of the O.A., & P.S. engineering staff has commenced taking levels on the site of the proposed new workshops, Concession St.

Friday 11/02/1895 Renfrew Mercury Prescott Kemptville

The C.P.R. has restored to Kemptville the station within the village limits, instead of compelling passengers to go to the Junction two miles distant.

Thursday 14/02/1895 The Equity, Shawville Pontiac & Pacific Junction

The sectionmen on the P. & P. J. are growing weary in listening for the whistle of the pay car special which was to be along about the first of the month. The poky old concern is said to have got snowed up somewhere near the office of the Minister of Railways.

Friday 15/02/1895 Renfrew Mercury Renfrew Rabbit

The new O.A. & P.S. station west of Barry's Bay is called Rabbit Station, on account of those animals being so numerous around there. (also Eganville Leader)

Thursday 21/02/1895 The Equity, Shawville Pontiac & Pacific Junction Bristol

Bristol Jottings. Our energetic Sec. Treas. was out in the vicinity of No. 10 school today "whipping the cripples", as they require as much of the bonus as possible to be collected, to pay for the eight miles of road recently purchased by the P. & P. J. R.

Friday 22/02/1895 Ottawa Journal Ottawa Electric

OER and Sunday. Why OER wished to operate Sundays.

Saturday 23/02/1895 Ottawa Citizen Maniwaki

An inspection took place on Thursday of the Gatineau Valley Railway west of Pickanock. The inspecting officer was Mr. Vallee of the Quebec Government, who was accompanied by Mr. Beemer, Mr. Harris and Mr. Resseman, the newly appointed superintendent of the road.

They left by special train in the morning at 8.30 o'clock, and after reaching the terminus of the track, proceeded thence by sleigh to the end of the road which is about eight miles from Maniwaki. The track is laid about three miles past Pickanock. The new section runs through pretty much the same kind of country as that in the lower portion. It is somewhat mountainous but at the same time dotted with many lakes.

It is not yet decided whether the line shall run along the river bank through Bouchette township, as desired by the inhabitants, or some eight miles back from the river, which the management seems to favor owing to the access it would provide to several large lakes which promise to be favorite resorts for hunting and fishing parties.

The bridge across the Pickanock is in course of construction by Mr. Rowley. It will be finished in a couple of months.

Saturday 23/02/1895 Ottawa Journal Renfrew

Half a million dollars is to be expended on the construction of the Ottawa, Arnprior and Parry Sound railway this coming summer. The work of construction is about to be resumed. The contractors have already gone out to select sites upon which to build camps for the men to be engaged upon the work.

Contracts have been awarded for the building of three more ten mile sections and a fourth section is to be let out. The contractors for the three sections are E. Fauquier, O'Neil and Ferguson, and Poulin and Fitzpatrick. Mr. Fauquier will construct the first ten miles west of the present terminus of the line at Long Lake. O'Neil and Ferguson the next ten miles westward of Mr. Fauquier's section and Poulin and Fitzpatrick the ten miles eastward from the terminus of the Parry Sound and Colonization Railway some forty or fifty miles east of Parry Sound.

To Rush the Work

The contractors will begin the bare rock cuttings immediately, and will start pile driving where necessary on the 1st of March.

About the beginning of may a force of fifteen hundred men will be put on the general construction work in order to rush on the line as quickly as possible. There is some very heavy work to be done this season. The part of the line that is being built passes through a very mountainous country, in fact the heaviest part of the line.

There will remain about 40 miles to be constructed in '96 if the four sections are finished this season. The gap will be this side of Elmsdale.

Friday 01/03/1895 Brockville Recorder Prescott Prescott

Construction of the Prescott elevator.

--A track from the Canadian Pacific road will be built parallel to the front of the building, passing just within the northerly side and continuing outside on a trestle a sufficient distance to allow a train of empty cars to pass within the building so the cars can be loaded as they are brought back.--More

Tuesday 05/03/1895 Ottawa Journal Hull Electric

The survey of the line of the electric railway along the Aylmer Road from Hull to Aylmer has been completed. Mr. Rainboth C.E. is now surveying an alternate route along the river bank.

Friday 08/03/1895 Ottawa Journal Renfrew

Mr. Wm. Heald has sub-let a contract for the construction of the O.A. & P.S. from the Parry Sound end eastward and has left for the west to begin work on his contract.

Friday 08/03/1895 Ottawa Journal Maniwaki

The Ottawa and Gatineau railway will run two trains over their line each way next summer. An increased amount of travel is expected over the line.

Saturday 09/03/1895 Ottawa Journal Renfrew

May not go on Concession St.

There is now a possibility that Mr. Booth may not build the Parry Sound Railway workshops on the proposed site on Concession st.

A rumor to that effect was around town today based on the fact that yesterday the negotiations between Mr. Booth and Mr. Thos. Hickey for the sale of 12 acres of land owned by Mr. Hickey next to the land recently sold to Mr. Booth by his brother Andrew Hickey fell through.

Mr. Hickey, it is understood, asked more than Mr. Booth cared to give.

It was stated this morning that without the Thomas Hickey property, Mr. Booth would not have enough room for his shops, yards and other purposes, and would therefore be obligated to look elsewhere for a site.

Mr. Booth was not in town yesterday, and officials of the road approached, outside of admitting that the negotiations with Mr. Thomas Hickey were off, were not prepared to say anything.

Thursday 14/03/1895 Ottawa Journal Pontiac & Pacific Junction

Mr. W. Dale Harris, general manager of the Pontiac and Pacific Junction Railway informed the Journal this morning that the company is arranging to pay in full all their employees and that the company expects to be able to do so by next week.

The employees have for some time been kept between six and seven months in arrears and the information that they are to be paid up within a few days will be joyful news to them.

Wednesday 15/03/1895 Ottawa Journal Ottawa Electric

This season's track laying program.

Friday 15/03/1895 Renfrew Mercury Renfrew Caldwell

During the past winter there has been an average of fifteen car loads of pulp wood, railroad ties and fence posts delivered at Caldwell's station (Scotch Bush) on the O.A. & P.S. Ry.

Saturday 16/03/1895 Ottawa Free Press Canada Atlantic locomotive

Three new "Mogul" locomotives, Nos. 101, 102 and 103 intended for the O.A. & P.S. railway arrived at the Canada Atlantic Railway station yesterday and will go into service at once.

Monday 18/03/1895 Ottawa Journal Renfrew

Booth, Chamberlain and Mountain returned from looking for a site for the terminal at Parry Sound.

--

The work on the eastern end is going on rapidly. Over twelve hundred feet of pile driving has been done on the Mud Creek trestle on Long Lake. This work will be finished in about four days after which rock cutting will begin.

Wednesday 27/03/1895 Ottawa Journal Maniwaki

When the Pay Car's In

There will now be joy among the employes of the Ottawa and Gatineau Valley. The paymaster was to have gone up the line today and pay up the five and six months arrears of wages due the employes of the road. This will put an end to dissatisfaction among the men over the delay in the payment of their wages.

An employe of the line requests the Journal to publish the following piece of poetry which well describes the scene that may be expected along the line of the O and G Ry. after the pay car passes up.

When the Pay Car's In

When the pay car's in,
When the pay car's in,
Won't the boys around the railway
Have a mighty pile of "tin".
And all the wives and children
Will be smiling, for they know
That father will be coming
With his features all aglow,
To have a quiet evening
From the rattle and the din
Of the smoky locomotive
When the pay car's in.

When the pay car's in,
When the pay car's in,
Won't the grocers and the butchers
And the haberdashers grin,
For the "fifties" and the "twenties"
Will be flying around the town,
And the clerks will all be busy
Writing lots of credit down.
Oh! The joy of getting married
Would be hardly worth a pin
Beside the jubilation
When the pay car's in.

Wednesday 27/03/1895 Ottawa Free Press Hull Electric

It is understood that the negotiations which have been in progress between Mr. Theophile Viau the projector of the new electric railway between Hull and Aylmer and a wealthy syndicate of gentlemen in western Ontario are being renewed and the deal will either be closed or knocked on the head within a week. A gentleman who was negotiating the deal some time ago is expected in the city next week, when further developments may be expected.

Thursday 28/03/1895 Ottawa Journal Renfrew

Fully 300 men are waiting at Whitney for the re-opening of the work on the construction on the O.A. & P.S. Ry. At present the only work being done is on the rock cuts and pile driving. It is expected that work on the gravel pits will commence in about a fortnight, and this will give employment to many of these men. Work on grading will not commence until the frost is out of the ground. - Eganville Enterprise.

On Friday night two engines passed Eganville on the O.A. & P.S. Ry. loaded with dynamite for the construction west of Long Lake. Each engine drew two cars, each car containing ten tons of dynamite. in order to make the conveyance of the dangerous material as safe as possible, the trains were four hours apart, one passing here at twelve o'clock, midnight, and one at three o'clock Saturday morning, and both arriving at Whitney on Saturday morning. - Eganville Enterprise.

Thursday 28/03/1895 Ottawa Journal Maniwaki

There was a high time on the O. & G.V. Ry. last night. As announced in yesterday's Journal the pay car went up the line yesterday and the employees were paid the five or six months arrears in wages due them by the company. The sixty or seventy employees of the line were thus enriched from \$200 to \$300 each.

A gentleman who came down the line this morning states that when the pay car came along yesterday the women and children actually came out to meet it. He states that after work last evening the employees at the end of the road besieged the hotels and had a hilarious time.

It is estimated that the company paid out over \$10,000 to their employees yesterday.

Mr. W. Dale Harris, general manager, and Mr. Resseman, general superintendent and Engineer Dunn went up with the pay car special yesterday. They returned to Ottawa again today and tomorrow will go over the line of the P. & P.J. Ry. to pay up all arrears.

Friday 29/03/1895 Ottawa Journal Canada Atlantic

The C.A.R. will put a large number of new, elegant excursion coaches on their line this summer. The coaches are now being built at the Crossen Car Works.

29/03/1895 Renfrew Mercury Renfrew

The OA & P S Ry. Company ought to put on another passenger car on their train between Eganville and Whitney. There are at present only two passenger cars on this train, and in both going and returning they are very often uncomfortably crowded as much so that sometimes passengers cannot get a seat and have to stand.

On Friday night two engines passed Eganville on the OA & PS R. with cars loaded with dynamite for the construction west of Long Lake. Each engine drew two cars, each car containing ten tons of dangerous material as safe as possible, the trains were four hours apart, one passing here at twelve o'clock, midnight, and one at three o'clock on Saturday morning, and both arrived at Whitney early on Saturday morning.

The train left Ottawa late at night and travelled slowly, so as to minimize unexpected stops, cows, etc. on the line.

Tuesday 02/04/1895 Ottawa Free Press Renfrew Barrys Bay

The pile driving operations on the Parry Sound Railway at Barry's Bay will be completed in about a week's time.

Tuesday 02/04/1895 Ottawa Journal Maniwaki

Letter to the editor.

I see by your paper of last night that the O. & G.R. had sent up their pay car and settled all arrears. Now I would like to give you the people's side of the question and to inform you that they did not and never did pay up to date. They were over 9 months instead of 5 months in arrears and tonight would complete the 10th. They only paid to 31st December and are now still three months behind. One year ago they paid for February and we saw no more of them until July, when they sent out to the men that if they could wait for the four month's pay then due the company would commence a system of semi-monthly payments. They paid this way for one month, July. In September they paid for March and August only, and from that day until 27th March inst. we did not get a sight of them, notwithstanding all their promises of pay month to month, week to week and day to day. This time when the men confidently expected to be paid in full they were put of with pay to December, and if you were up this way you would have heard curses, not loud but deep - instead of the jubilate you publish. The people may have been out looking, but doubtfully for the car, as they had been so often deceived, and went home disappointed. As one man remarked, "This will not pay the little bills we owe, and the few dollars we should have to get a little comfort of us just what we never get".

Several agents and section men had sent in their resignations, to take effect 1st of April if not paid in full by that date. Those of the sectionmen were not accepted, but the station agents were allowed to depart, being told that they had nothing to complain of as they had free rent, wood and light. The rent was alright, but cordwood and coal-oil is poor chuck to feed a family on and the men find it hard to be obliged to look for other provisions on credit, when the money is earned and justly due to them.

The company have now promised to be up again in 2 weeks to pay up arrears but the men have lost all confidence in these promises and there is scarcely one of them but has his weather eye open for another job and ready to drop the O. & G. like a hot potato.

It is admitted that the road is paying splendidly. Then why not pay the men?

DE L'ARGENT COMPTANT Wakefield March 30, 1895

[Note the company is probably trying to do the best it can, and as it is spending a lot of money in pushing construction, it is under a heavy burden. That employees should not get their full wages on time is certainly a hard matter, but it might be remembered, too, that if there were no road there would be no wages at all, nor would there be any wages if, through a shortage of money the road stops operating. We do not think the road is "admitted to be paying splendidly". In fact, it is almost a miracle if a short piece of unfinished line with four trains or less per day is paying at all. The company has spent a lot of outside money in construction in the Gatineau country, but no dividends have come back yet, and nobody connected with the company appears to be a millionaire. - Ed]

Friday 05/04/1895 Renfrew Mercury Renfrew Barrys Bay

It is reported that the O.A. & P.S. R. Co. will rebuild their station at Barry's Bay, on land adjoining that of Mr. Stafford, which has been given them for free.

Tuesday 09/04/1895 Ottawa Free Press Renfrew locomotive

Two new big "Mogul" freight locomotives for the Canada Atlantic railway arrived at the shops yesterday and will be put into service at once.

Tuesday 09/04/1895 Ottawa Free Press Hull Electric

Mr. Viau, of Hull, today stated that work on the electric railway in Hull would be started when the frost has left the ground. He hoped to have the cars running this summer and the construction will be rushed ahead with that intent. The plans and specifications being all arranged, it will be only a question of securing the right of way between Hull and Aylmer, which he anticipates little difficulty in obtaining. The alternate routes are now under consideration and a choice will be made shortly. As for the electric lighting, it will probably stand over till the road is in operation. It is believed by most of the prominent Hull citizens that the electric railway will be running next summer as promised by Mr. Viau and his associates.

Thursday 11/04/1895 Ottawa Journal Renfrew Whitney

Big boom in the lumber industry in the district --

On the railway near Whitney the principal work is rock excavation and trestle work. There are 150 men employed there now, and the summer camps are being put up.

12/04/1895 Renfrew Mercury Renfrew

The passenger traffic of the OA & PS is now almost as large as the CAR between Ottawa and Montreal. Both lines are doing a good business, but travel on the OA & PS is increasing every day, and becoming a rival to the older line. Residents from as far as fifty miles distant come to make their large purchases. Ottawa Journal/Renfrew Mercury

Monday 15/04/1895 Ottawa Free Press Maniwaki

A small landslide occurred on the Gatineau Valley railway on Saturday morning above Chelsea.. The track was cleaned during the day and traffic was kept going. The line is being watched carefully throughout its whole length.

Thursday 18/04/1895 The Equity, Shawville Pontiac & Pacific Junction

Last week a government engineer made an inspection of the Pontiac Railway, to ascertain as far as we can learn, if the reports regarding the unsafe condition of the road were well grounded. Nothing authentic has reached us as to the nature of the engineer's report, but one rumor states that the road was found to be as good as the C.P.R., whilst another avers that it barely escaped condemnation. The latter agrees pretty closely with the opinion of the line men, who state that the great majority of the ties need replacing. It is to be hoped that for the safety of the travelling community, the company will undertake the necessary repairs at once.

Friday 19/04/1895 Renfrew Mercury Kingston, Smiths Falls and Ottawa

The Kingston News of April 6th says:- C.F. Gildersleeve, one of the promoters of the Kingston, Smiths Falls & Ottawa railway, says it is likely that Mr. Drummond, now in London, England, will be able to float the bonds of the road to the satisfaction of the directors. The Grand Trunk Railway Company has entered into an agreement with the Kingston, Smiths Falls & Ottawa Railway company, which will give confidence to English capitalists who will take up the bonds. In about two months it will be known whether the new road will be completed or not.

Friday 19/04/1895 Renfrew Mercury Chalk River Renfrew

This week, Mr. Milward, the travelling freight agent of the C.P.R., in passing Renfrew, gave to Mr. W.M. Dickson, C.P.R. agent, the good news that Mr. C.W. Spencer had told him Saturday evening that the appropriation of money for the erection of a new station at Renfrew had been passed and that Mr. Spencer would be in Renfrew on the 25th to lay out the site. If the appropriation is to cover the plans prepared some time ago - by one of Montreal best architects - the structure will be of a kind to make it worth Renfrew's while to have had to wait for.

Surveyors are engaged today surveying the sidings into W.C. Edwards and Co.'s yards.

Friday 19/04/1895 Brockville Recorder Westport

Last week a number of small boys, while out on a sap hunting expedition above town, reached the B. & W. Railway tracks just as the outgoing express came along. They were armed with catapults and at once proceeded to assault the train. One stone crashed through a window in the passenger car, and as this is a very serious offence, the perpetrators were looked up. A son of William McNish was arrested and in police court Tuesday morning was found guilty and let go under suspended sentence, his father furnishing \$50 bail.

Monday 22/04/1895 Ottawa Free Press Renfrew

Two new gangs of workmen have just been despatched to begin operations on the far end of the Ottawa, Arnprior and Parry Sound Railway. There were two locomotives and a long train of flats, together with one of the steam shovels, which has wintered in the Elgin street yards. A second shovel, which has not left the city will be sent up the line in a few days to begin work in one of the gravel pits. The frost seems to be pretty well out of the ground and it is anticipated that one of the shovels will be able to operate without difficulty.

Arthur Bruce, engineer, OA & PS, has discovered a gravel pit on the right of way, one mile west of Whitney. As formerly, gravel was brought from Opeongo Forks, the value of the pit is apparent. This will supply gravel to the end of the road.

Contractor Richardson was burning brush and it got out of control. It burned for three days near Whitney. They tried to save buildings at Contractor Heald's headquarters. The fire was on the least valuable portion of the limit. Ottawa Journal/Renfrew Mercury

Monday 29/04/1895 Ottawa Journal Ottawa Electric

Rails on the way.

The rails ordered by the Electric Railway for the 1895 extensions have arrived in Montreal and are expected here in a few days.

