

Local Railway Items from Area Papers - 1909

05/01/1909 *Ottawa Journal* *Renfrew* *Preston street bridge*

Work is being rushed on the new Preston street railway bridge and an early completion is being looked for. The new structure which will be of steel, rests on two cement piers and will be of great strength.

As a result of the erection of the bridge Preston street will be widened some twenty feet, and foot traffic will benefit by the change. The completion of the bridge will bring to a close a matter which has been hanging fire for the past two years.

08/01/1909 *Eastern Ontario Review* *Other*

A new railway for Eastern Ontario is on the tapis, according to applications for legislation received by the clerk of the Provincial Legislature. An Act is asked for incorporating the Eastern Ontario Counties Electric Belt Line Railway Company. The line is to connect Cornwall, Brockville, Morrisburg,, Winchester ad Ottawa and places in the intervening counties. From Kenmore a branch line is proposed to Russell village connecting with the Ottawa, New York Railway. Legislation is asked to amalgamate with or purchase the Cornwall Railway Company, the usual bonding power of 420,000 being solicited. Mr. F. Ineson, secretary, Ottawa, signs the application.

13/01/1909 *Ottawa Journal* *Kingston, Portsmouth and Cataraq*

Kingston Street car barns burnt.

A \$10,000 fire broke out early this morning in the street car barns on Ontario street and was fought vigorously by the firemen in the face of the bitterest weather of this year. The alarm was given at about two o'clock, and from that hour until eight o'clock the flames were fought and the fire confined to the building, part of which was also occupied by Crawford's broom factory. The street car men got out much of their equipment, two cars alone being burnt. These were in the pits and were undergoing repairs.

The two upper flats of Crawford's factory, where the workrooms were, were badly gutted.

The fire was of so vigorous a type that it was deemed desirable to secure aid and the men of "A" and "B" Batteries were called out. They did yeoman service. Police Constable Nallon was injured by falling into a pit in the darkness.

The origin of the fire is so far unknown, but it took in the street car section. The line will be fairly well covered by insurance. The Street Railway Company owns the building.

14/01/1909 *Ottawa Journal* *L'Original* *Rockland*

All work on the Canadian Northern Ontario railway has ceased and it is understood that most of the employees will leave this week. This will mean a great loss to the activity of Rockland.

22/01/1909 *Eastern Ontario Review* *L'Original* *Rockland*

The work of the Canadian Northern railway has closed for the winter, most of the employees having left.

23/01/1909 *Ottawa Journal* *Arnprior and Pontiac*

Application will be made to parliament this session for the incorporation of the Arnprior and Pontiac Railway Company with power to build and operate a line of railway from the Pontiac Pacific Junction line between Quyon and Campbell's Bay southerly across the Ottawa River to Fitzroy Harbour and thence westerly via Arnprior to a point on the Kingston and Pembroke Railway at High Falls, also from Fitzroy Harbour easterly to a point on the Canadian Pacific Railway at or near Britannia, and to a point on the Grand Trunk at or near South March and with power also to construct a railway and passenger bridge across the Ottawa River at Chats Falls.

01/02/1909 *Perth Courier* *Westport*

Fought on a Train.

Returning to Westport last Friday night with the Newboro and Athens hockey teams, who had played exhibition games in Brockville and 250 supporters, a special B.W. and N.W. train was the scene of a continuous melee until Athens was reached. Bottles flew, windows were smashed, poor passengers are suffering from fractured noses, while a Newboro man is nursing a badly lacerated thumb, bitten by one of the fighters. One member of the party, a resident of Athens, named Cury, was pushed off a car, but the train stopped and he was picked up. Wholesale prosecutions are likely to follow.

Precise date in February 1909 is not known,

03/02/1909 *Ottawa Journal* *Ottawa Electric*

Few persons in Ottawa ever stop to think how many street cars pass the corner of Elgin and Sparks streets durnig the day.

Mr. W.J. Sayer, who attends the switch at the corner, recently counted the number carefully and found that 2,476 cars passed within 24 hours. They begin running at 4 o'clock in the morning on some parts of the system and there are cars in operation as late as midnight. Taking an average for the eighteen hours about 148 cars pass at that corner every hour. During the busier portion of the day there are more than this and the number will probably go near to 200 to the hour.

The cars on the Britannia run, on that from Union station to Ottawa East, and in fact on all parts of the system except the route from the Experimental Farm to a point where the Britannia cars are met, pass the corner of Elgin and Sparks streets. They are constantly whizzing by there and it is a good point to watch them and get an approximate idea of the traffic.

Some cars make ten trips a day and others about twenty, according to the distance they have to cover, and it would be somewhat difficult to estimate the distance they do cover.

A very conservative estimate, however, would be 7,000 miles a day: so that in the aggregate the cars here in a single day cover the distance from Ottawa to London, England and back every day.

Although the traffic is so heavy and the trips are made so frequently, there are few accidents.

11/02/1909 *Chesterville Record* *Westport*

Returning to Westport on Thursday night with the Newboro and Athens hockey teams, who had played exhibition games at Brockville and 250 supporters, a special B.W.&N.W train was the scene of a continuous melee until Athens was reached. Bottles flew windows were smashed, four passengers are suffering from broken noses, while a Newboro man is nursing a badly lacerated thumb, bitten by one of the fighters. One member of the party, a resident of Athens named Curry, was pushed off a car, but the train stopped and he was picked up. Wholesale prosecutions are likely to follow.

12/02/1909 *Renfrew Mercury* *Eganville* *Dominion Rock Products*

The Star-Enterprise says that the Jamieson lime kiln at Eganville is affording a market for a large quantity of wood this winter, and day after day many cords are unloaded there. --

C.P.R. Improvements

While the appropriations for constructuin work on eastern lines have not yet received the signature of Thomas Shaughnessy and cannot consequently be definitively announced there is one piece of work that weill certainly have a place in the year's programme and that is the double tracking of the line between Vaudreuil and Smith's Falls.

The C.P.R. double tracking on what may be called the home stretch on the western lines has been in progress for two seasons. Last year the grading and tracklaying was completed from Smiths Fall's to Finch and a good deal was done until the severe weather put an end to operations on the line between Vaudreuil and Dalhousie Mills. This will be finished and the gap between Finch and Dalhousie Mills filled in before the end of this summer.

Mr. James McDonald of Smith's Falls has the contract for part of the grading and Mr. J.P. Mullarkey has the rest of the grading and the whole of the culvert work of the section from Vaudreuil to Finch.

This will finish the double track from Montreal to Smith's Falls, but as to what the company will do beyond Smith's Falls nothing has been determined. There have been reports about the construction of the new grain line from Victoria Harbour to Georgian Bay, but this is at the moment hanging in the balance between this year and next, It is the president's pen that will turn the scales.