Today the company gave their order for spikes and bolts. These are purchased in Canada.

The ties are all out and delivered in the situ. As soon as the rails arrive work will at once be begun.

The first ties will be laid on Nicholas street, but the line to the Experimental Farm will go on at the same time. Employment will be given to a large number of men.

Seven hundred and sixty-two tons of rails will be used in the different extensions. Theodore and Nicholas streets will take 282 tons and the Hintonburgh-

Experimental Farm line 480 tons. In the different branches 22,000 ties will be used.

It is not known how soon the line to the Farm will be built, but the company with their usual push will hustle the work all they can.

Saturday 29/04/1895 Ottawa Journal Renfrew

Four hundred men are already at work on the O.A. & P.S.R. Three hundred are engaged on the first section west of the eastern terminus and one hundred on the second section. The principal work at present is rock-cutting and clearing the right of way. Three hundred men are now at the end of iron ready to go to work.

03/05/1895 *Eganville Enterprise* *Renfrew*

Mr. J. R. Booth passed west on the OA & PS on Wednesday, 17th, being accompanied by Mr. Chamberlain, the manager of the road. The report is that part of their business going west was to settle the Barry's Bay dispute, either by arranging with Mr. Stafford or by moving the station upon the land of Mr. James Drohan, who has made a most liberal offer to them. While at Eganville station they were interviewed as to furnishing material to gravel the travelled road from the station to the village, which at present is almost impassable. They promised that as soon as the gravel pits were opened, that they would have several car loads of gravel dumped at the station, if the villagers would draw and spread it. This the hotel keepers and other owners of teams have promised to do. The Booth limits on both sides of the Madawaska, near the mouth of L'Amable Creek, were on fire last week. All the men on the various drives of logs were taken off the river to endeavour to prevent its spread but despite their efforts it spread with great rapidity. The fire started from the OA & PS Ry.. Line where the right of way was being cleared out. The McLachlin limits to the north of Carson Lake were also on fire and their men were also fighting it. The heavy downfall of rain on Saturday night and Sunday came just in time to save the limits from disastrous fires.

Friday 03/05/1895 *Ottawa Journal* *Carleton Place* *Britannia*

Yesterday it was intimated that the probable time for the leaving Britannia of the morning train would be 8.30 as desired by a majority of those interested and this is the hour fixed upon the local service having been begun yesterday; and the former afternoon local will now be an evening one, leaving Ottawa at 9.40 and Britannia at 10 o'clock, thus bringing in after an evening's enjoyment, those who may go out to visit friends in the afternoon. No better arrangement could be desired and Mr. Spencer deserves thanks those interested say, for his consideration for the Burghers and their friends.

Saturday 04/05/1895 *Ottawa Free Press* *Ottawa Electric*

Electric railway construction will be in full blast within a few days, and large gangs of men will be engaged very shortly in building the extensions to the system along Nicholas, --and to the Experimental Farm, already the ties are being laid on the first named thoroughfare, and this morning fourteen cars of rails arrived in the city for the tracks. These will be distributed in quick order on the route of the St. Georges ward extensions first, while the Hintonburg route will be followed up as rapidly as possible.

Hitherto, Mr. Frank Leamy has done the work under the immediate control of the company, but this year the company has made a change, having signed a contract with Mr. Walter Leamy to execute the job, Mr. Frank filling a similar position under his brother's contract as he did for the company. One of the stipulations of the Electric Railway Company is that

ONLY CITY LABOR

shall be employed on the construction work wherever it is possible to do so, the desire of the directors being to give employment to our own people under every possible circumstance. Mr. Leamy had the control of a large share of the Montreal Electric Railway tracks and is one of the best men on the continent in this class of work. There will be no time lost in completing the job. He is today making arrangements to start work on Monday morning.

The new design of rails for laying on the asphalt pavement have been shipped by boat from Chicago, and will come via Prescott.

The Rockcliffe route appears to be as popular as ever judging by the number of visitors there during the past few days. Improvements made by the company during the past winter are highly spoken of.

Monday 06/05/1895 *Ottawa Free Press* *Maniwaki*

The Governor General and the Countess of Aberdeen left Ottawa on Saturday afternoon for a short trip on the Gatineau Railway, in order to obtain a day or two of quiet and retirement. Their excellencies travelled in their private car which was placed on a siding at Cascades, a charming spot where the party remained over Sunday.

Tuesday 07/05/1895 *Ottawa Journal* *Maniwaki*

The O. & G. Ry. will run two passenger trains over their line east and west during the coming summer, as they did last season. The service will begin about the middle of this month. Passenger trains will leave Ottawa about 8.30 a.m. and 5.20 p.m. returning to the city about 9 a.m. and 3 p.m. The Gatineau promises to be as popular a spot for summer excursion parties this year as it was last season.

There is a rumor abroad today which appears to be well founded that negotiations are pending between the principals of the Parry Sound Railway, and the Ottawa East council for the erection of the workshops in that village. More.

Friday 10/05/1895 *Ottawa Free Press* *Deschenes Bridge*

Railway Committee.

The bill to incorporate the Deschenes Bridge Company, composed of W.J. Conroy, Hull; J.R. Booth, J.F. Booth, John Christie, and William Anderson of Ottawa was taken up. Sir James Grant introduced Mr. Christie the company's legal advisor. In reply to Mr. Haggart, Mr. Christie said the total length of the bridge was to be 1,560 feet and that they desired the usual approach of track of three miles on each side. On a question raised by Mr. Fraser, Mr. Haggart said he knew the place, had no objection to the clause which declared it to be for the general advantage of Canada. The specification had to be approved by the government, and they could provide that in case of a canal being built there, a drawbridge would have to be constructed.

Mr. Chrysler, for the Ottawa Electric Railway Co., said his company proposed building a bridge, either at the same point or at Skead's Mills. At the former point there was only about 100 yards available where a bridge could be built. He wanted the section amended so as not to give the company exclusive bridge building rights at this point. He was assured that his company would be safeguarded when its own bill came up. Mr. Chrysler also secured an amendment putting railway companies on the same footing as foot passengers in case of a dispute as to tolls to be charged.

The capital stock of the company is to be \$500,000, and the estimated cost of the bridge \$300,000. The bill passed.

Friday 10/05/1895 *Ottawa Journal* *Renfrew*

Track laying will likely begin on the O.A. & P.S. Ry. by then end of next week. The grading is going along rapidly and two gravel pits are being worked.

Wednesday 22/05/1895 Ottawa Free Press Ottawa Electric

There is trouble over the extension of the electric railway along Nicholas street, and there may be an appeal to the government in which the city, the Canada Atlantic company and the electric railway company will be the interested parties. It has been started through the employees of the electric railway being staying in the process of erecting poles on the extreme southern end of Nicholas street by the agents of the Canada Atlantic and Parry Sound railways. More.

Wednesday 22/05/1895 Ottawa Citizen Canada Atlantic Ottawa Union Central Depot

It was learned last night from a reliable source that Mr. Booth had completed all arrangements for the central station project as well as for the construction of the workshops for the C.A.R. and the O.A. & P.S. railways.

What the Citizen was told was:

"That a station would be erected on the east side of Dey's rink near Theodore street.

"That to reach it the line of the C.A.R. beginning at the west side of the bridge over the Rideau river would be changed so that it would run directly to the head of Deep Cut and thence by way of the canal bank;

"That the line of the Parry Sound railway would be extended on the east of the canal so that it would connect with the C.A.R. line at the head of Deep Cut; and

"That the site of the proposed workshops would be the government property near the Deep Cut.

TO HAVE A SUBWAY

The Citizen's informant stated there would not be a level crossing on Theodore street for a subway was to be built. He further stated that the pile driving necessary along the canal bank for the construction of the railway was to be commenced in a few days. As the Citizen has stated a short time ago, Mr. Booth would have the work done. Yesterday two scows used by Messrs. Bronson and Weston some time ago in towing lumber up from their mills to the piling grounds at Rockcliffe had been taken up through the locks and would be used in the work. Another small scow was in the course of construction at the C.A.R. workshops and was to be used for the same purpose.

A TEMPORARY STATION

Regarding the site of the station, the Citizen was told that Mr. Booth had come to the conclusion that it was best to construct a temporary station on the site indicated pending a settlement on the ownership of the property along the canal basin, and now in dispute between the Government and the Sparks' estate. The property for the station had been purchased from Mr. Thomas Kirby, and it was likely Mr. Booth would have the station and railways completed by October.

Thursday 23/05/1895 Ottawa Journal Pontiac & Pacific Junction Aylmer

Aylmer - the change of time in the P.P.& J.R. service came into effect on Monday. The train from Pontiac now arrives at 8 o'clock thus connecting with the first train for Ottawa and enables passengers from north of Aylmer to reach Ottawa two hours earlier than heretofore.

Friday 24/05/1895 Brockville Recorder Kingston (CP) Calabogie

On Wednesday the K. & P. express train was late on reaching Renfrew. The cause of the delay was a break in one of the twin bridges over the Madawaska at Calabogie - the bridge furthest from Renfrew. Just as the mixed train was crossing the timbers were heard to crack. The hands prepared to jump in quick order, if necessary, but the locomotive and cars crossed without mishap. When the express came along, it was not deemed expedient to run the engine over. The cars were shunted over the bridge safely, and then the passengers walked over. The freight engine completed the trip to Renfrew.

24/05/1895 Renfrew Mercury Renfrew Killaloe

Alex Barnet, of Renfrew, a square timber dealer, states that there is now a very limited demand for square timber, and this year, not nearly so much will be got out.

'The sawmill at Killaloe was completely destroyed by fire. The origin of the fire is supposed to be a spark from a passing OA & PS locomotive. Damages were about \$2,500, and there was no insurance.

C.A.R. Extension

The impression having got abroad that the Canada Atlantic railway was about to take vigorous action to prevent the tracklaying o the electric railway at the south end of Nicholas street at the very point proposed to be crossed by the C.A.R. extension down the canal bank to the Central station whenever that work is proceeded with, the Journal called on Mr. Booth yesterday for information on the subject. Mr. Booth was very reluctant to speak, but eventually consented to do so.

Wholly baseless

Was there any ground for the report that your company intended to stop the Electric Railway Company from putting down their track on the south end of Nicholas street? Mr. Booth was asked.

None whatever, Mr. Booth replied. I prefer to do things in an honorable and businesslike way.

The Electric Railway Company have put down a piece of track where your line will cross Nicholas street?

Yes, it is so reported.

Will that interfere in any way with your line?

Oh no.

Well then, what was their object in putting down a short piece of track at that point and then stopping work?

Their object

I can't give any reason than that it arose from a resolve to get ahead of me, to get prior rights of the crossing. Perhaps I should give my reasons for using these terms. When I found out they were putting a track on that street, and as I understood they were only going to the city limits, as I would soon be crossing gravel trains at that point very often each day for some time, and I had an interview with Mr. Ahearn and the city engineer and I explained to them that I intended to make an undercrossing at that point, as I considered it would be in the interests of both companies and the public to have it in that way.

Mr. Ahearn agreed with me. He asked me how long it would take to put in the undercrossing. I answered about a month or so. Mr. Ahearn said then he would stop the work there, and I was very much surprised to learn that he had put down a few yards of track just at this point, where it was intended to make the undercrossing. I was very much surprised also to hear that police protection had been obtained in anticipation of a difficulty.

What will your company do now in the matter of the crossing?

Oh nothing, only to give them the level crossing that they appear to want.

As to Central Station.

What about Central Station?

I am working on that, and am trying to get things in shape to go on as soon as possible but matters are not in a position just yet to say anything further on that point.

WHAT MR. AHEARN SAYS

Mr. Ahearn was seen by the Journal this morning with respect to the Nicholas street extension of the Electric Railway Company. He said he was desirous of removing the impression that trouble with the Canada Atlantic had been expected. From the reports circulated one would have thought the electric people were going out with shotguns "loaded for b'ar." On the contrary, the relations were most cordial.

Why were policemen sent out to protect the electric railway construction?

I was never more surprised than when I heard it. There was nothing in the relations of the two companies calling for it. I found out on enquiry that they were sent out on the application of the Contractor Leamy, who had been told there might be trouble if he employed Italians or other elements not agreeable to the labor leaders. They were not wanted by the electric road.

Why the south end was started.

As regards the question of constructing the electric road track across the proposed C.A.R. right of way, Mr. Ahearn explained that he had been asked to stop construction at that point for a few weeks, and had agreed to do so. In the meantime, however, he was charged with not intending to go on with the road, and a question arose as well as to stopping construction at the end of the granolithic sidewalk on Nicholas street, which is about 150 yards from city limits. The object of the Electric Company was to get to Ottawa East. To stop short of the south end of Nicholas street would be out of the question. It was therefore decided to proceed with the construction at once - but at the south end of the street. Unless he did so, the C.A.R. would have the right of way and the extension of the electric road to Ottawa East might be delayed indefinitely and this of course was out of the question. There was no help for it but to commence at the south end and secure the right of way for the electric road. It was purely a measure of self defence and an absolutely necessary one. The company could not allow its track to be stopped on the north side of the C.A.R. crossing indefinitely.

The contract.

The city engineer being asked what should be done, answered "There's your contract. carry it out." In other words their contract with the city called on them to build across the proposed C.A.R. crossing at the south end of Nicholas street, and they had gone ahead accordingly.

Wednesday 29/05/1895 Ottawa Journal Ottawa and Aylmer Railway and Br

Bill reported to the House.

Wednesday 29/05/1895 Ottawa Free Press Ottawa and Aylmer Railway and Br

At the Railway Committee this morning the bill incorporating the Ottawa and Aylmer Railway and Bridge company was finally put through. On the objection of the Hull Electric Railway, represented by Mr. J.M. McDougall, Q.C., an amendment was added providing that before the Ottawa company build any of their line in Quebec, they shall be obliged to have the bridge and the Ontario part of the line built. This, Mr. McDougall said, was a necessary precaution, as the company have power to build their line via Hull to Aylmer, and in any event the Viau line would be paralld from opposite Britannia to Aylmer by the line incorporated under this bill.

Mr. Mulock wanted the capital stock reduced from \$1,000,000 but this was lost on division.

Mr. Ouimet wanted it made compulsory for the company to let the bridge be used for carriage and foot passengers as well as railway, but this was objected to and lost on division, and the committee agreed to report the bill as amended.

Wednesday 29/05/1895 Ottawa Free Press Ottawa Electric Chaudiere

Yesterday as two green cars were passing each other on the Chaudiere bridge, where the tracks are very close, they collided and shattered to pieces the steps and uprights on one side of both cars. Conductor Lyon gave his motorman the signal to start from the end of the line, and when his car had gone three quarter ways on the bridge the car coming from the other end started on to the other end of the bridge, and before the cars could be stopped, they collided with the above results. The two motormen were suspended for one month because they knew that the tracks were too close at this point to admit the passing of two cars. The motormen were new hands and it was owing to this that the accident happened, The damage to the two cars amounts to \$200. No person was hurt.

Friday 07/06/1895 Brockville Recorder Brockville and New York Bridge Perth

On Tuesday, says the Perth Courier, Mr. Chas. J. Pusey, of Bancroft, Ont., arrived in town in the interest of the proposed extension of the Irondale, Bancroft and Ottawa railway eastward to Lanark, Perth and Brockville, there to cross by the projected new bridge across the St. Lawrence, to New York city. The other end will be extended to Gravenhurst on Georgian Bay, to get Northwest connections. Bonuses will be asked from the municipalities about here.

The cars of the Gatineau Valley railway are being painted in the New Edinburgh shops of the electric railway. They are transferred over the line of the St. L. & O. railway. A mail car with a smoking compartment presented a very neat appearance as it left the sheds this morning.

Monday 10/06/1895 Ottawa Journal Canada Atlantic Central Depot

An engineering party from the Canada Atlantic railway are surveying a route for a temporary track from the main line back of Ottawa East to the Deep Cut. A level crossing has also been laid over the roadway fronting the canal in the village just outside the city limits.

The object of the track about to be laid, is, the company state, to secure a means of carting away the material that will be taken out of the canal, in connection with the pile driving and also to draw material to fill in the flat below the Deep Cut through which it is proposed to run the canal bank line, when formalities are settled.

There is also the likelihood that the line for which the survey is now being made will also be used as a permanent line, if the road goes on.

Some people who saw the crossing put down were of the impression that the Canada Atlantic were trying to secure possession of the street crossing, but Canada Atlantic officials asked about the matter said the idea was away off. Possession would do the company no good, as all crossings depended upon the approval of the railway committee of the Privy Council.

Monday 10/06/1895 Ottawa Free Press Hull Electric

Mr. Theophile Viau is back from Montreal where he was negotiating for the construction of his proposed line of electric railway in Hull and Aylmer and connecting those two communities. He states that he met with good success, and will very shortly be able to begin active operations.

Tuesday 11/06/1895 Ottawa Journal Canada Atlantic Central Depot

Trestle work begun

A definite move towards the canal bank line

The first definite move in the direction of building a line into the Central depot was began this morning, when a gang of men were set to work to build the trestle work of the line from the C.A.R. main line to the head of Deep Cut. The timber is being laid today on Mr. Alex. Stewart's property, the flow flat of land lying back of Ottawa East.

An official of the C.A.R. stated today that the trestle work will go on at once. It will take some time to build the trestle, as it will be nearly a quarter of a mile in length. After the trestle is all built the company will begin filling it in with gravel. This work will keep a gang of men employed almost all summer.

Wednesday 12/06/1895 Ottawa Journal Ottawa Electric

The construction of the Somerset street line is now being rushed. It began Monday. Today the ties are laid beyond Percy street, the rails a short distance below, and the ballasting is completed to Kent street. Contractor Leamy is getting on a phenomenal hustle. He is employing a large number of men.

Thursday 13/06/1895 Ottawa Journal Ottawa Electric

Montreal, June 12. The Butcher's Association met last night and decided to accept the rates offered by the Street Railway Company for the conveyance of meat from the abattoirs to the different stores and markets in the city, and the association recommended that all the members accept these terms so that the company can commence the work immediately.

NB - it is not clear that this refers to Ottawa.

Friday 14/06/1895 Ottawa Free Press Ottawa Electric

Shortly after half past two this afternoon officials of the electric railway and a number of aldermen, Mayor Borthwick, and several prominent citizens, boarded two cars and officially opened the Theodore street loop line. More.

Friday 14/06/1895 Ottawa Journal Renfrew

The Dominion Bridge company have had a writ issued against Mr. J. O'Brien of Renfrew, a contractor on the O.A. & P.S. Railway for \$1,375, the price of a turntable supplied the contractor on the construction work on the line.

Friday 14/06/1895 Ottawa Journal Ottawa Electric

The formal opening of the Nicholas and Theodore street branch of the electric street railway took place this afternoon. Two special cars containing the mayor, aldermen and many prominent citizens left the city hall square at half past two o'clock. At the corner of Nicholas and Rideau streets as well as along Nicholas and Theodore, bunting and flags were displayed in honor of the opening of the line to residents along these streets. Many of the residents cheered lustily as the cars passed by.

A trial trip was made over the line last evening by a special car on board of which were superintendent Hutcheson, W.Y. Soper, Ex-Ald. Baldwin, F. Leamy, Geo. Harris and others.

Tuesday 18/06/1895 Ottawa Journal Canada Atlantic Central Depot

Fifty men were put at work this morning to build the trestle work of the line into the Central Depot.

The survey of the line as far as Theodore street has been completed and yesterday Mr. Geo. Root and a party of the engineering staff of the O.A. & P.S. Ry. finished taking their levels for the trestle work so that it could be immediately commenced.

Construction of the trestle will go on with as much rapidity as possible. The timbers are all on the spot so there will be no delay on that score. Framers and other workers are on hand framing the trestle timber.

Today many of the heavy upright timbers had placed in position.

The trestle which gives an inlet from the C.A.R. line to the Central Depot extends from a point where the line crosses the Rideau River bridge across a low flat of land owned by Mr. Arch. Stewart to the point where the Hurdman road connects with the Canal road above the head of the Deep Cut. The trestle will be 2,100 feet in length and from twenty to forty feet in height.

Wednesday 18/06/1895 Ottawa Journal Canada Atlantic Ottawa East

"There will be no delay in the work of building the line into the Central depot," said Mr. A.W. Fleck, secretary-treasurer of the C.A.R. this morning, "now that the trestle work has been begun."

"We are waiting for an answer from the Ottawa East council to our request for an exemption from taxes if we build our workshops adjoining the village. If it is in the affirmative we will then go on after the trestle work has been built to fill in the low property between the eastern and western lines preparatory to building our work shops there.

"If this is done a large force of men will be employed all summer."

A Great Benefit

A work such as the filling in of the low land as above described will be very welcome as it will keep a large number of men employed all summer, and will give a general stimulus to business. Just how much work will be done this summer of the work proposed is not known, but one thing is certain, as much as possible will be done.

Thursday 20/06/1895 Ottawa Journal Canada Atlantic Ottawa East

On at the same time

So will go the "V" and the filling of the C.A.R. car shops

It is learned today that the filling in of the main and switch track of the C.A.R. back of the Deep Cut and the workshops that are to occupy the "V" space that is to be filled in, will go on at the same time.

Ordinarily the earth in the space that is to be filled in would be too soft to permit foundations to be laid this summer, but Mr. Booth has decided to pile drive the foundations, and as the space is filled in piles will be driven and the workshops constructed concurrently.

There are some fifteen acres to be filled in, to a depth of from 12 to 16 feet. The job will likely take all summer.

A large part of the filling will be taken from the canal bank, which has to be cut down to the tops of the piles now being put in, a distance of about 12 feet. The material will be carried away on flat cars, and dumped in the "hole" back of the Deep Cut.

Nothing is yet definitely known about the size or details of the workshops. The plans are still in the embryo. It is certain, however, that there will be instead of one large shop a number of small ones. These shops will be used for the manufacture of cars of all kinds, and for repairing. The company's roundhouse will also be situated inside the "V" The timber for one of the car shops is now lying out on Mr. Booth's property near Concession Street, where it was held in readiness to build if Mr. Booth had secured the Hickey property.

Building of the Trestle Work at the Deep Cut begun

Fifty men were at work this morning to build the trestle work of the line into the Central Depot.

The survey of the line as far as Theodore Street has been completed and yesterday Mr. Geo. Root and a party of the engineering staff of the O.A. & P.S. Ry. finished taking levels for the trestle work so that it could be immediately commenced.

The construction of the trestle will go on with as much rapidity as possible. The timbers are all on the spot so there will be no delay on that score. Framers and other workers are on hand framing the trestle lumber. To-day many of the heavy upright timbers had [been] placed in position.

The trestle which gives an inlet from the C.A.R. line to the Central depot, extends from the point where the line crosses the Rideau river bridge across the low flat of land owned by Mr. Arch Stewart to the point where the Hurdman road connects with the Canal road above the head of the deep Cut. The trestle will be 3,100 feet in length and from twenty to forty feet in height. (Branchline)

Friday **21/06/1895** **Ottawa Journal** **Ottawa Electric**

The laying of tracks on Wellington street for the temporary electric line will be started immediately after July 1. The Minister of Public Works has given permission provided the work is delayed until after the unveiling of the monument of the late Sir John A. MacDonald.

Tracklaying on the Somerset street branch of the electric railway has reached Division street.

Saturday **22/06/1895** **Ottawa Journal** **Renfrew** **Eganville**

A daily train will likely be put on the O.A. & P.S. Railway west of Eganville next week.

Saturday **22/06/1895** **Ottawa Journal** **Hull Electric**

Mr. T. Viau, president of the Hull Electric Railway Co., is closing negotiations with a firm of American contractors for the building of the electric railway between Hull and Aylmer. The route will likely be along the shore of the Ottawa river, instead of along the Aylmer road, as the Road Company want too large a figure for a right of way. The work will begin early next month.

Saturday **22/06/1895** **Ottawa Journal** **Ottawa Electric**

Electric street railway plan - shows map of route.

Monday **24/06/1895** **Ottawa Journal** **Canada Atlantic** **Central Depot**

Mr. A.W. Fleck was seen this morning with reference to the statement in the evening paper that a temporary Central depot will be built at Theodore street. Mr. Fleck said, "It's nothing but a mere conjecture. I know nothing about it and I am sure the paper that made the statement cannot know anything either about such move."

Monday **24/06/1895** **Ottawa Journal** **Renfrew** **Whitney**

Whitney, the present terminus of the O.A. & P.S. Ry., 140 miles from Ottawa only a few months ago a wilderness is now rapidly developing into a large town.

The Eganville Star gives the following interesting description of the place.

St. Anthony Lumber --

Population 200 --

Boarding in camps --

The commodious steam saw mill now drawing near to completion is beautifully situated in a commanding position at the end of Long Lake. It is some half a mile from the railway station, with which it is connected by a branch line on which machinery and supplies are landed close to the mill.

Details of the mill.

Another article

The work on the construction of the O.A. & P.S. Ry. goes merrily along.

Messrs. D.R. McDonald and McMartin are pushing the work on the construction of the first ten miles above Whitney. Nearly all the rock cutting is done and grading is going on rapidly. The roadbed is well done and reflects great credit on the skill and ability of the contractors.

The contract for the third ten miles has not been given out. The government, seemingly, have not granted a bonus for construction further than three miles above White Fish Lake.

Messrs. Breuder and McNaughton, contractors, have two miles of the trestle work on the first ten miles above Whitney completed. At Mud creek the pile driving is completed. At Breuder's Bay pile driving is going on so satisfactory that in a few days both ends of the construction across the bay will be connected.

The work looks solid and substantial and carefully superintended by the firm.

Messrs. O'Neil and Ferguson, contractors for the second ten miles have very little rock cutting to do, all will be completed in a few weeks. Grading and levelling is going on rapidly. Large numbers of Italians can be seen on the right of way. They are capital workers and can stand black flies better than any other nationality. Messrs. O'Neil and Ferguson thoroughly understand the construction, being level and well made, six weeks ago a swampy forest, now a well constructed railroad bed.

Monday **24/06/1895** **Ottawa Journal** **Renfrew**

Perhaps the largest excursion that has ever been run over any railway line in eastern Ontario was that of the employees of the Canada Atlantic to Golden Lake on the O.A. & P.S. Ry. this morning.

The excursion was from all points on the C.A.R. from Coteau to Ottawa and along the line of the O.A. & P.S. Ry. from all stations west of Ottawa.

Three solid excursion trains of ten coaches each, thirty coaches in all, were required to carry the 1,500 excursionists from the city alone. Besides this there was another excursion train from down the C.A.R. with five hundred people on board. It was expected that as many as 700 would patronize the excursion from points along the O.A. & P.S. Ry. thus making in all an excursion of 2,700 people.

The first excursion train left Ottawa at 7 a.m. and the second at 7.30 a.m. and the third at 8.05 a.m. The train from down the C.A.R. passed at 8 o'clock. The excursionists arrived at Golden Lake around 11 o'clock.

Nearly all the employees of the railway were granted a holiday.

Two carloads of boats were attached to the first excursion train at Renfrew for the use of the excursionists at their destination.

Saturday **25/06/1895** **Ottawa Free Press** **Canada Atlantic**

An erroneous item appeared yesterday in an evening contemporary to the effect that the western end of the railway trestle at Archville is still unfinished owing to the company being unable to close a deal for the Daly property over which the trestle is to pass. The fact is that the property in question was sold to the company on Tuesday last by Mr. Charles Murphy, solicitor for Mr. Daly. On the same date Mr. Murphy also sold the Biggar lot which adjoins the Daly property and the company have thus had a clear right of way for some days.

Tuesday 25/06/1895 Ottawa Journal Pontiac & Pacific Junction

A return respecting the Pontiac and Pacific Junction Railway was laid before the House yesterday. It contains the following letter to the Minister of Railways from G.W. Pangbourn, mechanical engineer, dated Aylmer Jan 23, 1895.

"I beg to lay before you certain facts of which I know you are unacquainted. They refer to the unsafe and dilapidated condition of the P.P.J. Ry., between Aylmer and Waltham station. The greater proportion of cross ties are rotten, and consequently unsafe for passenger trains, in fact they are so bad that a large percentage of them are broken in two or three pieces. Culverts, cattle guards and cattle passes are actually falling to pieces, and at this date some have been blocked up to keep them in position. The large culverts, ten to fifteen feet openings are also unsafe. The stringers or lower timbers that lay or are embedded in the ground are rotten and no doubt will crumble as soon as disturbed by accidents or heavy flows of water. The large bridge near Breckenridge station some 7 3-4 miles from Aylmer, is in a disgraceful and unsafe condition, the piers being constructed of round and square timbers during the year 1884, and since date little or no repairs have been done. All the wooden bridges on the line are in the same wretched and unsafe condition. The trestle work at Parker's station, also the trestle 1 1-2 miles west of Quyon station, built during the years 1884 and 1885, have had some slight repairs, which could not have been of much service or improvement judging from the sample of cull and rotten timber that passed this stations (sic), to be distributed at these trestles of bridges on the line. All floor timbers or cross timbers on iron bridges at Quyon, Campbell's Bay, Bernard's Creek are also in a very unsafe condition, and should be removed as soon as possible. In the interest of the people of Ottawa and Pontiac counties, also for the safety of the traveling public, some measures should be taken to compel the railway company to sufficiently repair the road and bridges at the earliest date possible to prevent serious loss of life."

The letter concludes by asking the Minister of Railways to order an inspection.

Other letters showed that F.J. Lynch, under instruction from the department of railways and canals, inspected the road on April 10 and 11. The effect of his report was that the road was in a safe condition for traffic but the company might be called upon to give attention to repairs this coming season. Mr. Lynch denied the sweeping charges made by Mr. Pangborn.

W. Dale Harris, managing director and chief engineer of the road also wrote several letters denying the charges, and informing the department of the repairs he himself had arranged for previous to the inspection. These were on a larger scale than those suggested by Mr. Lynch. A later letter states that the ties etc. for these renewals were distributed along the line.

This was also covered by the Free Press, same date.

Wednesday 26/06/1895 Ottawa Journal Pontiac & Pacific Junction

Letter to the Journal from W. Dale Harris.

The item which appeared in your issue of yesterday evening entitles "Pontiac Pacific Junction Railroad Track", gives publicity to certain documents laid on the table of the House on 24th inst. in which the safety of the railway is impeached, and as the refutation of the charges are given a very subordinate place in the item in question, permit me to add a few words of explanation.

A man named Pangborn, who, together with his son, had been summarily dismissed from the company's employ, addressed a letter in January last to the Minister of railways stating that the road was in a dilapidated, rotten and unsafe condition, and demanded an examination by the government. Accordingly the department of railways had a minute and critical examination made of the road from one end to the other. The report to the government of this inspection emphatically contradicted every charge made by Pangborn, and stated that the railway was in a perfectly safe and sound condition.

The repairs mentioned as being necessary were merely the ordinary renewals, which all the railways make from season to season, and had already been provided for in prior to the date of the man Pangborn's letter.

The company at the time regarded the action of Pangborn simply as an effort of a disappointed employee to give annoyance, and the matter would probably never been heard of again had not some relic hunter called for the correspondence in the House.

Yours etc.

Thursday 27/06/1895 Ottawa Journal Renfrew

Careful of dynamite

There has not been an accident on the construction of the O.A. & P.S. Ry. this summer. It must be said that few railways have been constructed with less accidents than have occurred on this line. Only two serious accidents have taken place on the road which speaks volumes for the carefulness and precaution of the men in charge of the work.

The fact that over two thousand men have been employed on the line all this summer where blasting and rock cutting is going on continually, and none of these have been injured is indeed very satisfactory.

Dynamite is the danger in railway construction. It is an explosive of which the O.A. & P.S. Ry. requires a large quantity. As much as a thousand tons of dynamite have already been used on the line this summer. The most of this dynamite was sent up last winter. It was drawn from the end of the iron to points on the survey where it would be required this summer.

Put on an island.

Magazines for the storage of this dynamite were built on islands in the lakes which abound in the neighbourhood of this summer's construction work. These magazines are from half a mile to a mile removed from the place where the men are this summer working on the construction. When dynamite is required, men are sent in a boat to the magazine and bring over two or three boxes of the explosives at a time. In this way the danger from the use of this explosive is greatly reduced.

In the conveying of dynamite over the line special trains are used. These are through trains and never more than three or four carloads of the explosive are allowed to be taken over the line at once.

The C.A.R. Trestle work

The western end of railway trestle at Archville is still unfinished as the company have not yet closed a deal for the Daly property over which the trestle is to pass. It is understood that the real difficulty exists in the owner of the property wanting to sell the whole of his claim to the company while the company only want to buy a right of way through it. If the deal cannot be made very soon the work of completing the trestle will go on and the value of the property left to arbitration.

It is learned that early next week the houses of squatters on Ordnance Land will be removed.

The pile driving along the east bank of the canal is being rushed along quite rapidly. It has now been done to within 150 yards of Maria street bridge which will be completed next month.

Wednesday 02/07/1895 Ottawa Citizen Sussex Street Sussex Street

The extension C.P.R. warehouse on Sussex Street, formerly the old St. Lawrence & Ottawa Railway station, narrowly escaped being wholly destroyed by fire early yesterday morning. As it was the east end of the building, facing Sussex street, was badly burned and the contents damaged. The contents consisted of over five thousand bags of flour, bran, etc., owned by Mr. Peter McRae, a large quantity of tar and felt paper, the property of Mr. Thomas Birkett. The average price of the flour and bran was about \$2 per bag making the total value about \$10,000. The bran was nearly all consumed by the flames and the flour damaged by water. More.

Work starts on asphaltting Sparks street today --

This morning the electric cars began running on Wellington street, via Bank street. The rails are only placed temporarily on ties laid on the surface of the street the ties being filled in with earth to steady them.

--
Tuesday 09/07/1895 Ottawa Journal Canada Atlantic Central Depot

The Canada Atlantic Railway has purchased from the Sparks estate the right of way down the canal bank from the Maria street bridge north to the Canal basin. This purchase will enable the company to run straight down the canal bank to the basin between Dey's rink and the water, and around the basin in front of the Ottawa Granite Works, to the desired point for the station on the site of the old drill shed on Nicholas st.

The original idea was to run across Theodore street at the back of Dey's rink, and then swing round the Granite works and the canal basin. The canal front route will be more satisfactory to the railway as it will give them better facilities for loading and shipping from the docks.

An arrangement was made with the Sparks estate by which the railway purchased whatever rights the estate might possess as shown by the action now pending between the estate and the Dominion government.

The O.A. & P.S. Ry. now have 1,200 feet of side track laid along the canal bank piling in preparation for the beginning of excavation of the bank for the laying of the line into the Central depot. Three hundred thousand cubic yards of earth are to be excavated. The steam shovel will begin work close to the water's edge and make a cut about thirty feet in in width along the bank after which the track will be moved inward and other strips of bank taken away until the excavation is completed.

Steam shovel at work

Tomorrow the steam shovel will be at work. it was brought down the line a few days ago and has been in the workshops undergoing repairs.

The trestle leading from the west end of the C.A.R. line into the Central depot is being rapidly constructed. It is now one third built and sills have been laid half the distance of the trestle. The trestle will be 1,500 feet long.

Mr. J.R. Booth the ever energetic president of the line has taken personal charge of the work. he is on the scene of operations from six o'clock in the morning until dusk in the evening. Although seventy years of age he is frequently observed handling the pick and shovel as an ordinary laborer. He is never happier than when he is working alongside of his employees.

Thursday 11/07/1895 Ottawa Free Press Canada Atlantic Central Depot

Practical work is running on the central depot line. As stated in the Free Press, the steam shovel arrived over the trestle work in the swamp on Monday and at once prepared for action. Today steam was raised and the "nigger" placed in position at the head of Hurdman road near the bed of the deep cut. It is proposed to keep the machinery at work night and day till Maria street bridge is reached. If, by that time an arrangement has not been reached between the Government and the Sparks estate agents, irrespective of the coming judgments of the Supreme court after the long vacation, the preparations for the temporary station will be begun at once and kept up with unremitting vigor till completed.

Thursday 11/07/1895 Ottawa Journal Ottawa Electric

New route will be opened tomorrow to Division street.

The Somerset street line of the electric railway will be opened tomorrow. For the present, owing to the non-arrival of expected trolley wire, there will be only one car on the route, there not being a trolley yet for the second track.