03/03/1909 *Ottawa Journal* *Hammond* *Rockland*

Rockland. A fatal accident occurred here on Saturday evening when Joseph Lalonde of this place, who was employed on the G.T.R. as a section hand, go on the hand car to go a short distance down the line. In some unaccountable way the handle of the hand car struck him on the neck, and it is presumed that the force of the blow broke his neck. He was taken to his home where Dr. Desrosier attended him. In the meantime the G.T.R. engine and crew were making preparations to take him to the hospital in Ottawa, but he succumbed before he could be removed. Mr. Lalonde was an industrious, hard working man, and was much respected in this community. He leaves to mourn his untimely end his wife and two children.

06/03/1909 *Chesterville Record* *New York Central* *Embrun*

Joseph Brisson, aged 72, an aged resident of Embrun, a small village on the Ottawa and New York Railway, about thirty miles from Ottawa, was struck and instantly killed by the outgoing train which left Ottawa Saturday morning at 7.30. According to the story of the engineer on the train, the man was walking along beside the track about a quarter of a mile north of Embrun when he first saw him. When the train was quite close the aged man stepped right onto the track in front of the engine and was struel in the head, being instantly killed. The body was not mangled.

Mr. Brisson had been sick for some time and that morning was probably on his way up the track to see his married daughter, Mre Emily Guerin, who lives a short distance from the village.

12/03/1909 *Eastern Ontario Review* *Vankleek* *Hawkesbury*

Through collision of a G. Trunk snow plow and an engine of the C.N.R., Quebec line on the Hawkesbury branch of the G.T.R. about half a mile out of Hawkesbury, Wednesday afternoon, Plow foreman marlow, of Coteau lost his right arm and a boy was less seriously injured. The accident occurred about 2-15 o'clock. The C.N. engine had been placing cars on the G.T. siding and was backing down to the junction switch when it struck the snow plow, wrecking it with the casualties mentioned. The injuries are not fatal. A wrecking gang was hurried to the scene and the wreck cleared in time to allow passage of the evening train from Glen Robertson.

An investigation as to who is to blame will be held.

12/03/1909 *Eastern Ontario Review* *Alexandria* *Coteau*

W.J. Finner, a fireman on the G.T.R. between Coteau and Hawkesbury, had his leg broken in an accident that occurred at Coteau on Sunday night. Finner was standing on the tender of the engine during a stop when the engine was taking water, and in some way fell to the ground, sustaining a badly broken leg. The accident, it is thought, was due to the engine suddenly starting, but it is not known if anyone was at all to blame.

19/03/1909 *Eastern Ontario Review* *L'Orignal* *Rockland*

A large number of men are at work clearing snow on the track for the C.N.R.

24/03/1909 *Ottawa Journal* *Ottawa Electric* *Experimental Farm branch*

A vote of \$10,500, a farther amount required for construction of the Experimental Farm branch of the Ottawa Electric Railway was approved in committee of the Commons last night.

Mr. Fisher said the vote was to cover the cost of the portion of the line, a mile or so in length, within the boundaries of the Farm. The Chief Engineer of the Railway Department had computed the total cost of the work at \$39,882. The arrangement was that the same fares would be charged as on the city lines of the company. The cars would carry mail for the Farm.

Mr. Fisher said his department had sanctioned the project of the Farm line because there had been an insistent public demand for it. The company had agreed to construct the line to the Farm borders only on the condition that the Government would lay the line within the Farm limits. Five hundred dollars of the vote will be spent for fencing.

30/03/1909 *Ottawa Journal* *Hull Electric*

The Hull Electric Company are distributing rails for the new belt line.

09/04/1909 *Eastern Ontario Review* *L'Orignal* *Plantagenet*

The men who have been working on the new line of railway have, after seven months labor, completed their work and are now ready to leave. The steel gang are busy laying the steel, and before many weeks it is to be hoped that the line will be complete.

Arrested at Vankleek Hill

Two Ottawa prisoners were detained at the C.P.R. station here last Friday.

They had robbed Pratt's boot and shoe store in Ottawa and had shipped their plunder as baggage to Vankleek Hill. Detective O'Meara, Ottawa detected them on the train and placed them under arrest.

They were taken off the train here and were in a very ugly mood when they found they were caught in the very act. The Ottawa Free Press reports the case as follows:

Frank Murray, alias James Smith, and Thomas McKay, were arrested by Detective Jos. O'Meara yesterday afternoon on a train between Ottawa and Vankleek Hill by Detective O'Meara on the charge of breaking into the shop of Isaiah Pratt, the Wellington street shoe dealer, the night previous and stealing goods to the amount of nearly \$400. Both men said they were guilty and asked to be tried by Magistrate. They were remanded until Wednesday.

The arrest marks a particularly clever piece of Detective work on the part of O'Meara. He first ascertained that a couple of valises had been checked to Vankleek Hill during the afternoon, and as they resembled some of the missing stuff, he got aboard the train as it left Ottawa at three o'clock.

Near Vankleek Hill O'Meara spotted his men and placed them under arrest. As he informed them of this Murray sprang at him and McKay pitched in at once. In an instant the train was in an uproar, the three men fighting all over the car. O'Meara gamely held his own and after five or six minutes of fierce fighting Mr. J. H. Hownie of Winnipeg, inspector of immigration rushed to O'Meara's help. They succeeded in downing the burglars and handcuffing them to the seat. In this shape they reached Vankleek Hill. Here they were taken off and transferred to the up train and brought back to Ottawa.

Frank Murray is no stranger to the police. In 1903 he was arrested by chief detective Dicks on a couple of charges of shop breaking and was sent down for five years. He was released about a year and a half ago. When arrested he gave the name of Martin. McKay, his companion, is not known to the police.

09/04/1909 *Eastern Ontario Review* *L'Orignal* *Alexandria*

The Ottawa City Council has requested the Government to order the G.T.R. Co. to remove a big fence placed around the property where a big hoeland station was to be erected by the company, but which seems to have been abandoned.

12/04/1909 *Ottawa Journal* *Prescott* *Prescott*

Prescott. The new C.P.R. round house took fire at three o'clock this morning. The firemen were promptly on hand but could not save the building. They got one passenger engine out, but two other engines were burned. Loss about \$12,000 partly insured.

15/04/1909 *The Equity, Shawville* *Waltham*

A wash out on the track near Ralph's crossing about three miles west of Shawville occurred during the night on Wednesday last and resulted in delaying the down train a couple of hours on Thursday morning. On Thursday night the condition of the spot was even worse, with the result that the up train could not proceed to its destination until repairs were made.

16/04/1909 *Eastern Ontario Review* *Prescott* *Prescott*

There was a fire in the C.P.R. roundhouse at Prescott which destroyed three engines and much other rolling stock. The loss will be some \$10,000, fully covered by insurance.