The car will run back and forward between Bank and Division streets. For the present the Somerset street car will not run on Bank street. The laying of the track to Hintonburg and the Farm is being pushed, but in the meantime a car running to Division street will accommodate a great many people residing between Albert street and Ann street.

Friday 12/07/1895 Renfrew Mercury Chalk River Renfrew

Messrs. Spencer of the C.P.R., and Folger of the K. & P.R., were in Renfrew on Wednesday evening of last week, choosing the site of the new C.P.R. station here. It will be just about on the spot where the K. & P.R. station stands; and will serve as passenger station for both railways. We understand that the contract for the building has been awarded to Mr. J.W. Munroe, of Pembroke. The structure will be 90x40 feet and of Sand Point stone. Also in the Shawville Equity, 18 July.

Friday 12/07/1895 Ottawa Citizen Ottawa Electric

The Somerset street railway line will be opened today.

12/07/1895 Ottawa Journal Renfrew

O'Neil and Ferguson were the OA & PS contractors in the Whitney area. The subcontractor for stonework (from Eganville) was Mr. Keating. Mr. Force, contractor on the OA & PS, near the terminus of the twenty-mile contract above Whitney, discovered, a few days ago, the skeleton of an Indian, with tomahawk and other curiosities at his side, while excavating for the rail bed.

Monday 15/07/1895 Ottawa Journal Renfrew

Heroics for Lawbreakers

Mr. Josh Conolly, license inspector has an exciting time up along the line of the O.A. & P.S. Ry. watching and punishing violators of the License Act. He has three cases at Whitney to be heard this week. He has to look after Nipissing and Haliburton and the lawbreakers of Haliburton have to be brought to justice in rather an heroic way.

Mr. Conolly's plan is to take along the magistrate and the constable up the string of lakes, and thus the trio travel by land and water until they locate the whiskey camp, when they at once seize the lawbreakers, if possible get out their papers and hold their court on the smoothest rock they can find. Sometimes the victim gets away.

One of the fugitives bolted from Mr. Conolly on one occasion, and left him part of his shirt. He has in custody liquor enough for an ordinary hotel. He was at Whitney not long ago and at the station he noticed a barrel marked vinegar. His suspicion was aroused and he resolved to get a search warrant to find out the quantity of "vinegar" but when he came next morning the barrel was gone, having disappeared through the night. He was informed that the so called "vinegar" was highwines. Renfrew Journal.

Monday 15/07/1895 Ottawa Journal Renfrew

Mr. Geo. Mountain has returned from a trip over the line. The ten mile section of Mr. Fauquier and O'Neil and Ferguson are well under way. The Mud Creek bridge on the Fauquier contract is now finished. At first it was thought that a pile structure 1,500 feet long would have to be built but the creek has been crossed with a bridge 230 feet long, and the long trestle work on the approaches are being filled in.

The trestle work on MacDonald and Brodeur Bays is well under way. The Fauquier contract will be finished by August 1, and O'Neil and Ferguson's contract by September. It is expected that trains will be running to 164 miles distant from Ottawa by the 1st of October. Two thousand men are now on the work. The contractors are now beginning to reduce their staff of laborers.

Watching a Hustler

About 200 people watched the C.A.R. steam shovel at work on the canal bank last night. It's a sight to see that shovel going. Last night in a little over two hours the shovel had scooped out earth, clay it is, and sticky at that, to load two trains of flat cars at twelve cars each.

The shovel takes up over an ordinary cart load at a time and works very rapidly.

When a train is loaded it is run on one of the trestles where the earth is unloaded rapidly by means of a stationary iron plough that is let down in front of the first car. When the plough is in position the train goes ahead, and the plough, catching the earth, hurls it off to the ground at the foot of the trestle. It is a rapid and business like process.

It is expected the whole bank, down to the Maria street bridge will be scooped out within a month.

The first train on the Gatineau Valley Railway will enter Gracefield on Friday next. The villagers will turn out and give it a cheer.

Wednesday 24/07/1895 Ottawa Journal Hammond

A correspondent from the rising village at Cheeney's station where a post office has just been opened, writes as to signs of progress along the line of the new branch of railway running from South Indian to Rockland.

Freight is now carried through to the lumber town on the Ottawa, but passenger traffic has not been begun owing to the fact that ballasting is in progress. This work is expected to be completed in five or six weeks and then regular passenger service will be begun.

Two stations have been completed, one at Cheeney's and the other at Clarence Creek. The buildings etc. were examined yesterday by Reeve Landry and Deputy Reeve Touchette on behalf of the township of Clarence which voted \$1,000 towards their construction. The work was pronounced first class and contractor Tomlinson complimented as he had previously been by the railway authorities.

At Cheeney's there is a regular hum of business. In addition to the post office there is a carding mill, a saw mill and a general store and a survey of the proposed village has just been completed by Mr. Biggar. P.L.S. and plan prepared for registration.

Saturday 27/07/1895 Ottawa Citizen Pontiac & Pacific Junction

The people of Pembroke may look forward to the early completion of the Pontiac and Pacific Junction Railway Pacific Railway to their town. Messrs. W. Dale Harris, general manager and Resseman, superintendent, left the city last evening for Pembroke. The object of their visit is to consult with the authorities at Pembroke with regard to the most suitable approach and entrance for the railway to the town. They will also make a survey of a proposed route eastwards to Waltham, the present terminus of the railway, and at the same time procure an idea of the possibilities of the freight and passenger lines. From Waltham they will proceed to Shawville and thence across country to Pickanock returning by the Gatineau Valley railway next week.

Business has been gradually increasing on both the Gatineau Valley and Pontiac and Pacific railways, thus encouraging the directorate to hasten the completion of the lines. On the Gatineau Railway the construction is being pushed rapidly.

Saturday 27/07/1895 Ottawa Free Press Canada Atlantic Central Depot

Twenty-eight minutes to load a train of 12 cars is the average time with the steam shovel at the canal bank excavation. At the trestle work those cars are unloaded in periods averaging one and a half minutes.

Saturday 27/07/1895 Ottawa Journal Renfrew

Progress on the O.A. & P.S. article.

Tuesday 30/07/1895 Ottawa Journal Hammond Rockland

Rockland July 29 - about 175 of our citizens took in the picnic at South Indian on Thursday last and report a very good time. An excursion train left here at 9.30 with the Rockland contingent and the Cumberland Football Club and their admirers. At Clarence creek and Cheney's station their number was increased considerably. On arriving at South Indian the excursionists were met by the picnic executive who did everything in their power to make the affair pleasant for them.

--

At 7 o'clock the train left for home where a pleasant surprise awaited the passengers. The band and a large number of citizens were at the station and gave the boys a rousing reception.

One killed, two hurt in serious dynamite explosion on the O.A. & P.S. near Whitney.

Tuesday 30/07/1895 Ottawa Citizen Ottawa Electric

The Elgin street cars can now be trollied to the sheds, the tracks across Sparks street being laid so that the cars can reach the temporary line on Wellington street.

Wednesday 31/07/1895 Ottawa Journal Canada Atlantic Central Depot

Good progress is being made on the approaches through Ottawa East and along the canal bank for the Central station.

The building of the bridge over Hurdman road at the head of the Deep Cut where the O.A. & P.S. line crosses is to go on at once. The bridge is to be of solid masonry with four steel girders over the roadway. The width of the bridge will be about fifty feet and three tracks will cross it. The roadway beneath the bridge will be 32 feet 6 inches wide.

Built him another Home

In building the O.A. & P.S. line along the canal bank a house belonging to Michael Kielly located on the Ordnance Lands at the head of the Deep Cut had to be torn down as it was directly on the right of way. The company have very generously decided to build a new house for Mr. Kielly near by. The work on the new house is now progressing and the new house will be superior to Mr. Kielly's former dwelling.

The work of excavating the canal bank by the steam shovel is being interfered with by the rain. The clay, being wet, sticks to the shovel and progress is slow.

The eastern trestle beyond Archville is now almost filled in. The filling in of the western trestle will begin at once. Grading has begun at the connection of the western approach with the main line of the C.A.R.

Wednesday 31/07/1895 Ottawa Journal Maniwaki

The rails of the O. & G. Ry. were laid into Gracefield, two miles above Pickanock, yesterday.

Thursday 01/08/1895 Ottawa Free Press Maniwaki

The regular train on the Gatineau Valley Railway this morning, due in the city at nine o'clock, reports a rather unique experience in the early part of the run, a few miles north of Kazabazua.

Two large bears were seen moving down the middle of the track, having climbed up the slight embankment out of the woods. As the train was bearing down on them at full speed, the bears increased their pace to a lumbering sort of run. The driver opened his throttle to the fullest extent, and struck one of the couple, elevating him quite a distance through the air. The second bear escaped injury. It was impossible to stop the train at the time, or bruin might have been secured.

Thursday 01/08/1895 The Equity, Shawville Pontiac & Pacific Junction

The Ottawa Citizen of Saturday last publishes the following:

The people of Pembroke may now look forward to the early completion of the Pontiac and Pacific railway to their town. Messrs. D.W. Harris, general manager, and Resseman, superintendent, left the city last evening for Pembroke. The object of their visit is to consult with the authorities at Pembroke with regard to the most suitable approach and entrance for the railway into the town. They will also make a passing survey of a proposed route eastwards to Waltham, the present terminus of the railway, and at the same time procure an idea of the possibilities in the freight and passenger lines. From Waltham they will proceed to Shawville and thence across the country to the Pickanock, returning by the Gatineau Valley Railway next week.

Starting to lay asphalt on Sparks street, across Sappers bridge and Rideau street. Temporary tracks are laid on Wellington street while the work is in progress on Sparks.

Thursday 01/08/1895 Ottawa Citizen Canada Atlantic Central Depot

Now that the work of cutting away the canal bank at the south side of Maria street, in order to afford an entrance to the proposed Central Station has made excellent progress, the question of the location of the station itself has become one of immediate importance. Indeed, it is said that the work upon the approach at the north side of Maria Street Bridge will likely be commenced next week, so that the objective point of the new line must be pretty well decided upon.

Arrangements for the location of the station and the immediate approaches thereto must, of course, be made between Mr. Booth and the Department of Railways and Canals. So far as could be learned yesterday, around the department, the site most likely to be chosen is that upon which the Militia Store now stands. It is a substantial stone building, and it is just probable that some compromise may be effected between the Railway Company and the department, whereby the structure could be handed over at once for use as part of a railway station. The remainder of the station building would, in that case, probably be extended over little Place d'Armes between Sapper's Bridge and the Militia Stores.

Should this site be decided upon, the approach to it will have to be made across the eastern canal basin. This would mean either the construction of a swing-bridge over the basin or its being filled and used exclusively for the purposes of the railway. In the latter event, what the company would probably be required to do would be to furnish equivalent dock accommodation on the west side of the canal. This, it is thought, could most readily be done by extending the present basin on that side towards Maria street, or preferably, in the other direction, towards the Bate warehouse and Sapper's Bridge.

Thursday 01/08/1895 Ottawa Journal Canada Atlantic Central Depot

Whatever may be the site of the Central Depot the C.A.R. and O.A. & P.S. companies have decided not to build new freight sheds in the central part of the city, but to make the freight buildings at the present depot on Elgin Street suit the purpose for some time to come.

Thursday 01/08/1895 Ottawa Citizen Renfrew

Messrs. J.R.. Booth, E.J. Chamberlain and G.A. Mountain chief engineer, returned yesterday from a tour of general inspection over the line of the O.A. & P.S. railway. They left on Monday and went over the road to a distance of about twenty miles beyond Whitney station on Long Lake.

02/08/1895 Eganville Enterprise Renfrew

DYNAMITE ACCIDENT: An accident took place on Saturday afternoon at Camp No. 4 on the OA & PS construction, about seven miles west of Whitney, by which one man was killed and two others were very seriously injured. The men were engaged in blasting rock and some of the drilled holes were being charged when the men left for dinner. On their return these men commenced drilling at one hole in which some dynamite had been placed of which they were not aware. The explosion which took place from the first blow of the hammer killed one man, a young Swede, shattered the leg of another man and blew out the eyes of the third man, both of the last two being also otherwise injured. The wounded men were on Monday taken down by the train to the Ottawa Hospital, and the corpse of the one killed was brought to Eganville and buried in the English Church cemetery. This camp is rather unfortunate as two drowning accidents recently took place at it.

The names of the men taken to the hospital are Matt. Sohr and Matt. Mattson. Both are about 25 years of age. The name of the Swede who was killed is not known at the hospital.

02/08/1895 Renfrew Mercury Renfrew Wilno

There is dissatisfaction amongst the residents around Wilno at the place where the OA & PS Ry.. Co. have placed the Wilno station. There are no public roads leading to it, and the settlers through whose land it is reached, are threatening to close the road, as travellers will leave gates open. The station house is an old car placed on a siding where a gravel pit was. The difficulty of placing it in a more convenient place for the public, is the steep grade throughout the whole length of the pass.

The first pile was driven on the north side of the Maria street bridge on Saturday in connection with the approach to the Central station.

Monday 05/08/1895 Ottawa Citizen Renfrew Ottawa East

The new trestle-work on the O.A. & P.S. Railway at Ottawa East is a great resort for venturesome urchins on Sundays, when the cars are still. The trestle-work is elevated some twenty feet above the ground and affords undoubted facilities for exhibition of expert climbing. Yesterday afternoon a half dozen lads were running along some flatcars lying idle on the trestle, when one, a youth of eight or ten, tripped on a bolt and shot headlong to the ground. A gentleman who saw him fall and heard him yell ran to his assistance, expecting to find his neck broken. He was agreeably surprised to find that he had fallen on some soft clay, and was howling lustily at the top of his voice. When he found he was really unhurt he changed his tune. The knowledge that he had taken an aerial dive of twenty-five feet to terra firma and escaped injury made him feel like Steve Brody, of Bowery fame, so when the gentleman asked where his home was he answered back contemptuously, as he swaggered off: "Taint none of your business, see!"

Tuesday 06/08/1895 Ottawa Citizen Ottawa Electric Hintonburg extension

Ratepayers of Hintonburg met last night and arranged about a right of way for a thoroughfare through Mechanicsville, to parallel the Richmond Road, about 800 yards of which, along between the end of cedar street and the toll gate is to be given up exclusively to the tracks of the Hintonburg extension of the electric railway. More.

Tuesday 06/08/1895 Ottawa Journal Ottawa Electric

O.E.R. and Hintonburg reach agreement --

Tuesday 06/08/1895 Ottawa Journal Canada Atlantic Central Depot

A plan has been filed in the city registry office showing the route of the O.A. & P.S. Ry. north of Maria street. The line as shown on the plan passes directly in front of Dey's rink and strikes from there in a direct line across the canal basin over a swing bridge to the rear of Easton's office at the foot of Little Sussex street. The line is shown no further, as no agreement has yet been made with the Sparks estate. It is learned that the company do not wish to buy the militia stores building, as it will be unsuitable for a railway depot, and if suitable is not as large as the one contemplated. It is now unlikely that the site for the central depot will be on the other side of Dufferin bridge.

--

In a very few days the C.A.R. steam shovel will be at work right at the Maria street bridge. The engine attached to the flat cars was there yesterday.

Wednesday 07/08/1895 Ottawa Citizen Renfrew Ottawa East

At a meeting of the Council of the village of Ottawa East last evening, a by law was passed by which the O.A. & P.S. railway, in consideration of the advantages accruing to the village from the construction of that road, was granted an exemption from taxes for a period of ten years. It was also stipulated that the period of exemption be extended another ten years if deemed necessary to the interests of the village.

A resolution was also passed providing for the construction of a macadamized road by the Parry Sound Railway Company in lieu of that which has been appropriated for use of the company, the new road to be constructed to meet the approval of the council.

Thursday 08/08/1895 Ottawa Journal Renfrew Silicate brick siding

A freight car ran off the siding running down to the canal east of the C.A.R. swing bridge this morning. The car ran against the bridge, broke a truck and almost canted into the canal.

Friday 09/08/1895 Ottawa Journal Canada Atlantic Central Depot

Hundreds of people watched the steam shovel from Maria street bridge last night. It is almost up to the bridge now.

The Canada Atlantic have built a ten foot wooden fence between their track and Nicholas street at the Deep Cut.

Saturday 10/08/1895 Ottawa Free Press Canada Atlantic Central Depot

The steam shovel working on the canal bank reached the Maria street bridge about eleven o'clock last night, and was then removed to commence another cut of 30 feet beginning at the Deep Cut.

Monday 12/08/1895 Ottawa Free Press Canada Atlantic Central Depot

The first accident on the extension of the Canada Atlantic tracks along the canal occurred on Saturday night when a valuable cow belonging to Mr. Redmond of Nicholas street was caught between two flat cars and killed. Where the claim rests is a matter of dispute between the owner of the cow and the flagman at the crossing.

Monday 12/08/1895 Ottawa Journal Canada Atlantic Central Depot

The C.A.R. steam shovel has begun operations on a second row of the canal bank, beginning, as before, at the Deep Cut.

Wednesday 14/08/1895 Ottawa Journal Hull Electric

Contractor Viau of Hull stated yesterday afternoon that the building of the electric railway from Hull to Aylmer will not go on this summer but next spring the line will be built without fail.

Wednesday 14/08/1895 Ottawa Free Press Hull Electric

The charter of the electric railway to Aylmer expires this year and the promoters will ask the council for an extension of time. A similar request will be made to Hull. It is questionable whether the former will be granted.

Wednesday 14/08/1895 Ottawa Citizen Hull Electric

It is said that the promoters of the proposed electric railway between Hull and Aylmer will ask for an extension of time in which to commence the construction of the road, from the municipalities of both places. While it is said no trouble would be experienced in getting an exemption from the Hull council, yet it is thought that the Aylmer council would not be so ready to grant it. One of the members of the latter stated yesterday that unless the council were given positive assurances that the work would be commenced next summer, no extension would be allowed. The charter given by the council expires with the present year.

Friday 16/08/1895 Brockville Recorder Brockville and New York Bridge Brockville

Interest in the construction of the International bridge here is being greatly revived of late by the work that is being done in connection with the scheme. In addition to the construction of docks at the Sisters Islands, a large store house for the keeping of material and implements under cover will be erected. Friday night the contractors were looking for a steam drill to use on the works, and for several days they have been endeavoring to purchase a small steamer for their purpose.

Wednesday 21/08/1895 Ottawa Journal Pontiac & Pacific Junction

Accident on the P.P.J.

A couple of cars derailed by stray cattle.

Owing to the negligence of farmers leaving gates open and permitting cattle to run on the track, the engine and two boxcars of the regular train going west were derailed about four miles east of Coulonge. No one was injured except the cattle, and the train will leave the Union depot as usual this evening at 5 p.m. The guilty parties are not yet caught.

Thursday 22/08/1895 The Equity, Shawville Shawville and Renfrew

The idea of building a railway from Renfrew to Shawville via Portage du Fort is not going to be allowed to drop. Article.

Thursday 22/08/1895 Ottawa Journal Canada Atlantic Central Depot

The steam shovel is making rapid progress in the second line of cutting. The canal bank from the Deep Cut to Maria street looks quite business like now. There are two lines of track and a couple of switches down.

A farmer who was evidently not as sober as he might have been, tried the night before last to drive his horses through the 10 foot board fence that the C.A.R. put up to cut off Nicholas street and enclose the railway tracks. He had evidently forgotten the way he came in the morning by the new route and wondered what was the matter with the old way.

Friday 23/08/1895 Ottawa Free Press Canada Atlantic

Yesterday the employees of the Canada Atlantic and Parry Sound lines were at work placing stakes for the new round house which will be erected near the new car shops. The site is on the ground formerly used as Odell's brick yard.

Friday 23/08/1895 Ottawa Free Press Canada Atlantic Central Depot

Mr. Booth yesterday filed his plans with the department of railways and canals for the new central station. The site selected is that now occupied by the militia stores and the grass plot whereon now stands the canon, immediately below the approach to Sappers Bridge. The entrance will be directly off the bridge, a broad stairway to the interior of the building leading down to the platforms. The lines into the station will run directly across the canal basin. The building will be a very handsome structure.

Friday 23/08/1895 Ottawa Citizen Renfrew Ottawa East

Workmen of the C.A.R. and O.A. & P.S. railway companies were engaged yesterday in staking out the site of the proposed new round house in connection with the car shops in Ottawa East. It will be erected on the former site of Mr. W.S. Odell's brickyard. The companies have also diverted the junction of Second street and Hurdman's Road.

23/08/1895 Renfrew Mercury Renfrew

Provincial Detective Grier is in jail at Parry Sound, for having shot at and dangerously wounded a man who was peddling whiskey to the navvies on the construction of the OA & PS road. The peddler ran away to escape arrest, and was fired at three times, the third shot striking him in the shoulder.

Saturday 24/08/1895 Ottawa Journal Canada Atlantic Central Depot

It seems that no formal plans for the Central depot have been submitted by Mr. Booth to the railway department. The plans sent to the department were only informal ones intended to give the minister a general idea of the work proposed.

The new trestle within the "y" west of Archville, where the new car shops are to be located is now half built.

Thursday 29/08/1895 Ottawa Citizen Maniwaki Cascades

A fight started between two shanty men on an up-going train on the Gatineau Valley railway Tuesday evening, with the result that one of the fighters was thrown off by his antagonist as the train was approaching the Cascades at a lively rate of speed. He fell foremost on some stones, and had his face badly cut. Otherwise he escaped injury.

Thursday 29/08/1895 The Equity, Shawville Pontiac & Pacific Junction

The P. & P. J. train was ditched on Tuesday evening last, a short distance from Bernard's Creek bridge, by running into a herd of cattle that were lying on the track. Engine No. 3 with tender and a couple of cars left the rails. Beyond the injury to the rolling stock, no damage was done. A relief train came up from Aylmer same evening, and performed the regular service the following day, except that no mails or freight were handled.

Friday 30/08/1895 Renfrew Mercury Chalk River Renfrew

Work on the new station is being rushed under the personal supervision of Mr. J.W. Munro. The old K. & P.R. railway station has been temporarily removed to the western side of the street to facilitate operations. The work of trenching for the foundation has been sub-let to Mr. Thos. Henderson, and he has a large gang at work. The building of the foundation has been sub-let to Mr. J.A. Jamieson: and he will build it of Renfrew graniite. Several car loads of the darker Sand Point stone for the superstructure have already arrived; whilst Messrs. Moffatt & Co. have men at work unloading cars of lumber to be used in the work.

Friday 30/08/1895 Ottawa Free Press Lachute Masson

The C.P.R. depot at Masson was broken into a few nights ago and 50 cents in coppers and a commercial travellers valise were carried away. Subsequently a Bible and other small articles, the contents of the valise, were found under some piles of lumber at Masson.

Saturday 31/08/1895 Ottawa Free Press Hammond

The delegation of strikers from the Rockland branch of the Central Counties railroad, who visited the city yesterday afternoon, met with very little success in their quest for satisfaction. They were after the manager of the new road, Mr. Hibbard, but the men, after searching stated that they were unable to locate that official. They then started in to secure a guarantee from other quarters for their arrears in pay.

Today the men are reported to have taken full possession of the line, spiking the switches to effectually prevent the running of trains. They have also take legal advice as to the best way of securing a settlement of their claims, and if nothing is done within a few days they will give the matter into a lawyer's hands. A consignment of cattle from W.C. Edwards' farm at Rockland was to have been shipped yesterday for the Industrial fair in Toronto, but the employes would not allow it to proceed to South Indian where the cars would take the Canada Atlantic railway line. The cattle were accordingly taken out of the cars and brought up to the city on board the Empress, where they were transferred to cars for the west.

A special train having on board Mr. E.J. Chamberlain, general manager on the C.A.R. , left the city this morning, for the purpose, it is said, of arranging matters with the dissatisfied employes.

Tuesday 03/09/1895 Ottawa Citizen Renfrew

Mr. Wm. Heald contractor on the western section of the O.A. & P.S. railway is in the city at the Russell. On his contract on the western division about 200 hands are employed and the construction of the railway is progressing satisfactorily. It is expected that the gap will be closed on the 15th of November.

Wednesday 04/09/1895 Ottawa Citizen Canada Atlantic Maria Street bridge

The Ottawa, Armprior and Parry Sound Railway have applied to the department of Public Works for permission to extend their tracks under Maria street bridge , the secretary sent the chief engineers' reply which was to the effect that Maria street bridge was the property of the city and that the department is simply under the obligation of keeping the bridge under repair.

Thursday 05/09/1895 The Equity, Shawville Hammond

Ottawa Sept. 1. There is trouble on the Rockland branch of the Central Counties railway, and about 150 men engaged in construction have struck for non payment of wages, which are said to be about five months in arrears; indeed the men have practically received nothing this summer, and the boarding houses on the line have, as a matter of course, gone unpaid, something like \$800 or more being due them by the men. It was reported in the city yesterday that the men had taken possession of the 18 miles of road open from Rockland to South Indian, (where the Central Counties road connects with the Canada Atlantic) and refuse to let trains run until their wages are paid.

Thursday 05/09/1895 Ottawa Journal Hammond

The strike on the Central Counties Railway is now over. The one hundred and forty men who struck last week for their arrears in wages went back to work on Monday morning. The difficulty has been settled by the C.A.R. agreeing to complete the line, taking it altogether out of the hands of the contractors and reengaging the men. The company however do not assume any of the contractors indebtedness, but will merely finish the line as rapidly as possible and pay the men once a fortnight.

Mr. Jno. Graham, C.A.R. roadmaster. now has charge of the work. Two trains are busy ballasting the remainder of the road, and it is expected to open passenger service over the line from Rockland to South Indian, where the road taps the C.A.R. main line in time to bring people into Ottawa for the exhibition. The road will run cross country from Rockland to South Indian forming a connection between Rockland and Ottawa and the rest of the world by way of the C.A.R. At the same time it will open up a fine agricultural country and bring more trade and people to Ottawa.

06/09/1895 Eganville Star Renfrew Whitney

Steel has already been laid four miles west of Whitney on the OA & PS A large force of men on the steam shovel day and night, keep well up on the heels of the steel layers with the gravel, and by the 1st of September we may expect to see the first ten miles west of Whitney open for traffic.

Mr. M. T. Stafford of Renfrew, spent part of this week at Whitney, and while there disposed of several car loads of pressed hay. Mr. Stafford has but recently embarked in this line of business, and we are glad to learn is meeting with marked success (due to the availability of Booth's railway).

The OA & PS Ry.. Station at Whitney is about completed. It is the handsomest on the line. The respected agent, Mr. Cunneynworth will take possession on Thursday. His family from Killaloe will arrive here on that day. From the Whitney correspondent of the Eganville Star

Friday 06/09/1895 Renfrew Mercury Morrisburg and Ottawa Electric

People are wondering why some of the railway people, who are anxious to invest their capital, do not build an electric railway from Ottawa to Morrisburg via Eastmans Springs, Russell, Morewood and Chesterville. It is one of the finest sections of country in Ontario with a large number of thriving villages. A branch could be run to the village of Winchester. The townships along the line would no doubt give liberal bonuses, and many of the wealthy people would take stock, if necessary. L'Original Advocate.

Friday 06/09/1895 Renfrew Mercury Renfrew Whitney

From the Whitney correspondent of the Eganville Star.

Steel has already been laid four miles west of Whitney on the O.A. & P.S. A large force of men on the steam shovel day and night, keep well up on the heels of the steel layers with the gravel and by the 1st of September we may expect to see the first ten miles west of Whitney open for traffic.

The O.A. & P.S. station here is about completed. It is the handsomest on the line. The respected agent, Mr. Cunneynworth will take possession on Thursday. His family from Killaloe will arrive here that day.

Friday 06/09/1895 Ottawa Citizen Chaudiere Cedar street bridge

The construction of the Cedar street bridge is progressing rapidly. The piers are of concrete, and between them there is sufficient room for five railway tracks, three for the C.A.R. and two for the C.P.R. A subway will be made on the city side of the bridge to allow of an entrance into J.R. Booth's lumber yard.

Saturday 07/09/1895 Ottawa Citizen Kingston, Smiths Falls and Ottawa

The Kingston Whig says that the location survey of the Kingston, Smiths Falls and Ottawa Ry., under the superintendence of Hamilton Lindsay, has been completed as far as Smiths Falls. It is expected that the work of construction will be commenced next spring.

Wednesday 11/09/1895 Ottawa Journal Canada Atlantic Central Depot

The steam shovel has started on a third round at the canal bank excavation. It will keep on working night and day.

There was a rumor yesterday that during exhibition the C.A.R would run its passengers down the canal bank the Maria street bridge. Mr. Fleck said there was no ground for the story.

Thursday 12/09/1895 Ottawa Citizen Vankleek

Morris Shaver, engineer, is suing the Central Counties Railway Company for \$709 wages.

Friday 13/09/1895 Renfrew Mercury Renfrew Renfrew

The O.A. & P.S. Railway recently donated four car loads of gravel to the Creamery Company for the fixing up of the yard around the Creamery building.

Friday 13/09/1895 Renfrew Mercury Chalk River Renfrew

The doors and window frames of the new C.P.R. station are placed in position and the walls are climbing up. A line of Renfrew granite will span the building on a level with the window sills, and set off the darker stone of the building to great advantage.

Friday 13/09/1895 Renfrew Mercury Shawville and Renfrew

Account of visit to Portage du Fort - fact finding mission in support of Renfrew and Pontiac Railway.

Friday 13/09/1895 Ottawa Journal Carleton Place Britannia

The C.P.R. authorities having taken in hand the prosecution of the rowdies who violently assaulted the station agent at Britannia, they will now likely receive their just deserts.

1895 16/09/1895 Ottawa Journal Canada Atlantic Central Depot

The C.A.R. is now running a fence across the canal reserve at Maria street bridge. As the steam shovel is now on its third round down, there will be no more further walking up the canal bank.

Tuesday 17/09/1895 Ottawa Citizen Ottawa Electric

Yesterday the electric car service on Sparks street was resumed --

Thursday 19/09/1895 The Equity, Shawville Pontiac & Pacific Junction

Another smash-up occurred on the P. & P. J. on Friday night about six miles above Fort Coulonge. The accident was due to a drove of horses getting on the track through two gates being left open. Four of the animals were killed and others were injured. Fortunately none of the train hands were hurt. The locomotive and part of the train were ditched. As soon as possible thereafter word was despatched to Aylmer and a relief train was sent up to the scene of the accident. The misphap caused a delay of a couple of hours to the train going east in the morning.

Friday 20/09/1895 Ottawa Journal Hammond

The completion of the Rockland branch is being pushed forward rapidly, but the intention to have the line ready to run passenger trains over if for exhibition week can not be carried out. The line will not be ready for passenger service before the middle of next month.

Friday 20/09/1895 Ottawa Journal Canada Atlantic Central Depot

Nothing new can be written about the location of the Central depot.

No move has yet been made to extend the line north of Maria street although the line must be across this street by December 1st according to the by law, or the company will risk losing its \$50,000 bonus from the city.

The steam shovel will complete the excavation of the canal bank this fall. The third strip of earth will be finished in a couple of weeks, and another strip will excavate the required width. The fourth strip will be finished by the first of November.

Friday 20/09/1895 Ottawa Journal Renfrew

Next week all the construction camps along the O.A. & P.S. Ry. will be closed as the season's work on the construction will then be about ended. Chief Engineer Mountain went up the line today to inspect the last of the work.

--

Nearly all of the men employed on the line have been discharged. There is now only one mile more of the road to be built on McNeil (sic) and Ferguson's contract and that will complete the season's work.

Friday 20/09/1895 Ottawa Journal Renfrew Ottawa East

The Journal learned today that the building of the O.A. & P.S. workshops in the "Y" beyond Archville are to begin without delay.

Within a few weeks the foundations of the massive buildings will be laid. The plans for the shops have been ready for months. There will be two large workshops and a roundhouse. The buildings will be entirely of stone and will have steel roofing supported by immense steel stringers that are now being manufactured in Germany. The shops will consequently be almost fireproof.

The workshops will each be about 60 feet wide and 130 feet long. They will gee employment to about 150 men.

The roundhouse will, it is stated, be located near the intersection of the two branches of the "Y" and will be large enough to house about thirty locomotives. The site for the workshops and roundhouse are already picket out.

Monday 23/09/1895 Ottawa Journal Ottawa Electric

Commencing Tuesday 24th inst. and until both tracks on Rideau street are ready for traffic, all main line cars will run to the hospital via Nicholas, Theodore and Charlotte street and return via Rideau.

Monday 23/09/1895 Ottawa Citizen Pontiac & Pacific Junction

The accident on the P.P.J. last week was caused, it is thought, by two horses. Both were killed near Coulonge. The cars were thrown off the track, but the passengers were uninjured. The engineer was badly hurt about the face and his back was injured. He is improving.

Monday 23/09/1895 Ottawa Citizen Renfrew

An east bound freight train on the O.A. & P.S. railway, consisting of seven cars and the paymaster's van, ran off the track Saturday afternoon about half way between Douglas station and Renfrew. Fortunately the accident was not attended by loss of life although several of those on board had a miraculous escape. The train had just passed a slight curve when the engine, from some unknown source, jumped the track pulling the cars and van along with it. For fully a couple of hundred yards the train went thumping along on the ties, but remained on the roadbed to the great astonishment of those on board. Driver Turner and his assistants stuck to their posts until the train was stopped. They had rather a thrilling experience, but were well satisfied in having escaped with a few slight injuries they received in the knocking about.

A couple of cars were toppled over, one of them being loaded with horses and some railroad construction tools. A man was in this car, but was taken out from under a piece of machinery afterwards without a scratch.

Paymaster Wilson was counting some money in his van when the accident happened, and by the time the train was brought to a standstill he was at the opposite end of the car, almost unconscious from the effects of a blow he received while being jostled from side to side. His money was scattered over the floor.

Driver Turner had one of his shoulders badly bruised, and was otherwise pretty severely shaken up.

A wrecking train left immediately from Renfrew in charge of Roadmaster Hogan, and the track was cleared and repaired in the course of five or six hours. The train due here Saturday night about six o'clock was delayed considerably in consequence. The damage to the cars is slight.

Two of the horses on the car that went over had to be shot, as their legs were broken. They belonged to Mr. Simmers, sub-contractor on the railway.

Wednesday 25/09/1895 Ottawa Free Press Hammond

Freight trains are now running regularly over the Central Counties railway to Rockland and next week [passenger service is to be commenced.

Wednesday 25/09/1895 Ottawa Free Press Ottawa City Passenger

The piece of elevated track along Wellington street, from Bank street to the Dufferin bridge, was being removed yesterday, being of no further use to the railway company. The roadway will be put in the same condition as before the temporary line was laid.

Train No. 2 leaves Gracefield at 5:50 a.m. and arrives Ottawa at 9 o'clock.

Wednesday 02/10/1895 Ottawa Free Press Ottawa Electric

The electric cars to Hintonburg began their regular trips to Hintonburg this morning, the Cedar street bridge having been completed. Work on the further extension of the tracks to the Experimental Farm is being pushed to completion.

Thursday 03/10/1895 Ottawa Free Press Canada Atlantic

Work on the round house at Ottawa East is to be started at once. It will be built on the "Y" nearest the village.

Thursday 03/10/1895 Ottawa Journal Ottawa Electric

Yesterday for the first time cars on the new line on Somerset street made the whole trip as far as the Richmond Road, over the Cedar street bridge, which has been the cause of the delay, at last having been completed. Although there is nothing very beautiful to be seen in riding over this line, it is sure to prove of great use to the city.

Thursday 03/10/1895 Ottawa Journal Renfrew Ottawa East

Engine No. 81 of the C.A.R. ran off the track near the trestle at Archbridge last night but after considerable trouble was got on again without any damage being done.

The filling in of the canal basin for the right of way into the Central Depot, as told in another section, will necessitate the immediate construction of another canal basin. More

A definite move in the direction of locating the site of the Central depot has been made.

The owners of the property on the east side of the basin, north and south of the canal basin have received notice of expropriation of their property for railway purposes. More

On Monday morning Butterworth's large coal shed between Dey's and the canal basin will be torn down.--

The railway tracks after crossing Theodore street will strike at the east end of where the building stood. A temporary station will be erected there for the winter, as the company will only get that far with their tracks, so as to be able to claim the \$150,000 bonus from the city.