16/04/1909 *Renfrew Mercury* *Locksley* *Shady Nook crossing*

The G.T.R. express train which left Renfrew en route for Pembroke on Tuesday evening, with a larger passenger list than usual, had a narrow escape from being wrecked a few miles from the county town. The evening rain was falling heavily, causing a washout to occur, the discovery of this being made by Nelso Montgomery, a farmer of Shady Nook, who was walking home along the track. By use of a lantern, the train was flagged. As its speed at that point is fast, it must have fared badly had the washout not been noticed by Mr. Montgomery.

23/04/1909 *Eastern Ontario Review* *L'Orignal* *Ottawa*

The work on the branch from Hawkesbury to Ottawa is completed as far as the limits of Ottawa. The mode of entrance to Ottawa has not yet been definitely settled upon. It is expected that the C.N.R. passenger trains will use the Union Station in Ottawa. They will be run in on a spur line while the through freight from the West will not go into the city yards at all.

27/04/1909 *Ottawa Journal* *L'Orignal* *Rockland*

Rockland. A party of engineers from here went to Janeville on Saturday to survey the road of the C.N.O. Railway into Ottawa.

29/04/1909 *The Equity, Shawville* *Arnprior and Pontiac*

The railway committee of the commons Tuesday morning passed the bill incorporating the Arnprior and Pontiac Railway compan. The head office of the concern to be in Ottawa and the incorporators are A.H.N. Bruce, Robt. Bruce, and J. G. Gibson of Ottawa, Jas. Bell of Arnprior, and H. Kedy, of Fitzroy Harbor. The company is authorized to build a line from a point on the Pontiac Railway between Quyon and Campbell's Bay, across the Ottawa River to Fitzroy Harbor, thence westerly via Arnprior to a point on the Kingston and Pembroke Railway at or near High Falls, Renfrew county; also from Fitzroy Harbor easterly to Britannia and to a point on the G.T.R. near South March, Carleton county. The company is also empowered to build a bridge across the Ottawa river near Chats Falls and to charge tolls thereon. More.

07/05/1909 *Renfrew Mercury* *Chalk River* *Renfrew*

Engineers of the C.P.R. and G.T.R. to visit Renfrew to discuss subways and track amalgamation. More.

07/05/1909 *Eastern Ontario Review* *Morrisburg and Ottawa Electric*

The Morrisburg-Ottawa Electric railway is a certainty unless something happens. The right of way of the roadsides in each municipality through which the line will pass has been obtained. A meeting was held at Morewood, Tuesday, when Messrs. C.M. Willard, J.H.Louthridge, B. Louthridge, W.M. Louthridge, J.W. Bogart, R. Merkly and John McFarlane were appointed directors. Mr. John McFarlane is the only Ottawa director. The sur(veyors) will start work on Monday of next week laying out the line, and the grading will be completed next fall, in order that the rails can be laid as early as possible next spring. Options have been obtained for electric power from Morrisburg, but the company will endeavor to buy a water power in the vicinity of Ottawa and develop its own electricity. Stock enough to float the project has been subscribed by farmers along the route and a New York firm has taken over the selling of the bonds. Nearly all the municipalities along the route have bonused the new undertaking.

07/05/1909 *Eastern Ontario Review* *Kingston (CN)* *Brockville*

Om Monday last the C.P.R. express for Ottawa pulled out of the station in Brockville just as the G.T.R. train from Toronto was coming into the station. Four passengers were left at Brockville. The railway Commission will now find out why these passengers were left there.

07/05/1909 *Eastern Ontario Review* *Montreal and Ottawa* *Pendleton*

The railway commission was in session in Ottawa this week.. A case of much local interest in the county before the Commissioners. This was the application of the C.P.R. for approval of a new bridge at Cobb Lake, near Pendleton, on the short line between Montreal and Ottawa. This is the point where the flooding takes place every spring and this new bridge is intended to obviate this. Some objections were urged by Mr. Corriveau, engineer of the department of public works, who suggested some changes in the proposed structure. The plan was finally consented to with certain stipulations.

07/05/1909 Ottawa Journal Hull Electric

The double tracking of the Hull Electric approach to the Interprovincial Bridge is nearing completion. About 200 men are working steadily at it, and the scene in this part of the city just now is a lively one.

10/05/1909 Ottawa Journal Alexandria Central Depot

The present stone building which has so long done duty for a central station at Ottawa will be demolished as soon as the baggage annex and power house, which is being erected now beside it, is completed. The new annex will be of concrete and brick with sandstone facings. It will be two stories high, with the upper floor being for offices and the ground floor for baggage rooms. Local labor is being given preference on the work, which is expected to be finished by September. Upon its completion the furniture and fittings of the present stone station will be moved into it and work on the new building will commence.

11/05/1909 Ottawa Journal Ottawa Electric Experimental Farm

The Ottawa Electric Railway Co. has started a fifteen minute street car service to the Experimental farm from the George Street loop by way of Somerset Street. Upon completion of the Elgin Street loop the cars will run by way of Elgin and Albert Streets.

13/05/1909 Chesterville Record Alexandria Ottawa Union

A civic building permit for the erection of an power station and baggage annex has been taken out by the GTR at Ottawa. Work was commenced on the annex some days ago. Of the \$50,000 to be expended as stated in the permit, from \$10,000 to \$12,000 probably will be used for relaying the tracks and work required in the yards.

13/05/1909 Chesterville Record Morrisburg and Ottawa Electric

The Morrisburg-Ottawa electric railway is a certainty unless something very unexpected happens. The right of way of the roadside in each of the municipalities through which the line will pass has been obtained. A meeting was held at Moorewood recently when Messrs. C.M. Willard, J.H. Loughridge, B. Loughridge, W.M. Loughridge, J.W. Bogart, R. Merckley and John McFarlane were appointed directors. Mr. John McFarlane is the only Ottawa director. The surveyors will start work at once laying out the line and the grading will be completed next fall in order that the rails can be laid as early as possible next spring. Options have been obtained for electric power from Morrisburg, but the company will endeavor to buy a water power in the vicinity of Ottawa and develop its own electricity. Stock enough to float the project has been subscribed by farmers along the route and a New York firm has taken over the selling of the bonds. Nearly all the municipalities along the route have bonused the new undertaking.

13/05/1909 The Equity, Shawville Waltham Vinton

The mixed train coming east last Thursday was derailed near Vinton, three box cars and the baggage taking the ditch. Very fortunately no injuries were sustained although the train crew had a narrow escape. As a result, traffic was blocked for several hours, both on Thursday evening and Friday morning, the eastbound express being held up for two hours on the latter date. A wrecking train and crew came up on Thursday evening to clear the wreck. The derailed cars were damaged to the extent of several hundred dollars.

13/05/1909 Chesterville Record Ottawa Electric Chesterville

Chesterville. Remember the grand excursion over the CPR to Ottawa via Kempton Junction on Wednesday June 2nd, under the auspices of the Winchester W.C.T.U. for hotel funds. Fare from Avonmore \$1.15, Finch \$1.10, Chesterville \$1.05. Arrangements have been made with the Ottawa Electric Railway Co. to carry passengers to Britannia-on-the-Bay, where there are splendid facilities for picnicking, boating and other amusements. Come along, bring your lunch baskets and have a day's outing at this famous resort. Train leaves Avonmore 7.25 a.m., Finch 7.35, Chesterville 7.46. Returning leaves Union Depot, Ottawa, 8 p.m. For full particulars see posters.