The site of the Central depot, however, has been settled beyond a doubt. It will be on the site of the militia stores building as the Journal has all along predicted. Next spring will see the depot begun.

In the meantime the company have a big undertaking ahead of them, in promoting the route into the Central depot. The whole of the canal basin is to be filled in, and all the buildings within the area of expropriated property are to be torn down and cleared away for the right of way.

What will go

The buildings which will be torn down are Richard Woodland's leather shop, dwelling house, the brick row facing on Besserer street, occupied by Mr. E. Cardinal and J.M. Lavoie and the Nicholet House, Wm. H. Easton's wood and coal office, Ranson's hotel, directly opposite Little Sussex Street, Cardinal's livery stables, north of Besserer street, and other outbuildings behind the brick block facing on Rideau.

The Central depot

It will be a building without rival in Ottawa, the departmental buildings excepted. It will be six stories in height and will be built up close to Sappers bridge so that passengers can step from the bridges into the waiting rooms. Three flats of the building will be used for station purposes. The other three flats will be used for railway purposes. Trains will enter the depot beneath an arched covering, as in large cities, such as Toronto and the Windsor depot, Montreal.

The ground floor will be divided into baggage rooms, express offices and restaurants. On the second flat, almost on a level with Sappers bridge will be ladies' and gentlemen's waiting rooms and ticket offices. The offices of railway officials will be on the third flat, and the other flats will contain the general offices of the company.

Built of sandstone.

The Central depot will be built of sandstone. The sandstone used will be brought in from near Jones's Falls on the Rideau, and is the same as was used in constructing part of the Printing Bureau. It is learned that a local forwarder has been awarded the contract of bringing down next summer twenty thousand tons of the sandstone.

Street will be widened.

The erection of the Central depot on the site mentioned will bring about one very great improvement. The present space between Sapper's and Dufferin bridges is to be covered over and the whole converted into a wide street. Probably a small square will decorate the front of the post office.

This move of closing up the space between the bridges will be necessitated by the increased amount of traffic over Sparks and Wellington streets when the Central Depot is constructed.

Four tracks to enter

There will be four tracks entering the Central depot, two passenger and two freight lines. The company will erect an extensive freight depot and the probable site of this depot will be between the dry dock and Little Sussex street.

Men were put to work on the north side of Theodore street this morning clearing away things.

Friday 04/10/1895 Ottawa Journal Ottawa Electric

Commencing today the Main line cars will resume the loop line service, that is, the cars with white discs will go easterly by Rideau street to the Protestant Hospital, and those with white disc and black bar by way of Nicholas and Theodore streets.

04/10/1895 Ottawa Journal Renfrew

AT THE DOOR OF PARRY SOUND: Contractor Plouf, of the OA & PS Ry., who has the contract for the construction of the last ten miles at the western end of the line, is in the city to-day. The line is now built to within a mile of the town of Parry Sound, and within a few weeks it will be completed. The terminus of the line will be on an island in the Georgian Bay in front of the town. The island forms a breakwater, and there is an excellent land locked harbour between it and the town where all the great shipping vessels of the lake could lie at anchor. The water of the Bay is at least thirty feet deep all around the point of the railway terminus, and vessels can be loaded and unloaded to and from railway cars without any inconvenience.

Trains are now running over forty miles of the western end of the line. About six hundred men were employed on the construction this summer.

Friday 04/10/1895 Ottawa Journal Canada Atlantic Central Depot

Booth meets Board of Works about temporary closing of Maria street. Booth ready October 14 and the excavation could be complete in five days. More.

Friday 04/10/1895 Ottawa Journal Hammond

Unpaid laborers on the C.C. Ry. want redress. Petition by 140 employees to Ontario government.

The employees are said to be six and seven months in arrears of wages and their united claims will exceed \$15,000.

Since the line has been taken over for completion by the Canada Atlantic Ry. the men have been paid regularly on the 14th of each month.

If the work progresses as quickly as it has done since the change the road will be ready for passenger traffic between Rockland and South Indian within three weeks. This line will be an important feeder of the C.A.R.

Mr. George A. Mountain, chief engineer of the C.A.R. went down to the Rockland branch to-day.

Friday 04/10/1895 Renfrew Mercury Renfrew

Inspection of a ten mile section of the Parry Sound line one mile west of Whitney took place last week. This makes the completed portion of the railway 154 miles.

Friday 04/10/1895 Renfrew Mercury Kingston, Smiths Falls and Ottawa

C.F. Gildersleeve, of Kingston, general manager of the R. & O.N. Co., and one of the leading promoters of the Kingston, Smiths Falls and Ottawa Railway states that everything is being gotten into preparation this fall for the pushing forward of the Kingston, Smiths Falls and Ottawa Railway next spring. The line is now surveyed into Smiths Falls, and in the spring the building of the line will begin in earnest. If possible, the road between Kingston and Smiths Falls will be completed next summer and the line may be extended to Ottawa by the fall of 1897.

Monday 07/10/1895 Ottawa Journal Hammond

Rockland - work has commenced on the C.A. Railway station here and will be rapidly pushed. When the station is completed the company intends to build freight sheds and have everything in readiness for the running of regular trains as soon as possible.

Monday 07/10/1895 Ottawa Free Press Canada Atlantic Central Depot

This morning workmen began operations on the north side of Theodore street in the construction of the tracks for the Central Station. A gang of men have since laid the tracks along the wharf, in front of the Butterworth coal sheds, while others have been engaged in preparing the way by excavation for the steam shovel to begin its work near Dey's boat house. It is intended that the shovel shall finish the cutting as far as the roadway on the south side, and then cut away all the embankment on the north side before the street section is interfered with, so as not to cause any obstruction to the traffic until the last moment.

Thursday 08/10/1895 Ottawa Free Press Canada Atlantic Central Depot

The first serious accident in connection with the steam shovel working along the canal occurred yesterday afternoon when Mr. John Dodd of Nepean street, who was standing on the bank watching operations, fell over the embankment. He went very close to the edge in order that he might better see all that was going on. The portion of sod on which he was standing had been almost entirely undermined. When it fell Mr. Dodd fell with it, coming very close to being caught by the ascending shovel. As it was his shoulder was badly injured and he carries several bruises as a memento of the work.

Tuesday 08/10/1895 Ottawa Citizen Maniwaki

The construction work on the Gatineau Valley Railway as far as Gracefield, including the new iron bridge over the Pickanock at Wright, is to be taken over by the company next week. Trains will then run to Gracefield instead of the Pickanock station as at present.

Tuesday 08/10/1895 Ottawa Citizen Ottawa Electric

The new car shed on Albert street of the Electric Railway Company, erected by Messrs. Arnold and Ewart, is about complete and was occupied yesterday for the first time. With this addition the company has an acre of store room for cars on Albert street, which is sufficient to accommodate 240 cars.

Tuesday 08/10/1895 Ottawa Free Press Maniwaki

The Gatineau Valley railway company will take over the recently completed portion of the line as far as Gracefield next week and the passenger trains will run to that village instead of the Pickanock.

Wednesday 09/10/1895 Ottawa Journal Renfrew Ottawa East

The work of filling up the land where the proposed car sheds of the C.A.R. are to be built in Ottawa East is proceeding rapidly. In a few days the site of the round house will be finished and the building itself commenced.

Wednesday 09/10/1895 Ottawa Free Press Canada Atlantic Central Depot

The steam shovel on the Parry Sound Railway tracks was moved under the Maria street bridge this morning, and at noon started work in excavating the land immediately in front of Dey's boat house. The whole of the embankment on the north side of Theodore street will be cut away before the roadway is disturbed for the building of the railway bridge.

Friday 11/10/1895 Renfrew Mercury Belleville Perth

The C.P.R. carshops at Perth are again closed down, for an indefinite period.

Friday 11/10/1895 Ottawa Free Press Ottawa Electric Ottawa Car

Messrs. J.W. McRae, T. Ahearn, W.Y. Soper and J. Hutchison left for Montreal today to attend the meeting of the American Street Railway Association. They will return with the members who intend visiting the capital on Saturday.

Friday 18/10/1895 Ottawa Citizen Hammond

C.A.R. to Rockcliffe.

The Rockcliffe branch of the C.A.R. is almost complete. The last touch on the work of construction is expected to be put on this week and the company propose running regular passenger trains over the branch next week.

(Note - this should be Rockland).

18/10/1895 Huntsville Forester Renfrew Parry Sound

PARRY SOUND: From the Star: "Last Sunday afternoon two ladies and a gentleman while walking down the Rose Point Hotel road saw what they supposed to be a rabbit run under a log. Securing sticks they all took after the rabbit surrounding the hiding place, and commenced poking at the little fellow. The dress makers and tailors are busy making new clothes for the party - it was a skunk!

Work on the railway is being pushed along as fast as circumstances will warrant. The rock cutting is almost completed, and teams are now busy lowering the swamp near the Rose Point Hotel, which has to be taken down some thirteen feet. Filling up Willet's lake has been abandoned and workmen are now engaged in driving piles for a bridge across the lake. At the other end of the section the gravel train is busy ballasting and this part of the work will be pushed forward as rapidly as possible. Several times lately the sound of the locomotive whistle has been heard in town, giving our people notice that the long looked for railway is almost at our door.

Last week Post Office Inspector Jones arranged for the dispatch of daily mails over the Parry Sound Railway between Parry Sound and Emsdale, Sprucedale and Seguin. This arrangement is an admirable one and the Inspector has our thanks.

Monday 21/10/1895 Ottawa Citizen Maniwaki

Mr. L. Vallee of Quebec, made an inspection of three miles of the new track and the new bridge of the Gatineau Valley Railway on Saturday, on behalf of the government. Afterwards he expressed himself as well pleased with the construction of the new portion of the line. Mr. Vallee was accompanied by Mr. W. Dale Harris, managing director of the road and lady friends. Mr. Resseman, superintendent of the railway looked after the party.

25/10/1895 Lachute Watchman Lachute Montfort Colonization

To Sixteen Island Lake by Rail

Had the early settlers among the forests and mountains of Wentworth been told that one day the puffs of the engine and its shrill whistle would startle the wild animals of that region, it would have been deemed a most unlikely story. But this age of progress has produced many wonders, and a railway in Wentworth is not one of the smallest. This has been accomplished by the energy, pluck and perseverance of a band of French-Canadians in Montreal, who several years ago, conceived the idea of colonizing the uninhabited regions of Quebec. A charter was obtained, a survey made as far as Arundel, and after seeking and obtaining aid from both governments, the work was commenced and is now completed as far as Sixteen Island Lake.

Last week, in company with Mr. Simpson, M.P.P. we took a trip over the road, a short account of which we will endeavor to give our readers. The officers of the Montfort Colonization Railway are E. Senecal, President, Joseph Brunet, Vice-President, Messrs. F. Froideveaux, Godf. Chap;eau and E.D. Porcheron, directors, A.S. Hamelin, Secretary-Treasurer. Leaving Montreal on the St. Jerome, in company with Mr. Froideveaux, one of its directors, we reached Montfort Junction, which is a few miles west of Shawbridge at about 7.30 where we took the other road. It is a narrow gauge line at present, although the road bed, grades and curves have been made the same as the standard gauge. The train consisted of the locomotive, which is for its size very powerful, and takes up the heavy grades, five or six cars without much apparent trouble; a second class and express car in one, and a very comfortable and nicely furnished first class car. The first stop after the junction is at St. Sauveur, a small but thriving village. Here the difficulties of construction commenced to be seen. An immense bank and a bridge across the the North River made the first few miles very expensive. After leaving St. Sauveur we pass through a valley along which are some excellent farms until we reach Morin Flats, and now we are in Argenteuil. There is no station built here yet, but considerable business is carried on, Newton's mill evidently carrying on a fine trade. Standing at Morin Flats and looking around, one can scarcely imagine that an outlet could be found for a railway. On the west side is a series of mountains, but the engine is headed towards one of the largest and in a stealthy manner commences to creep around the base, and in a few seconds is winding around its side hugging the rocks where a narrow path has been blasted for it. The cost of making this portion must have been very great, but a good solid roadbed is the result. It is needless to say that the road abounds in curves. The curve is the only key to this mountainous region. At Montfort, we found, to our surprise a large, commodious and well built hotel. This hotel was built last year by Mr. Froideveaux and is kept by Mr. Plouffe. It (illegible) the side of a high hill overlooking Lake St. Francois Xavier. Just below this lake is another called Lake Chevreuil Deer Lake.

(Long Section about Agricultural Orphanage of Montfort)

From Montfort to the lake is eight miles and though one of the wildest regions of the province. The railway company has a Dominion subsidy for the next 12 miles which will bring the road to Arundel and it is hoped the Provincial Government will transfer a similar one. If so, this time next year the train will run to Arundel.

Thursday 25/10/1895 Renfrew Mercury Chalk River Renfrew

The work on the C.P.R.'s new station -- is being rushed with vigor. -- and the roof will probably be on the station by the end of the week. After the rafters on the station were first laid, orders were given to make a change and raise the roof five feet in the centre. This has been done, to the undoubted improvement of the appearance of the building. As the order for the change came just after the official car had gone by, it is surmised that President Van Horne's good eye for form was responsible for the change. Also in Shawville Equity, 31 October.

Saturday 26/10/1895 Ottawa Journal Maniwaki

The O. & G. Ry. bridge over the Pickanock river is now completed and trains are now running into Gracefield. The passenger trains began running regularly into Gracefield yesterday.

Wednesday 30/10/1895 Ottawa Citizen Canada Atlantic Maria street bridge

The timber for the extension of the Maria Street Bridge over the railway cutting is on the ground, and work will likely be commenced on the extension today. The cutting of the street will likely be finished tomorrow as the steam shovel has been doing exceptionally good work.

Thursday 31/10/1895 Ottawa Journal Renfrew Ottawa East

The work of filling in the "Y" beyond Ottawa East is taking more time than was at first expected and it is doubtful if the construction of the O.A. & P.S. Ry roundhouse will be begun this fall.

Thursday 31/10/1895 Ottawa Journal Ottawa Electric

The laying of the rails of the Street Railway Co. in Hintonburg is being pushed forward rapidly these days. The double track has been laid as far as the old toll gate while the single track is out to Holland's Farm

Thursday 31/10/1895 Ottawa Citizen Hull Electric

Mr. Theophile Viau, the leading figure in the projected electric railway between Hull and Aylmer informed a Citizen representative yesterday that it was more than probable now that the route of the railway would run about half way between the river bank and the Aylmer road. "I have written the owners of the property through which the road will likely run," said he "with a view of obtaining the right-of-way, and the answers I have received so far, are much more encouraging than I had even hoped. Some of them say they would not only grant the right-of-way through their property, but would do anything else in their power to help the scheme along. The number of property owners along the route is only seventeen."

It is said that the generous spirit with which Mr. Viau has been met by the owners, will lessen the probability of the terms of the Aylmer Road Company for the use of their road being accepted. Mr. Viau has procured some capitalists who are willing to invest in the scheme, but are desirous of obtaining full data of the different proposed routes before doing so.

Thursday 31/10/1895 Ottawa Free Press Hull Electric

Contractor Viau of Hull, has for some days been negotiating with farmers along the Aylmer road with a view of securing a right of way through their farms for his proposed line of electric railway between Hull and Aylmer. He stated this morning that so far he has met with little difficulty in obtaining the consent of the land owners and as the routes alongside the Ottawa river is at the same time both picturesque and more direct, it is altogether likely that it will be chosen in preference to the Aylmer road. More especially as there are numerous difficulties in the way of securing the consent of the company for this latter route. Mr. Viau is also making arrangements for the purchase of ties of which he already has a large supply on hand since spring.

01/11/1895 Huntsville Forester Renfrew

A moose bull attacked two members of the Parry Sound Rail Road a week or so ago. One man was successful in reaching the branches of a tree, but the other was less fortunate and was thrown by the bull some twenty feet. The moose made a second charge, but the bruised and sore man managed to make it to the branches of a tree. The next day, they secured a rifle, started in pursuit, and found the moose not far from the previous day's attack. As soon as the moose saw them, it charged, but was brought down by the first shot.

Friday 01/11/1895 Ottawa Journal Locksley

It looks as if the Pembroke Southern Railway is to be built. The directors have sent out a party, consisting of Messrs. J.A. Thibodaux, F.E. Fortin and Thos. Mackle, of Pembroke, to locate this line through the township of Wilberforce, adjoining Pembroke.

01/11/1895 Renfrew Mercury

J. R. Booth is employing 3, 389 men as follows: on the OA & PS railway 325; OA & PS construction 575, lumber yards and mills 1,159 men. None of these work for less than \$1.25 a day. 1,330 men work in the woods at the same rate.

Saturday 02/11/1895 Ottawa Free Press Canada Atlantic Central Depot

Work on the construction of the Theodore street bridge across the railway tracks commenced this morning and at noon three sets of uprights with the necessary connecting posts were in position adjoining the Maria street bridge. The steam shovel is now cutting on Theodore street itself, the canal bank having been removed. It will apparently be another week before the work is connected sufficiently to allow the resumption of traffic.

Monday 04/11/1895 Ottawa Journal Canada Atlantic Central Depot

Dey Boathouse will remain undisturbed this year. It will not be torn down to permit the construction of the O.A. & P.S. Railway line until next spring. The owners have received notice to vacate the building on the first of next May. They will build another boathouse, to be 200 x 100 feet, in a central location.

Collision between Nos. 28 and 56.

Tuesday 05/11/1895 Ottawa Free Press Pontiac & Pacific Junction

The Pontiac Pacific Junction Ry., has the promise of the Quebec authorities that at the present session of the legislature their bonus of \$20,000 for the completion of their line will be revoked. It was intended that the road should have the funds to complete their work this year but through a flaw in the bill which passed the two houses last session the bonus could not be touched and as a result construction work on the P. & P. J. was at a standstill. As soon as the subsidy is assured the company will set about preparations for finishing up their line.

Tuesday 05/11/1895 Ottawa Journal Renfrew Ottawa East

Engine No. 50, one of the shunting engines on the dump beyond Archville was badly smashed last evening. The locomotive had switched a number of car upon one of the switches and then swung on to another switch. The cars were not braked and when the locomotive was detached ran back down the grade striking the locomotive where it was standing on the tracks.