14/05/1909 Eastern Ontario Review Montreal and Ottawa

The distribution of flower seeds, bulbs and plants by the C.P.R. to all its station agents is a bigger thing than most people imagine. There were fifty thousand packages of seeds with thirty two varieties in each, as well as two hundred thousand bulbs. This was an expenditure that this corporation was not by any means obliged to make. It is an act that goes a long way to show that the Company's officers have some thoughts for their employees and for the people who cross the continent on their splendid trains. The act is a most commendable one and deserves more thanks from the public than it is likely to receive.

14/05/1909 Eastern Ontario Review Montreal and Ottawa Vankleek Hill

A Very Sad Accident
Mrs. Alex Hunter, Stepey (Green Lane) was accidentally killed by a C.P.R. train here on Tuesday night at the station crossing. She was driving home just at train time at 5.30 p.m. She saw the eastbound train pull into the station and stop. She watched this train and attempted to drive across the track, forgetting the westbound train was approaching from the opposite direction. It was approaching very slowly, but she did not see nor hear it. The horse got across safely but the engine struck the rig and Mrs Hunter. She was thrown about thirty feet. Her arm legs and hip were broken. Dr. McDonald was called and Mrs. Hunter was taken to the home of Mr. R. Dunning, where she died a few hours later. Her age was 74 and she was a lady who was widely known and greatly respected. The news of her sad death was a great shock to the community. Coroner Doyle, Hawkesbury, called a jury together on Wednesday evening and viewed the body, An inquest will be conducted in the West Hawkesbury Township Hall this afternoon. A husband and a grown up family survive. Mr. Hunter, who has been in poor health for a long time, was overcome when he heard the news of the sad death of his life's partner. Mrs. Hunter had been taking home one of her daughters, Mrs. Barton, and was just returning when the accident occurred.

18/05/1909 Ottawa Journal Hull Electric

The Hull Electric crossover on Laurier Avenue, near Youville street, is gone and the cars are now using the double tracked approach to the Interprovincial bridge. This was the last link in completing a through double track system from Ottawa to Queens Park.

10/06/1909 Chesterville Record Morrisburg and Ottawa Electric

Options are being taken on water power about Ottawa by Mr. John McFarlane for the Morrisburg and Ottawa Electric Railway. Options were taken yesterday on a water power on the Upper Ottawa River developing 4,000 horsepower. If this power is conducted to Ottawa, and from there will operate the cars to and from Morrisburg. The idea is also to furnish light and power to villages along the route. A meeting of the directors will be held very soon when one of the water powers will probably be purchased.

11/06/1909 Eastern Ontario Review L'Orignal Ottawa

--The other entrance from the east is the one that has always caused the greater discussion and it will come before the minister on the same date. The latter line, which is the one to Montreal, proposed to cross the Rideau river about 1,000 feet south of the Isolation hospital and cut across to a junction with one of the existing lines near Gladstone Avenue. The company having received a subsidy vote from the federal government is going ahead with its line between here and Hawkesbury and the work is sufficiently advanced to justify the belief that the trains will be running to Montreal via Hawkesbury before the end of the year. The grading was finished some time ago.

11/06/1909 Eastern Ontario Review New York Central Embrun

Killed at Embrun

On Friday last when the 8.15 express was drawing into the yard at Embrun, Mr. Jos. Brisson, an aged man who resided at St. Onge, was walking on the track, and in some unaccountable manner fell beneath the wheels of the engine and was crushed to death.

Although several persons saw the accident, no one can state positively how it occurred.

The coroner was notified, but decided that an inquest was unnecessary. Blame cannot be attached to anyone in the unfortunate affair.

29/07/1909 The Equity, Shawville Eganville Eganville

The C.P.R. have a station house in Eganville the dimensions of which are: 12 x 14 feet with an eight foot wall. The Dstar-Enterprise gives a picture of this hut in its last week issue so there can be no mistake about it. And our cotem, very properly, indeed, is roasting the big company for imposing such a monstrous indignity upon a town the size and importance of Eganville. But the trouble is, these big soul-lacking corporations have somehow been provided with rhinoceros hides.

06/08/1909 Eastern Ontario Review Renfrew McAuley Central

The Eganville leader says: Mr. J.N. Booth, Ottawa's lumber king is having the iron horse penetrate deeper into his limits west of here. On Monday next Engineer Robt. H. Bruce and party will leave to survey a route for a five-mile extension of the Booth railway from Egan Estate to McAuley Lake. Over this road and down the Grand Trunk line are hauled the logs to be manufactures in to the choicest lumber at the mills in Ottawa.

Mr. Lagatte, Ottawa is in town filling Mr. Turner's place as driver for G.T.R. Mr. Turner will be in Ottawa for a few days.

16/08/1909 Ottawa Journal Brockville Brockville

While nine Holstein cattle were being driven to the C.P.R. freight shed to be shipped to Ottawa one of the animals fell through the decayed dock into the river. Under the wharf it was in great danger until it was lasooed. With assistance the cow was got out into the river where it was made to swim a couple of hundred yards before a suitable landing was reached. The herd was purchased in this vicinity by R.F. Slater of Ottawa.

19/08/1909 Ottawa Journal Alexandria Ottawa Union

The work of lowering the level of the site for the new station to the required extent will be completed this week and work on the foundation will be started immediately. A stone crusher has been placed in position which will crush nearly all the stone which has been blasted out. The crushed material will be used in the concrete. From the crusher the crushed stone will be elevated to a scaffold that has recently been erected and thus the securing of the stone for the mixing operation will be made easy. An opening will be made on the bridge railing and thus it will be possible for teams hauling materials to the works to back up to the scaffold that the waggons may be unloaded.

20/08/1909 Eastern Ontario Review L'Orignal

It is officially announced that the Canadian Northern Railway Company opened its line for freight service between Hawkesbury and Rockland today.

This is an important advance in the new line from Ottawa to Quebec which is now rapidly approaching completion.

While the distance between hawkesbury and Rockland is only about 35 miles the opening of that section will enable the company to get its forces organized so that when the line into Ottawa is completed it will be ready to commence operations.

It is also announced that the passenger line between Ottawa and Quebec via Hawkesbury and Montreal begins about September 15. Until the C.N.R. has its own line constructed into Ottawa it will use the G.T.R. tracks.

20/08/1909 Renfrew Mercury Renfrew Carson Lake

There was a wreck on the Grand Trunk Railway on Monday through an unusual cause - a cloudburst. The accompanying torrent of rain rushing down a steep hillside undermined nearly a mile of track near Carson Lake a few miles beyond Barrys Bay and a mixed train was ditched before any damage was known. The fireman being killed. Another train had passed only a short time previously. The fireman was W.J. Thurston of Madawaska whose fatal injuries resulted from him being crushed under a car.