Tuesday 05/11/1895 Ottawa Journal Hammond

One of the construction engines on the Central Counties railway ran off the track on Saturday by the spreading of the rails and fell over into the ditch on its side. A gang of men were employed raising it on Sunday.

Tuesday 05/11/1895 Ottawa Free Press Hull Electric

Contractor Viau is making the best of progress in his negotiations with farmers along his proposed line of electric railway between Hull and Aylmer and expects that within a few days his entire right of way along the shore of the Ottawa river will be assured.

Wednesday 06/11/1895 Ottawa Free Press Canada Atlantic Central Depot

At the Theodore street bridge today the work of erecting the 200-ft of abutments is rapidly proceeding. In front of Dey's boat house about 20 men are engaged making a cutting from Theodore street to run between the building and the three small houses lying to the south east of the structure. There is just enough room for a truck to pass through this opening, and as the cutting will be fully 12 feet deep it will leave the Dey property standing on an eminence entirely surrounded by the tracks. The steam shovel has a lot of work yet to be accomplished.

Wednesday 06/11/1895 Ottawa Journal Ottawa Electric

Conductor of car 44 taken sick.

Thursday 07/11/1895 Ottawa Free Press Maniwaki

Although the Gatineau Valley railway has done no new construction work this year on the upper end of the road beyond the completion of the Pickanock bridge, they have men now at work throwing up a roadbed beyond Gracefield, the present terminus, and there is every reason to believe that when next spring opens the company will be in a position to rush the building of the new road towards the objective point of Desert, which is as far north as the government charter provides for.

Thursday 07/11/1895 Ottawa Free Press Canada Atlantic Central Depot

Messrs. Dey of the boat house called at the city hall this morning complaining that their water supply had been cut off by the action of the steam shovel. They wanted the engineer to have another pipe ran into the building but as this would necessitate excavating under the railway tracks now being laid and the building is on the canal reserve the city engineer would not listen to the proposal.

Friday 08/11/1895 Ottawa Journal Ottawa Electric

The service on the street railway tracks in Hintonburg from the post office by way of Holland avenue to the Experimental farm will not be commenced until next spring, although the tracks will be in readiness before the snow falls.

A tunnel has been built under the O.A. & P.S. Railway. A double track will be laid along Holland avenue, the trolley posts being placed between the two, with arms being spread out over them on which the trolley wires will be strung. These posts are also made to hold electric lights and to have telephone wires strung on them.

Friday 08/11/1895 Renfrew Mercury Locksley

--Another year of two and the branch to Golden Lake connecting Pembroke with the Parry Sound Railway will also have been completed.--Pembroke Observer.

08/11/1895 Huntsville Forester Renfrew

The season's operations on the OA & PS Ry. are at an end. The force of men employed on the construction all summer have been laid off. All the camps are empty with the exception of a few straggling ones that house a small party of men that remain to finish the ballasting.

08/11/1895 Pembroke Observer Renfrew

Another year and the railway to Parry Sound will have been completed, and the greatest port on the Georgian Bay will be closer to Ottawa than Toronto is to the Capital. To-day only fifty miles of the entire distance between Ottawa and Parry Sound — two hundred and fifty-nine miles — remains uncovered by the rails, and Engineer Mountain says that it is more than probable that this gap will be covered before October of next year. Another year or two and the branch to Golden Lake connecting Pembroke with the Parry Sound railway will also have been completed. Then we must not rest until it shall have been pushed on to Haliburton and Toronto. On Monday, Mayor F. E. Fortin, Thomas Mackie, J. A. Thibodeau and J. R. Moffat went out to Wilberforce to look out the line through Wilberforce, etc. Who says Pembroke will not be the greatest railway centre of them all in the near future?

Friday 08/11/1895 Renfrew Mercury Renfrew Arnprior

On Sunday a new diamond will be put in at the intersection of the C.P.R. and O.A. & P.S. Ry. lines in Arnprior.

Friday 08/11/1895 Brockville Recorder Brockville and New York Bridge Brockville

The commencement of actual operations in connection with the construction of the International bridge across the St. Lawrence at this point is already beginning to attract the attention of outsiders to the fact that it will make Brockville one of the greatest railway centres in the Dominion, and consequently a most desirable place to establish manufacturing industries, owing to its splendid shipping facilities both by rail and by water. At Monday night's meeting of the Council a most interesting communication was read from Mr. A.B. Rudd of Perth, pointing out the unequalled advantages possessed by Brockville as the point for the establishment of an iron blast furnace. There is lots of iron ore within easy reach, and he claims that coke could be laid down here cheaper than anywhere else in Canada. The matter should be carefully inquired into.

Friday 08/11/1895 Ottawa Free Press Canada Atlantic Central Depot

Mr. Frank Dey says that he is experiencing a great deal of inconvenience on account of the water supply having been cut off. The application he made yesterday was for a service to his own private house and property not on the rink, which is on the canal reserve. He expects to see some members of the committee today, so that the great annoyance resulting may be put an end to. It matters not, he says, how the water is furnished so long as he gets it.

Tuesday 12/11/1895 Ottawa Journal Canada Atlantic Central Depot

Passenger trains will be running into the temporary depot by the 15th of next month.

So stated E.J. Chamberlain, general manager of the O.A. & P.S. Ry. this morning. Work on the temporary depot will be begun tomorrow. It is expected that the Maria street bridge will be completed by tomorrow afternoon and then the men there employed will be put to work on the temporary depot.

Upon the completion of the temporary depot by December 15th the Elgin street depot will be disused for the passenger service of the O.A. & P.S. and C.A.R. lines. All passenger lines will run into the centre of the city.

The temporary depot will be 25 feet wide 75 feet long and erected on precisely the same plan as the present Elgin street depot. There will be ladies' and gent's waiting rooms, a restaurant and ticket offices. Express and baggage rooms will be build adjoining the temporary depot. Everything will be built to suit the convenience of the public. The depot will be no haphazard structure but a substantial one, as it will need to meet the requirements of the public for a year or more until the Central depot will be constructed on the Militia stores site.

The main entrance to the temporary depot with carriages will be by Wilbrod street, but people of Upper town who wish to reach the depot may cross Maria street bridge, at the end of which a sidewalk will lead into the depot.

As to freight

The railway officials are as yet undecided whether they will run freight into the centre of the city this fall or not. This will entirely depend upon whether the frost will be sufficiently severe to make the new road perfectly hard and suitable for heavy freights.

The Butterworth coal shed it is learned may be torn down any day, as the lease for the property on which it is located expired last spring and has not been renewed.

Dey Bros. will remove their rink and have forty days in which to do this.

Wednesday 13/11/1895 Ottawa Free Press Canada Atlantic Central Depot

The Theodore street bridge was completed sufficiently last night to allow of one side to be opened for foot travellers, to the great joy of the many who have been in the habit of crossing Maria street bridge back and forth to business and school. The whole structure will be thrown open tonight.

Thursday 14/11/1895 Ottawa Citizen Canada Atlantic Maria street bridge

Maria street bridge as extended has been reopened for traffic.

CPR depot burnt.

Four charred walls are all that remains to show that there was once a C.P.R. depot in Ottawa. The building was almost totally destroyed by fire about six o'clock this morning.

A lot more with drawing - get a copy.

Thursday 14/11/1895 Ottawa Free Press Carleton Place Ottawa, Broad Street

The Canadian Pacific depot is in ashes. It was the scene of a fierce blaze which raged from 6 o'clock this morning steadily for more than two hours. The building was of wood and therefore of an inflammable nature affording every inducement for a big fire.

Full description.--

The C.P.R. depot was once before the scene of a conflagration but escaped the big conflagration at the Chaudiere a few years ago when the hotel opposite and many of the surrounding frame structures were destroyed.--

Friday 15/11/1895 Renfrew Mercury Locksley

From the Pembroke Observer. The feeling with regard to the Pembroke Southern Railway is daily becoming firmer. This is not to be wondered at for should all else fail we have capital enough in the town to build the branch ourselves.

Friday 15/11/1895 Ottawa Free Press Carleton Place Ottawa, Broad Street

General Superintendent C.W. Spencer of Montreal arrived in the city last evening in connection with the disastrous fire at the Central station yesterday forenoon, which has brought such a considerable loss on the Canadian Pacific Railway company. He went over the wrecked building in company with the divisional superintendent and seemed to be much of the same opinion as the latter in regard to the practicability of carrying our repairs on the present edifice. It is too far ruined to allow of being put together again without first being torn to the ground.

Mr. C.W. Spencer confirms the statement in last night's Free Press that the idea of removing the traffic to the proposed central depot without going to the expense of putting up a temporary station at the Chaudiere is impossible under existing circumstances.--

One thing is certain that a new station house of some kind will be put up at the present depot although the chances are that the site will be altered slightly. In the meantime a rough building will be put together on the platform between the present station house and the Express company building. This will be done at once and until it is completed a couple of first class coaches will have to serve to accommodate waiting passengers.

The ticket office at the station, which was completely destroyed, will be reopened at once, but until all arrangements in that connection are made intending passengers will have to purchase their tickets at the top town office.

The telegraphic service was completely restored yesterday afternoon with all points and is working in first class order, only the line business being managed from the station.

Insurance, investigation etc.

Friday 15/11/1895 Ottawa Journal Carleton Place Ottawa, Broad Street

No decision yet on rebuilding the depot or whether CPR will run into Central depot.

Friday 15/11/1895 Ottawa Citizen Carleton Place Ottawa, Broad Street

Passengers from the west had rather a warm reception at the C.P.R. station yesterday morning. When the Montreal express steamed in at six o'clock the station building was all ablaze. It made a furious fire. The structure, entirely of wood, burned up like a bonfire. More.

Several times the main freight shed, just across the tracks, took fire but the watchfulness of the brigade prevented the spread of the flames. More.

C.A.R. offered the use of Elgin Street station but this would interfere with the operation of the railway.

Monday 18/11/1895 Ottawa Journal Ottawa Electric

Car 33 derailed.

Monday 18/11/1895 Ottawa Free Press Carleton Place Ottawa, Broad Street

The action of the Canadian Pacific railway company does not point in the direction of the Union depot long remaining the only station that company will possess in Ottawa, and there are many surmises today that the order given out from headquarters imply a move on the part of the company in the direction of finding an entry to the city by such a route as will enable the line to make use of the new central station at no distant date.

This morning a gang of workmen started operations at the scene of the late fire and instead of pulling down the partially burned building they are now busily engaged in repairing it in such a manner as will make it serviceable for some time to come. The first information was that a new station would be built with enlarged accommodation but a change appears to have come over the plans of the company with the result that apparently points to another and much better entry to the city.

--

Monday 18/11/1895 Ottawa Citizen Maniwaki

The train that conveyed the volunteers to Lowe yesterday, consisted of two cars for the men and four for the horses. As the men were a little cramped for room, Mr. W.J. Resseman, who left nothing undone to provide for their comfort had additional accommodation furnished at the Hull station.

The train arrived at noon, having taken nearly three hours to make the journey, for during the latter part of the run precautions were taken befitting a descent upon hostile territory. Possibility of sabotage.

(troops were sent from Ottawa because of a taxpayers revolt - full details)

Tuesday 19/11/1895 Ottawa Free Press Carleton Place Ottawa, Broad Street

Mr. H.B. Spencer, divisional superintendent of the Canadian Pacific railway, stated this morning that it would be a full month before the Union depot building would be completed. The edifice will be built on exactly the same lines as the one which was destroyed. Two coaches have been placed on one of the sidings and are used for the accommodation of those awaiting trains.

New elevator - description and drawing.

Friday 22/11/1895 Renfrew Mercury Belleville Perth

From the Perth Erxpositor.

A large number of men have recently been taken on at the car shops, and work is booming down there now.

Friday 22/11/1895 Brockville Recorder Carleton Place Ottawa, Broad Street

The C.P.R. passenger depot was completely destroyed by fire this morning, about six o'clock. The fire started between the restaurant and the agent's office, and spread so rapidly that little or nothing was saved. The despatchers' office, superintendent's office and baggage room were completely destroyed. There was considerable baggage and some mail matter consumed. The buildings on the opposite side of the street were badly scorched. The origin of the fire is unknown as yet. The buildings were covered by insurance.

Monday 23/11/1895 Ottawa Free Press Canada Atlantic Central Depot

Track laying along the canal bank is being pushed very rapidly, a gang of men putting in a number of hours work yesterday. The frost is necessitating more rapid completion of the line.

Saturday 23/11/1895 Ottawa Citizen Carleton Place Ottawa, Broad Street

The burnt sheeting on the old C.P.R. station is nearly all torn away and work is rapidly progressing in fitting the building up for occupancy. In the meantime cars are used for waiting rooms etc., for which purpose they answer splendidly.

Monday 25/11/1895 Ottawa Journal Maniwaki

The line of the O. & G. railway is surveyed all the way to Dessert. The surveying party have returned to the city, having completed their work. As much of the line between Gracefield and Dessert as possible will be completed next summer.

Tuesday 26/11/1895 Ottawa Citizen Maniwaki

It was learned yesterday that the rock excavation in connection with the construction of the Gatineau Valley Railway from its present terminus to Maniwaki would likely be done during the winter months.

Friday 29/11/1895 Renfrew Mercury Chalk River Renfrew

Work on the interior of the new C.P.R. station is progressing steadily, and station master Dickson is in hopes that he will sell Christmas tickets within its walls. It will be heated with hot water; and the furnace and fittings are being placed in position this week. There will be plenty of room for a crowd in the waiting room; and the ladies waiting room will be carpeted.

29/11/1895 Ottawa Journal Renfrew

WHERE DEER ABOUND. The Toronto Globe of Monday said: "Provincial Engineer McCallum, who left Wednesday to inspect a ten mile section of the Ottawa, Arnprior and Parry Sound Railroad, has returned home. The portion of the road which he inspected lies in the townships of Nightingale in Haliburton, and Canisby (sic) and Airy, in the Nipissing district, three quarters of a mile running through the Algonquin Park. He found it to be in good condition. Nine miles of construction work beyond the point where he was is being pushed forward, and will be completed and ready for inspection shortly. He reports that there is about three inches of snow there, and that the region is full of deer."

Saturday 30/11/1895 Ottawa Free Press Canada Atlantic Central Depot

Mr. Booth stated this morning that it was altogether improbable that the work of levelling off the land where the Dey's rink stood, would be proceeded with this fall, the frost is working in so rapidly. The two iron bridges over the Hurdman's road near the deep cut, will be finished tonight as will also be the track laying. "Of course," said Mr. Booth, "WE could commence on Monday or Tuesday running our passenger cars into the temporary station but as this would interfere with the work in progress we will wait for some time but by the 15th of next month the traffic will certainly be commenced.

Saturday 30/11/1895 Ottawa Journal Canada Atlantic Central Depot

Dey's rink is now almost levelled to the ground. The steam shovel will be put to work on Monday afternoon to cut away the bank on which the rink stood. Two strips will be cut out from Theodore Street to the site of the temporary depot. As far as is known trains will be running into the temporary depot two weeks from Monday.

01/12/1895 Athens Reporter Westport Newboro

It is a good thing the Newboro station is nailed down, or it might be carried off by rats. A farmer left a bag of grain in the station overnight, and the next day it was found that rats had gnawed the bag all to pieces and nearly all the grain was gone, or on the floor.

--The lumber is sorted automatically, and is taken from the mill to the piling ground on small cars, the facilities being such that two single horses can haul it away.

Tuesday 03/12/1895 Ottawa Free Press Hammond

Late employes of the Central Counties railway who had some difficulty with the railroad people over the wages earned last spring and summer, are now receiving ten cents on the dollar of their accounts. They do not know when they are to get the balance but are hoping for the best.

Tuesday 03/12/1895 Ottawa Journal Canada Atlantic Ottawa East

The iron girders for the O.A. & P.S. bridge over Hurdman road at the head of Deep Cut were laid yesterday.

Wednesday 04/12/1895 Ottawa Journal Canada Atlantic Central Depot

Opening of the New Depot

The opening of the new temporary depot at the canal basin will be made the occasion of a formal recognition on the part of the city of the services rendered by Mr. J.R. Booth and the immense advantages being derived by the city as the terminus of the Ottawa and Parry Sound Railway.

The event will be made one of an auspicious character and the mayor, aldermen and city officials will attend in a body and present Mr. J.R. Booth with a congratulatory illuminated address.

This action was decided on by the council last night and originated with Ald. McGuire who introduced it in the form of a motion that carried unanimously.

Wednesday 04/12/1895 Ottawa Journal Carleton Place Ottawa, Broad Street

The C.P.R. depot has a new roof now and work is going on at present on the inside fixings. It will not be long before it is completed.

Thursday 05/12/1895 Ottawa Journal Canada Atlantic Central Depot

The O.A. & P.S. Ry. are discharging the men that have been employed within the city limits on the construction of the entrance to the Central Depot. About sixty men were discharged yesterday.

The steam shovel is busily engaged tearing away the embankment which until a few days ago was the site of Dey's skating rink. This is done to get a level entrance into the temporary depot.

Thursday 05/12/1895 Ottawa Free Press Canada Atlantic Central Depot

The steam shovel started to work on the Dey's rink site this morning. The ground is frozen hard from the surface for some distance down and the chunks of soil dislodged are frequently enormous. Considerable trouble and delay are experienced in consequence of the lumps holding securely in the scoop.

Tuesday 05/12/1895 Ottawa Journal Hammond

New Branch of the C.A.R. will be opened Monday.

The government inspection of the Rockland branch of the C.A.R. will take place tomorrow or Saturday and the line will be formally opened on Monday next.

The Rockland branch is seventeen miles in length and extends from South Indian on the main line of the C.A.R. to Rockland. The line passes through a country well adapted for agricultural purposes although the country is not yet extensively cleared. There are four stations on the line. The Brook, Cheneys, Clarence Creek and Telephone Road.

About a mile and a half from Rockland a branch diverges off to Edwards lumber yards through which several sidings have been laid. Almost the entire cut of Edwards mill will be shipped out over this line and the C.A.R. to the American markets,

The construction of the road was begun about a year ago by the Central Counties Railway who carried on the work until a few months ago when being financially embarrassed the completion of the line was given over to the C.A.R.