26/08/1909 Chesterville Record Westport

Brockville Aug 15. After a short illness the death occurred yesterday of Samuel Rothwell, master mechanic of the BW&NW railway, aged 52. deceased was a native of St. Catharines, but spent most of his life in Brockville. Prior to going with the BW&NW Railway he received his training on the GTR and CPR being engaged on Rocky Mountain construction of the latter line. A widow and seven children survive.

26/08/1909 Chesterville Record Winchester

The first of the CPR harvest excursions from the east has arrived at Winnipeg, taking in four thousand harvest hands. There was an agreeable absence of the disorderly disturbance that marked these excursions through Ontario in recent years. This was owing to a new arrangement, the rear car on the train being occupied by special service officers and was used as a temporary jail. All disturbers of the peace were promptly arrested, handcuffed and placed in the temporary cells. After half a dozen were in the cells is served as a wholesome warning to the others.

26/08/1909 Ottawa Journal L'Orignal Cyrville

Great activity exists in the vicinity of Cyrville, where the Canadian Northern Railway line is planned, and the work of laying the roadbed is being pushed with all possible speed.

Mr. Bernard Slattery, who owns a farm in the vicinity, has sold twenty-three acres of gravel land to the company at a fancy figure and the output will be used on the road.

The incoming of the railway has caused quite a property boom in Cyrville, where it is likely a station will be erected, and the farmers are jubilant over the fact that they will have easy access to and from the city.

26/08/1909 Ottawa Journal L'Orignal Rockland

Rockland. The Canadian Northern station is about completed and trains are now running daily between here and Hawkesbury. It is said that the road will be ready to carry passengers to the Central Canada Exhibition to be held in Ottawa next month.

01/09/1909 Ottawa Journal Alexandria Central depot

The roof of the historic old building that has served as the G.T.R. station for so long is being partially removed today. Though the roof has weathered the storms of over half a century, the workmen find the rafters and sheeting to be perfectly sound.

The office of the C.N.O. has been removed to Ottawa. Mr. J.L. Mallory, the last of the staff leaves for the capital this week.

02/09/1909 *Chesterville Record* *Morrisburg and Ottawa Electric*

Ottawa Free Press. Mr. R.A.Bishop of Ottawa and a well known local solicitor whose name for the moment is withfield (sic) were Monday added to the directorate of the Morrisburg and Ottawa Electric Railway. It was decided some time ago to increase the number of directors from seven to nine, and the fact of both additions being Ottawa men is indicative of the growing interest locally in the enterprise. Ex-mayor brown of Morrisburghas been appointed Chief Engineer of the road and a boom in the progress of its construction is expected according to Mr. John McFarlane, the third Ottawa director. The preliminary surveys for the roadbed are completed and grading will be commenced this fall. Farmers along the line of the route have signified their desire to do the grading with their farm teams after the crop is in. In return they wish to be remunerated by stock in the new company. Negotiations are under way with the CPR for entrance into the city, via the old Ottawa and St. Lawrence Railway and it is possible that the terminal of the line will be in the vicinity o Queen Wharf. The meeting of the directors was held at Moorewood.

02/09/1909 *Ottawa Journal* *Carleton Place* *Ottawa, Broad Street*

Sir Thomas Shaughnessy had an unusual experience early this morning while asleep in his private car, "The Killarney", at the Union station a shunting engine collided with the coach. "The Killarney" was standing on a siding at the Union depot yards about four o'clock this morning when smashed into by a C.P.R. shunting engine.

Sir Thomas was asleep in the car at the time. The rear end of "The Killarney" was badly smashed and the engine was somewhat damaged. Though the occupants of the car received a shaking up, no one was injured. The accident will be investigated.

Sir Thomas arrived in the city at seven o'clock yesterday, and after having transacted his business, returned to his car which had been in the meantime shunted into a siding, and retired.

"The Killarney" was turned around on the turntable in the yards. As the couplings on one end of the car were still good, it was put on No. 8 train for Montreal and the car reached its destination without further incident.

02/09/1909 *Ottawa Journal* *Alexandria* *Central Depot*

Workmen today began tearing down the old Central depot. The excavation work is being rushed and on the hotel site men are again at work excavating for the foundations. There is great activity in both places.

Several tons of old railroad records are being moved today from the old G.T.R. depot building, which is being torn down. Each page of the old records is very valuable and much care is being taken in the work of transferring them from the dusty files to their new receptacles in the station annex.

The C.P.R. authorities placed a watchman at the crossing on the Hawkesbury road this week to count the number of carriages and pedestrians that passed over the crossing in forty-eight hours. The information will be laid before the Railway Commissioners when the question of ordering a permanent watchman there is considered in Ottawa next week.

11/09/1909 *Ottawa Journal* *Ottawa, Brockville and St. Lawrenc*

Shows map of proposed line.

14/09/1909 *Ottawa Journal* *L'Orignal* *Hurdman*

The Canadian Northern Railway Company is pushing the work of construction of its entrance to city and work was started today on the bridge which will span the Rideau River about three hundred yards below Hurdman's Bridge. Nine concrete piers will be erected by Angus Sinclair who is building the Hawkesbury - Ottawa section of the line.

The steel superstructure will be constructed as soon as the concrete piers are in shape and it is expected that the line will be running into the Central Depot by the end of November. There are about 150 men now at work in the vicinity of Hurdman's Bridge. There are two construction trains and a steam shovel in operation. The headquarters of the work have been removed from Rockland to Hurdman's Bridge. J.R. MacKenzie is divisional engineer and J.M. Campbell, resident engineer.

The freight sheds and shops will probably be erected on the Stewart property which abuts on the site of the new bridge.

15/09/1909 *Ottawa Journal* *Alexandria* *Ottawa Union*

The first car of steel for the frame of the new G.T.R. station has arrived in the city and is being worked into the foundation of the building. It is just nine weeks ago that the first sod was turned on the site of the new station. Today the foundation walls on the north end and on portions of the east and west sides are completed, workmen were obliged to work down nearly five feet thorough solid rock to reach the required level.

16/09/1909 *Chesterville Record* *Morrisburg and Ottawa Electric*

The Ottawa Citizen says: Mr. John McFarlane has returned from Morrisburg where he was attending a meeting of the directors of the Morrisburg and Ottawa Electric Railway. The route of the road until it reaches Ottawa has been decided upon and grading is expected to start in about two weeks. The line will pass through the following towns and villages: Williamsburg, Bouck's Hill, Elma, Dunbar, Winchester Springs, Chesterville, Winchester, Morewood, St. Theresa, Ormond, Kenmore, Vernon, Metcalfe and Greeley. The route will be 55 miles long but the entrance into Ottawa has not been decided yet. The line will cost about \$770,000. It will be an electric line and will handle freight as well as passengers. The rails will be laid as early in the spring as the weather will permit. Mr. McFarlane visited Waddington on the American side opposite Morrisburg and saw the first train come in on the Norwood and St. Lawrence railway. This railway is 20 miles long and connects Waddington with the main line of the New York Central. With the new Morrisburg and Ottawa line and the Waddington and Norwood line there will be a direct line to New York from this city.

16/09/1909 *Renfrew Mercury* *Chalk River* *Almonte*

Finishing touches have been put on the subway built by the C.P.R. in Almonte. A metal covering placed over the walk will prevent cinders from dropping down on passers-by.

The C.P.R. crossing

The municipalities of Vankleek Hill and West Hawkesbury have been notified that the Dominion Railway Commission will take up the question of ordering a watchman at the C.P.R. crossing here. The matter will come before the Commission in September 7th. Representatives from the two municipalities are notified to attend. Other crossings both in West and East Hawkesbury and Caledonia may also be considered at that time.,

16/09/1909 *Chesterville Record* *Prescott* *Prescott*

The most valuable cargo of silk ever transported across the Pacific arrived at Prescott on Wednesday of last week and transferred to Ogdensburg where a special train hurried the cargo to New York. It was specified to include 3,000 bales of raw silk. In addition there was a large importation of tea, the value of silk and tea being placed at \$3,000,000.

A young man by the name of Dufresne was killed on the G.T.R. track in Breadalbane on Wednesday afternoon. He had come into Vankleek Hill on the morning train and was walking back on the track in the afternoon. There is a big curve and a step down grade at the point where he was killed. It was impossible to stop a heavy freight train when the fellow was seen by the engineer. His body was completely severed in two. He was about 34 years of age and unmarried.

The diamond crossing of the Canadian Northern Railway to cross the Canadian Pacific tracks near Hurdman's was completed Saturday, after several days of delicate operation. The diamond was tested today by the C.P. and found satisfactory. The crossing was procured at Niagara Falls. The work is rapidly being pushed to completion on the country side of the river and the track is now laid to within two hundred yards of the C.P.R. tracks, the old St. Lawrence and Ottawa road. The grade on this side of the tracks has been reduced and the grade where it crossed the Cyrville road has now been raised to a height of eight feet. This will be further elevated to a height of eleven feet. On the Ottawa side the engineers have already commenced the building of the cement piers which will carry the steel bridge which will afford ingress to the Canadian Northern to the city.. One pier is practically completed at the shore line and two others are in course of construction. To admit of carrying material a temporary wooden bridge has been built as far as the centre of the stream. In all, ten piers will be built, two on the shore to provide for the approaches. It is expected that the laying of steel will be commenced in about three weeks time. The surveyors stakes show that the railroad tracks will be produced from the bridge to the connection with the C.P.R. right of way about a quarter of a mile south east of the end of Nicholas street. It is understood that the company is to secure running rights from the C.P.R. so that entrance can be made to the Central Depot until such time as the esplanade scheme for all roads is definitely decided upon. There is now an application from the C.N.R. to the Railway Commission to cross Hurdman's road so as to gain access to the C.P.R. tracks. The C.N.R. is losing no time in an attempt to have the road bed and tracks complete by this fall.

C.N.R. route to Toronto via Smiths Falls is approved. Indignation when surveyors start to stake a line through the Glebe - -

Council having second thoughts on crossing Hurdman road. Article.

The stone work on the new station was started yesterday. Several cars of granite have arrived and this quantity will be used up immediately in the first course on the west side of the new building on the portion of the foundation which is now complete. The course of granite will be followed with Indiana limestone.

The name of Kemptville Junction has been disbanded and will in future be known as Kempton.

The lumber firm of Stearns and Son and Cote and Co. have commenced shipping lumber via Canadian Northern Railway

Fire, the origin of which is unknown, broke out at the Hull Electric Company power buildings at Deschenes at nine o'clock this morning and burned for over an hour and a half during which time all the cars on the line remained stationary.-- Broke out in the tool house -- Car service was resumed shortly before twelve o'clock.

The Canadian Pacific has other means than its telegraphy wires and its mail train to carry news. Two carrier pigeons belonging to the company's stock at Caledonia Springs, were released the other day by Mr. Geo. Duncan from the Ottawa city ticket office of the company, and covered the distance in a short order. Tied to them were messages to manager Cole, Caledonia Springs Hotel. The birds are the third generation of a flock originally brought from Boston, and for some time they displayed a marked tendency to make back for the centre of culture and baked beans. The company has constructed a special loft for the pigeons and the later generations are content to stay at Caledonia. Every now and then a couple of the birds are taken away a hundred miles or so and then released. They invariably find their way back home with unerring exactitude.

Action Against O.E. Railway Arises out of passenger carrying parcel Man refused to pay extra and so was put off Writ issued claims damages from company A writ launching a very interesting case will be issued by Mr. John R. Osborne on behalf of Mr. David Rotkin against the Ottawa Electric railway company. Rotkin claims that he got on a streetcar on Gladstone avenue with a parcel in his hands. He put his ticket into the box, and then the conductor told him that he had to put in another ticket because the parcel was so large. He refused, and to use the plaintiff's own terms "He grabbed me by the whiskers and threw me out." He is suing for \$500 damages. Superintendent Hutcheson to the Citizen said, that passengers were allowed to carry personal baggage not too large without extra charge on the cars. However, bulky parcels were charged for, by the passenger being required to put in an extra ticket. This case should prove an interesting one, the manner in which Mr. Rotkin was handled, and the question of the size of the baggage coming into evidence. NB. Page one of the Citizen shows the date erroneously as 1990, other pages show 1909.

Suing the C.P.R. Woman seeks heavy damages for injury Lamed for life by leaping from a train whilst in motion at Aylmer in November last, Mrs. John Watters of Eardley brought suit against the C.P.R. in Hull superior court this morning for \$1,999.99 damages. Her claim rested on the allegation that the train was started before all the passengers had a chance to alight, and that three were perforce obliged to jump. She was one of the three. The other two landed safely on the platform, but she fell and was detained in an Ottawa hospital for 88 days recovering from a fractured hip. Her leg in consequence would be permanently stiff. The case for the C.P.R. was that the train stopped a sufficiently long time to allow everyone to get off, and that passengers were warned of the approach to Aylmer by the conductor. When the train had started again gross negligence was shown by Mrs. Watters in attempting to get off. The case is still in progress this afternoon. Mr. C.J. Brooke appeared for the woman and Mr. T.P. Foran for the C.P.R. NB. Page one of the Citizen shows the date erroneously as 1990, other pages show 1909.

Some heavy blasting is being done by the C.N.R. on the spur line going into the lumber yards.