Friday 06/12/1895 Renfrew Mercury Westport

As the Brockville and Westport train was approaching the Crosby Swamp one evening last week, the engine driver saw a man on the track waving a lantern. The train was brought to a standstill, and it was found that the man with the lantern was a farmer whose action on stopping the train averted a wreck which would almost certainly have involved loss of life. He had found across the track an elm tree about two feet and a half in diameter, which had been blown down by yesterday's high wind. The tree lay across the track in a dark place.

06/12/1895 Renfrew Mercury Renfrew

Our flag station on the OA & PS is now up and completed, and is a credit to the Company, as it is made very comfortable for the winter months. We have not heard yet what it is to be called, but we hope and expect it will be called after the wonderful place itself "Goshen."

Saturday 07/12/1895 Ottawa Free Press Pontiac & Pacific Junction

At the coming session of parliament the Pontiac and Pacific Junction Railway Company will apply for an act to revive its power to extend to Pembroke and to build over the Ottawa the bridges necessary therefore: also to extend the time for the construction by the company of a bridge over said river at the city of Ottawa.

Friday 09/12/1895 Brockville Recorder Brockville and New York Bridge Brockville

Up to the present time the C.P.R. people have delivered 78 cars of stone for the international bridge. There are some 15 car loads yet to come this season but these will likely remain on the dock until navigation opens. Workmen are still engaged on the island blasting out the ground for pier No. 5, which will be started just as soon as the stone can be placed in position in the spring. Work will then be started on the first caisson which when completed will be sunk on the American side.

Monday 09/12/1895 Ottawa Free Press Hammond

The government inspection of the railway tracks from the C.A.R. at South Indian to Rockland, took place on Saturday and proved satisfactory, the result being that passenger traffic was commenced this morning. The line is 17 miles in length.

Monday 09/12/1895 Ottawa Journal Hammond

Rockland Branch Now Open for Traffic.

The Rockland branch of the C.A.R. was opened for freight and passenger traffic this morning and agents appointed at Clarence Creek and Rockland, rates, timetables and all other information will be cheerfully furnished on application to nearest agent.

Tuesday 10/12/1895 Ottawa Citizen Canada Atlantic Central Depot

Mrs. Augustus Keefer's stone quarry in Nepean township has been sold to Mr. J.R. Booth for \$5,000. It is said Mr. Booth desired to procure the stone in the quarry for the construction of the temporary central station.

Wednesday 11/12/1895 Ottawa Citizen Maniwaki

The route of the Gatineau Valley Railway through Bouchette township--is now settled. The line is to run through the rear portion of the township, or that section back from the Gatineau river More.

Wednesday 11/12/1895 Ottawa Journal Maniwaki

The Quebec government authorities have given their assent to the O. & G. Ry. building their line through the rear portion of Bouchette township instead of the "front" and the line will be built by that route. The line will run close to Blue Sea Lake, the famous fishing grounds of the Upper Gatineau.

Wednesday 11/12/1895 Ottawa Free Press Canada Atlantic Central Depot

As yet no date has been fixed upon for the formal opening of the new tracks along the banks of the canal, but that it will take place early next week is something now assured. The information was received from Mr. Booth this morning. A third track has been laid which permits of an entrance to the eastern side of the temporary station. This will be used for the freight traffic, but for that freight only that may be taken directly from the cars, as no storage accommodation is to be provided for the present. A ten foot plank walk is today being constructed on Wilbrod street from Nicholas to the new depot.

The mayor, city engineer and some aldermen together with a deputation from the town council of Ottawa East, will inspect the new iron bridges over the Hurdman's road at the deep cut some time this week possibly tomorrow.

As the frost increases in intensity the difficulty of the excavating work becomes greater. Considerable trouble was experienced this morning, owing to the large lumps of frozen earth that are dislodged, and to make matters worse the shovel went off its tracks =, causing a serious delay.

13/12/1895 Eganville Enterprise Renfrew

Mr. Cuddy, Dominion Inspector of Railways, and Mr. McCallum, Ontario Inspector of Railways, with a number of leading officials of the OA & PS R., recently inspected the last ten miles of the road between White Fish Lake and Cache Lake. They found everything satisfactory. The road is now completed to 168 miles from Ottawa.

Friday 13/12/1895 Brockville Recorder Westport Westport

Friend Bywater of the Westport Mirror, has once more earned his right to the title of a hustler in issuing a Christmas number, crowded full of good things regarding the business of the B. & W. Railway and the adjoining country. It is supplied with sufficient pictures to please anyone, is printed on fine paper, and is altogether an excellent number.

Friday 13/12/1895 Renfrew Mercury Hammond

The Rockland branch of the Canada Atlantic Railway was opened for regular freight and passenger traffic on Monday, December 9th, 1895, and agents appointed at Clarence Creek and Rockland.

Saturday 14/12/1895 Ottawa Citizen Renfrew

Parry Sound railway trains are running over the bridge constructed over the electric railway tracks at Hintonburg by the Electric Railway Company. The work, which is most substantial, was carried out under the supervision of Mr. F.A. Hibbard.

Tuesday 17/12/1895 Ottawa Journal Canada Atlantic Central Depot

Central Depot Sir?

On Thursday that will be the query of the cabbies.

The shrill whistle and the telling bell of the passenger locomotive will soon be heard in the centre of the city for on Thursday passenger trains will be running into the new temporary depot at the canal basin.

With all the alacrity and dispatch that has characterized the building of the lines into the Central depot, goes on the work of completing the temporary station. The depot is just receiving its finishing touches. A few weeks ago a few pieces of timber lay strewn on the ground; today a commodious station, certainly not the poor "temporary" affair some people thought it would be, is erected.

Mr. J.R. Booth's hand is recognized in it all. Everybody admits that without him the work would not go on so rapidly. Indeed he has been on the spot every day from early morn until the men stopped work at 5 o'clock, in the evening. Although 70 years of age he may be frequently observed handling the pick and shovel or placing the timbers like any workman.

As to the Depot

But about the temporary depot. The dimensions of the building itself are 75 feet long and 25 feet wide, but on all sides of the building are "lean tos" 16 feet wide which makes it appear twice the size. Extending south from the station is a covered platform 400 feet long. This platform extends to within 200 feet of Maria street bridge and from the end of it to the bridge a wide platform is laid. From the terminus of the platform a stairway will be built leading down from a level with the bridge to the platform. This will be the main entrance of people on foot to the depot.

The entrance to the station by carriage will be from Nicholas by Wilbrod street or by way of Mosgrove street and the canal dock frontage from Rideau.

The depot is covered with iron sheeting and well finished in the interior. The building is divided into ladies' and gent's waiting rooms, a restaurant and a ticket office. A baggage room is built to the north end of the station.

As to Trains

Passenger trains will enter and leave on either side of the covered platform, extending south from the station building. The Canada Atlantic trains will leave and enter from the track on the west side of the platform and the Ottawa, Arnprior and Parry Sound trains from the east side tracks.

The station and its surroundings will be lighted by electricity. Altogether the depot is a better building than the present C.A.R. structure even if it is temporary. Mr. Booth stated yesterday evening that the depot would cost \$4,000. He did not expect it would be used a whole year for by that time the new central depot would be ready and the present building torn down.

Tuesday 17/12/1895 Ottawa Citizen Renfrew Elgin street

Officials in the C.A.R. station on Elgin street are making preparations for the removal of the offices into the new temporary station.

Wednesday 18/12/1895 Ottawa Journal Canada Atlantic Central Depot

The steam shovel, that has been so busy chiselling away the canal bank all summer, ceases work today. The shovel will early next spring begin to excavate another slice down the bank from the head of Deep Cut.

Wednesday 18/12/1895 Ottawa Free Press Canada Atlantic Central Depot

The delay in the Supreme Court in settling the Sparks estate dispute is not going to deter Mr. J.R. Booth any. Mr. Easton has been requested to vacate the premises at the Basin before the second week in January. The company intend stringing a trestle work structure across the canal basin next week and will commence the work of filling in at once. Two tracks will be laid right up to the militia stores. Mr. Easton is making preparations to move and will locate at the upper end of Bank street.

The first train into the temporary station will not be run until Monday next. Quite a large gang of men have been at work around there for some time, but it is now found that it will be impossible to put things into shape before the date mentioned. Today a fence is being constructed around the canal in the vicinity for the purpose of affording protection to those passengers who may alight from the cars at that side.

The sleepers of the side walk on the north side of Wilbrod street had been laid so as to give a walk eight feet wide and the planks were also cut that width. The city engineer ordered it to be taken up and the width to be reduced because under the original plans it would be necessary to take in a hydrant situated on the side of the road. An alderman of St. George's ward expressed disapproval at the change and suggested that the present representative should have arranged with Mr. Surtees to have the hydrant moved out a little and thus allow the plank walk to be eight feet wide.

In order to allow of the mail car being used on the Nicholas street line workmen are today opening up the few feet of track that project from the curve at the corner of Theodore street. By this arrangement the car can then remain at the junction of Nicholas and Theodore street until the incoming train passes under the Maria street bridge when it will run down to Wilbrod street in time for the mail bags. It is only a temporary arrangement.

Thursday 19/12/1895 Ottawa Journal Maniwaki Gracefield

Gracefield depot on the O. & G.V. Ry. destroyed.

The O. & G.V. Ry. station at Gracefield was completely destroyed by fire last evening. The agent, Mr. James T. Hoolihan, had locked up the station to go to supper and while he was absent it caught fire. When help arrived the whole interior of the building was in flames and none of the contents or the building itself could be saved. The loss involved reaches \$1,500, which is but slightly covered by insurance. The origin of the fire is unknown. Superintendent Resseman went up to Gracefield on a special today to inquire into the fire.

Also covered in Renfrew Mercury 27 December.

Friday 20/12/1895 Ottawa Free Press Canada Atlantic Central Depot

An empty coach was run into the new central depot yesterday, when it was found that the canopy extending out over the platform had been built too wide. As a result the track running close to the canal had to be shifted in order to permit the easy and safe entrance of the trains. The work was done most expeditiously.

Friday 20/12/1895 Ottawa Citizen Renfrew Goshen

A new station is to be opened on the line of the O.A. & P.S. railway on Monday, at a point five miles east of Renfrew. It will be known as Goshen station.

From the Perth Expositor.

About forty men were laid off at the car shops on Saturday evening. There are now about 135 working there.

Friday 20/12/1895 Ottawa Journal Ottawa and Prescott Sussex Street

The first train that ever ran into Bytown.

The announcement in yesterday's issue of the Journal that trains were to run into Central station on Thursday Dec. 19th recalled to the recollection of the writer the following facts. It is exactly forty-one years now since the first railway train approached Bytown. As the railway bridge over the Rideau river was not completed the trains could not come into the town till the beginning of January. With the dawn of 1855 Bytown became the city of Ottawa. About that time wherever people met one question sure to be asked was "Have you seen the cars yet?"

On Christmas day, 1854, the writer, accompanied by some young people went to the east side of the Rideau at 8.45 p.m. the hour when the train from Prescott was due. All were eager to get a glimpse of the railway train. It was a dark night. There was no gas in the town at that time. The Rideau river and the Montreal road looked dismal enough. Soon the whistle of a locomotive was heard in the distance. It was pleasant to see a train of brightly lighted cars come slowly along the track. They stopped on the north side of Montreal road. A few passengers got off and were conveyed into town in cabs.

The suburb known as Janesville was then McArthur's farm. Some years later when it was divided up into village lots it was named Janeville, in honor of Mrs. McArthur, a well known lady. For a quarter of a century or more Mr. and Mrs. McArthur kept the British hotel on Sussex street. The hotel is now the front part of the Geological Museum.

HULDAH

Ottawa, Dec. 18

(The date for running trains into the new depot has been changed to Monday next. - Ed.)

Friday 20/12/1895 Ottawa Journal Maniwaki Gracefield

The small O. & G. Ry. station at Ironsides, which is now unused, is to be removed to Gracefield to serve as a temporary station until another is erected to replace the one burned down on Wednesday evening.

Saturday 21/12/1895 Ottawa Journal Renfrew Elgin Street shops

C.A. Ry. turn out the first coach from their workshops.

Exerpts. First passenger coach is a combination car 62 1/2 feet long over drawbars or 55 feet from door to door. Height is 9 ft 6 in from floor to ceiling or 14 from level of the rails and its width is 10 feet. It is a standard car - Westinghouse brakes, Miller couplers and fitted with steam heating apparatus. Externally it is plainly furnished with Sherman's tuscan red, pointed in black the lettering being in gold.

Full details of construction etc.

Others to follow.

A first class passenger coach is now being built and will be turned out of the shops in a few weeks. Two snow ploughs have also been built, one of which has already been put into use. This plough is 11 ft. 6 in. high, and 32 feet long end cost \$1,400. The plough has a raising and lowering front, also wings of the most improved pattern.

When the company erect their new shops beyond Archville next spring the work of manufacturing cars will go on in earnest but several coaches will be turned out during this winter.

The cars are constructed under the supervision of James Ogilvie, foreman of the car shops and Wm. Holtby, car foreman.

Saturday 21/12/1895 Ottawa Free Press Canada Atlantic Central Depot

Central depot formally opened. Full account. Engine No. 16 was in charge of the special train.

Saturday 21/12/1895 Ottawa Citizen Canada Atlantic Central Depot

--

Yesterday, workmen were putting the final touches the station which is situated at the north end of the old Dey's rink site. A covered stairway leads to the landing from the Maria street bridge. The approaches to the station from Rideau street is via Musgrove street, Wilbrod and Stewart streets, west of Nicholas also lead to the station, a new sidewalk on Wilbrod street extending to the door.

City looks it over.

Mayor and Aldermen at New Central Depot

The railway lines forming an entrance to the Central depot passed under civic inspection today. The temporary depot at the canal basin was also formally opened.

At the invitation of Mr. J.R. Booth the members of the civic finance committee, the mayor and other members of council went over the lines this morning. The party drove to the Canada Atlantic Railway in hacks, then boarded a special train which was waiting to convey them over the lines. The train consisted of a locomotive and two coaches, one of which was Mr. J.R. Booth's official car. The official car was well filled, the party consisting of Mayor Borthwick, Ald. Greene, chairman of the finance committee, Ald. Stewart, McGuire, Enright, Champagne, Grant, Cooke, Ford and Jamieson, city solicitor McTavish, Mr. J.R. Booth president of the O.A. & P.S. Ry., E.J. Chamberlain, general manager, A.W. Fleck, secretary-treasurer, M. Donaldson, A.J. Jeffrey, proprietor Arnprior Chronicle and a Journal representative. The train moved slowly over the line to give an opportunity to observe the work closely. The run into the temporary depot took a quarter of an hour. Arriving at the temporary depot a large number of citizens were waiting about the platforms. Among them were noted Mr. Claude Mclachlan of Arnprior, vice-president of the O.A. & P.S. Ry., Fred Booth, president of the C.A. Ry., J.A. Seybold, ex-Ald. O'Leary, Oscar McDanell, Wm. J. Hurdman and Joe E. Duval, C.A.R. train despatcher.

On alighting from the train Mr. J.R. Booth handed Mayor Borthwick the key of the building and the temporary depot was formally opened by the mayor. The building was gone through and its completeness and convenience for the comforts of the public favorably commented upon.

Mayor Borthwick, in a brief speech, complimented Mr. Booth on his enterprise. Mr. Booth, in his reply, stated he was pleased to know that his humble efforts had been appreciated. The citizens had given him valuable help in carrying out this enterprise but Providence had also helped him for the favorable weather this fall he would not have succeeded as well as he did.

Ald. Cook proposed three hearty cheers and a tiger for Mr. Booth and those present cheered so as to make the walls of the station ring.

The bonus earned

The finance committee met in city hall after the inspection. The members all considered that the by-law granting the bonus had been fulfilled in every particular and that the remainder of the bonus, \$50,000, to be paid upon completion of the Central depot had been earned.

However, the city solicitor was given a little time to look fully into the details of the by-law, and if his opinion is favorable the mayor and treasurer have authority to pay over the remainder of the bonds.

Goshen is the name of a new station to be opened on Monday on the line of the O.A. & P.S. Railway at a point five miles east of Renfrew.

Commencing today the trains of the Canada Atlantic and Parry Sound Railways will depart from and arrive at the new Central station near Theodore street. Formal opening took place on Saturday - full description - Booth to get bonus of \$50,000 - More.

The first regular passenger trains left the new temporary depot at the canal basin this morning. The first train was the C.A.R. express for Montreal which left the depot sharp at 8 o'clock. The O.A. & P.S. train left 5 minutes later. Both trains ran up the bank to the head of the Deep Cut at a brisk clip. Many people were at the depot to watch the departure of the trains. Among them were Messrs. J.R. Booth, E.J. Chamberlain, general manager, O.A. & P.S. Ry., C.J. Smith, general passenger agent, and S. Ebbs, city ticket agent, The starting bell was rung by Mr. Booth.

The platform around the old Elgin street depot is being torn up in order to permit the laying of another freight track.

The officials of the Gatineau Valley railroad believe from information that has reached them that the fire at Gracefield station was by no means accidental, for the circumstances seem to indicate that a robbery had been committed. There is said to have been \$100 in cash in the building which is missing as well as many of the tickets.

The electric railway company are putting in another crossover track on Nicholas street near Wilbrod, in order to allow cars to serve the Central depot, without going round by Theodore street.

The city treasurer yesterday paid the Parry Sound Railway the amount due them by way of bonus.

The Canada Atlantic depot is disappearing owing to the onward march of Ottawa's progress. People coming in from the west feel it strange to be whirled past the old depot and round the bend to the temporary Central depot. It is close upon fifteen years since these buildings were erected.

The Canada Atlantic Railway is commencing to build cars at its shops in Ottawa. The first one - worth \$4,000 - was turned out for the Rockland Branch. It was a combination first and second class and baggage car.

The new central depot has been opened now for more than a week, but that period of time has not destroyed the novelty of watching engines steaming into such a central portion of the city.

The new station agent is Mr. John Savage who was taken from General Clare's staff to fill that position. He is receiving the congratulations of many friends and fellow employees.

Close to the bridge on the north side a small building is being erected to be used as a wash house for the passenger cars.

Incident with car No. 22.