Alfred Peat Bog Said to be Valuable

-- a peat bog of about 300 acres at Alfred, a little distance from Ottawa, on the C.P.R. The peat here is of good quality and eight or nine feet thick. Extensive works have been installed and the manufacture of peat fuel by air-fried process has been successfully established.

--

11/11/1909 *Chesterville Record* *Prescott* *Osgoode*

The CPR has purchased a farm near Osgoode station for \$10,000. It was secured by the company for its gravel pits which are said to be the best between there and Montreal. The farm was in the possession of the Low family for sixty years and in all that time no gravel was ever taken off it. Also in the *Renfrew Mercury* 12 November.

12/11/1909 *Ottawa Journal* *Alexandria* *Ottawa Union*

The big derrick used in hoisting the large blocks of stone to walls of the new Central Depot smashed yesterday at about 10:20 while lifting one of the biggest blocks of stone.

The derrick is gauged to lift two tons, and the stone on the cable is said to weigh about that much.

13/11/1909 *Ottawa Journal* *L'Original* *Ottawa*

City Engineer Kerr made a survey yesterday of the C.N.R. tracks at the corner of Gladstone avenue and Nelson streets near Hurdman's road, and found that the railway was encroaching upon the street property. One rail extended four feet and another fifteen feet out into the roadway, together with several ties.

Mr. Kerr has written to the C.N.R. and notified them to remove their tracks at once off the roadway.

15/11/1909 *Ottawa Journal* *L'Original* *Hurdman*

In view of the fact that the Railway Commission has refused the C.N.R. even a temporary level crossing over Hurdman's Road as a means of entrance to Central Station, it is probable that a temporary station will be erected in the vicinity of the intersection of Gladstone avenue and Nelson street. The railway line is now connected and ready for traffic from Quebec to Ottawa, and stations have been built all along the line even at Cyrville, just outside Ottawa. The C.N.R. officials in Ottawa who engaged upon the work at Hurdman's Bridge express ignorance of any such a move; but others who are known to be well in touch with the work claim that a temporary station near the Hurdman's Road will be erected soon.

16/11/1909 *Ottawa Journal* *L'Original* *Hurdman*

That work will be begun in the course of a few days upon the construction of a temporary passenger station near the intersection of Gladstone avenue and Nelson street, was the statement made to the *Journal* today by the C.N.R. officials engaged upon the work now in progress at Hurdman's Bridge.

"Have any regular trains been run over the line as yet?" was asked.

"Nothing so far except the construction trains," the official replied.

Continuing, he intimated that it would be some time yet before regular trains would be run but the temporary station would be erected immediately.

17/11/1909 *Ottawa Journal* *L'Original* *Hurdman*

As announced in the *Journal* yesterday the Canadian Northern Railway will proceed at once with the erection of a temporary station near Hurdman's road and Gladstone avenue. His morning a permit was applied for and granted at the city hall for the erection of a temporary station, office and freight shed, to cost about \$5,000.

The building to be utilized as an office and station will be 20x40 feet and the freight shed 30x80 feet. Both will be ironclad structures. The work of construction will be begun immediately as regular trains will be run over the line from Quebec to Ottawa in a few days.

19/11/1909 *Renfrew Mercury* *Ottawa Valley*

The Ottawa Valley Railway Company will, at the next session of parliament, apply for the passing of an act to authorize and confirm agreements with other companies, to increase the bonding powers and to acquire, use and dispose of electric and other power.

19/11/1909 *Renfrew Mercury* *Morrisburg and Ottawa Electric*

The location survey for a distance of eighteen miles has been completed in connection with the Ottawa-Morrisburg Electric Railway. The line will cross the Nation river at Chesterville. The original plan showed the main line running to Winchester. The survey apparently doesn't take in that place.

22/11/1909 *Ottawa Journal* *L'Original*

The Canadian Northern Railway has asked the Railway Commission for inspection of its new line from Ottawa to Rockland that it may be opened for traffic. This means that Ottawa will have a new connection with Quebec later this month as the Canadian Northern line is open and running from Rockland to Quebec.

24/11/1909 *Ottawa Journal* *New York Central* *Crysler*

The new station of the Ottawa and New York Railway at Chrysler will be opened next week. The building, which replaces the one burned several months ago, is of concrete. It is two storeys high and one of the most attractive station buildings along the line.

25/11/1909 *Ottawa Journal* *Alexandria* *Chateau Laurier*

An unusual incident occurred yesterday between the C.P.R. and G.T.R. companies. The Railway Commission recently approved of the Grand Trunk building a siding from their yards to the Chateau Laurier site crossing the C.P.R. property at the Dufferin Bridge. The siding is required to facilitate the moving of building material from the yards to the hotel site and was to be built for the convenience of the Fuller Construction Co.

Work was commenced on the siding and the rails were laid to a point where it was necessary, in order to go further, to cross C.P.R. property. At this point yesterday the men employed on the siding were met by a C.P.R. constable who threatened with arrest any man who would drive a spike on the property. As a result of the stand taken by the C.P.R. it will be difficult for the Fuller Co. to move the several carloads of steel and stone that are now standing on the sidings in the yards.

Papers Not Served.

The Canadian Pacific officials have no reason to give for their actions in the matter. Mr. Spencer, local superintendent, was spoken to this morning and he would give nothing out in regard to the matter. He stated that the constable was on the spot as a result of his orders. Further than this he declined to discuss the matter. Mr. Morley Donaldson, of the G.T.R. could offer no explanation for the actions of the C.P.R. in refusing to acknowledge the Railway Committee decision in the matter.

Work on the Chateau Laurier will doubtless be seriously held back until such time as the C.P.R. may be forced to permit the construction siding to be built across its property.

While it appears that the Railway Commission has approved of the spur line into the Chateau Laurier over the C.P.R. track, official papers have not yet been served. Inquiry at the Railway Commission office this morning elicited the information that the order will be served to-day or tomorrow.

26/11/1909 *Eastern Ontario Review* *L'Original*

The Canadian Northern Ontario Railway Co. has made a formal application to the Railway Commission for an inspection of its line from Rockland to Ottawa. This foreshadows an early opening of the line and will give the C.N.R. a direct line between Ottawa and Quebec via Hawkesbury.

In regard to the spur line which the G.T.R. wants to build from the Central station to where men are working building the Chateau Laurier, and which would necessitate the passing over C.P.R. property, the formal order of the Board of Railway Commissioners allowing this will probably reach the C.P.R. authorities tomorrow.

The Journal told yesterday of the G.T.R. attempting to build this siding and of the threat that workmen would be arrested if they drove a spike on C.P.R. property. From what can be learned there will be no great delay.

Draft order.

An official at the Railway Commission office this morning explained to the Journal that some weeks ago the Board (composed of Judge Mabee and Messrs. Scott and McLean) issued a draft order which practically allows the G.T.R. to cross the C.P.R. property.

The final official order to the C.P.R. was not issued and has not been yet; and thus the C.P.R. is quite within its legal rights in refusing to allow the G.T.R. workmen on their property until they get it. A copy of the draft order was some time ago sent to the G.T.R. solicitor in Montreal and one to the C.P.R.

Only trifling

It was explained at the Railway Commission office that there was no difference between the Board and either of the railways; if anything it was only a trifling matter between the G.T.R. and the C.P.R. The Board had made an order, and before long those concerned would be notified as to that order.

Mr. Donaldson, superintendent of the G.T.R. division here, and Mr. Spencer, in charge of the Ottawa division of the C.P.R., today, had nothing for publication in addition to what was stated yesterday.

Already the roof of the temporary station which the Canadian Northern Railway is erecting near the end of Gladstone avenue is being added and it is expected that by December 5th the station will be in condition for use. A large gang of men is at work on it.

This will complete the new line from Quebec to Ottawa for the present, for the tracks are already laid and with the exception of a little grading, which is being rapidly completed, the tracks are ready for use as far as the station. One of the construction engineers stated yesterday that were the station complete the trains would already be running.

The station, although a temporary one, will be a better class than the majority of citizens believe. It is a wooden structure of fair size and of plain design. Across the track the freight office and shed is being constructed and when the whole is complete it will be very convenient. It is about a hundred feet from Gladstone avenue.

There is quite a large gang of men at work on the completion of the track, but for all practical purposes it is ready for use.

It is expected by men connected with the railway that through trains will be running from Quebec to Ottawa within a week after December 5th.

Work is at once to be started on two new railway stations which the Grand Trunk authorities will erect. One will be at Moose Creek and the other at Heneyburg near Coteau. The foundations will be of concrete and the superstructures of wood.

Railway Clash Delaying Work

The clash between the Grand Trunk and the C.P.R. over the former's proposed spur line from the yards to the site of the Chateau Laurier over the latter's property has not yet been definitely settled and consequently the contractors at the new hotel are experiencing much inconvenience in waiting until a settlement can be reached. They are unable to begin the steel construction work until such time as the rails have been laid into the property over which the many carloads of building materials may be hauled.

--matter now rests with the solicitors--

--A temporary terminus in Ottawa near the Ottawa and New York station will be utilized until the decision of the Railway Commission is given in regard to the use of the Central station, although the road thereto has been practically completed.--

A gravel train, with its complement of Italians, was at work last week removing gravel from Wallace's Cut, to some point east of Shawville.

The new station of the Ottawa and New York Railway at Chrysler will be opened next week. The building, which replaces the one burned several months ago is of concrete. It is two storeys high and one of the most attractive station buildings along the line.

C.P.R. officials had conference last week with the municipal authorities of Eganville regarding the station difficulty there. The railway men said that they were prepared to spend \$3,000 in building a station on part of their property west of the municipality, but that they were not prepared to expend \$10,000 in buying land and building new station and freight sheds down in the heart of the village where the people most desire it. At the village is considering presenting the company with a site or getting them to build at the point of their property nearest to the village.

Silicate brick appeals taxation assessment on the machinery on their plant in Ottawa East.

The first train direct from Quebec City to Ottawa reached the Capital yesterday morning at about 11:30 o'clock and marked the entrance of the Canadian Northern Railway into this city.

The initial trip was successful in every way. Upwards of 400 passengers from Quebec, St. Jerome, Joliette, Lachute, Montreal and Rockland reached the new railway station at the corner of Hurdman's road and Gladstone avenue. They found there between 300 and 500 people to meet them.

The train consisted of six coaches drawn by engine no. 180. And of the coaches one was the convertible buffet sleeper "Balmoral" and another the convertible parlor car "Medley". As the train approached the bend in the track near the station it was assisted by a second engine; but with the exception of this the entire trip was made with the one engine drawing the six coaches, which were all crowded.

Second occasion.

Among the passengers was Mr. S.J. Rolland, ex-mayor of St. Jerome. It is interesting to recall that he was on the train that made the first trip from St. Jerome to St. Sophie, twenty-one years ago, and which line has since become part of the Canadian Northern system.

The train crew consisted of: conductor, Mr. G.B. Hibbard, Montreal; brakeman Mr. Lawrence McAllister, Montreal; baggageman, W. Lewis; engineer, Mr. James Later, Joliette; fireman, Mr. Joseph Roy, Montreal.

The train left Quebec at 11:15 o'clock Saturday night. Under the new timetable, which goes into effect at once, the train will leave there at 11 o'clock each night. The officials claim this route from Quebec to Ottawa is shorter than any other and that as a result the travelling public can now go from the Capital to Quebec quicker than ever before.

Ottawans who are now going to Europe will now be able to leave here by the C.N.R. at night and reach Quebec in time to go on the ocean liner the next morning. Officials Abroad (sic)

Many officials were on the train -- full details--

The station quarters now used are only temporary. It is intended as soon as the necessary permission of the Railway Commission is forthcoming, to make arrangements so that the C.N.R. trains can come into the Union station. Until then an arrangement has been made for taking passengers to and from the temporary station. Motor buses will leave No. 30 Sparks street, the city office of the C.N.R. half an hour before all trains leave, and will also meet the trains. Were entertained.

There were several Quebec newspapermen on the train and with others were entertained in the parlour car of the train by the C.N.R. officials.

On the arrival here the officials had luncheon at the Russell House. They were welcomed by Mr. Guy Tombs, general passenger agent, Montreal and Mr. S.J. Montgomery, general freight and passenger agent, Ottawa, and by Mr. F. Williams on behalf of local newspaper men. After that they had an automobile ride and visited many of the points of interest in the city.

In charge here.

Mr. Montgomery is in charge here, while Mr. John Leyden will attend to business at the Gladstone avenue station.

A "Y" has been built on the Cyrville road near the station, which will enable the engine to be turned around so as to allow of making the return trip. Freight sheds are well under way and will soon be completed.

The intention is to have a train leave Ottawa every day, including Sunday, at 8.30 o'clock and one will arrive each morning at 9.15.

Besides this there will be a daily service (Sundays excepted) from here to Joliette. This train will leave each morning at 8 o'clock and get back to the Capital at 6.10 p.m.

The cars supplied are most comfortable, are well heated, and there is every accommodation for the travelling public.

Advantage to Rockland

The present service does not connect directly with Montreal, and any Montrealers who were on the train reaching here yesterday connected by way of the Joliette branch out of Montreal. The C.N.R., however, intends later on to have a Montreal branch and a direct service from here to there. Work on this line is to be started in the spring.

The new line will be a decided advantage to residents of Rockland and other places quite near to the city. Heretofore, they have been able to come to the city on week days but not on Sundays. By catching the Quebec-Ottawa train each morning they can now spend the Sunday in the Capital, returning the same night.

The Railway Commission dealt with an application from the town of Eganville for a better station accommodation yesterday afternoon and ordered the C.P.R. to build a new depot. The company promised to erect a building similar to the one at Stittsville. The company also agreed to put planks between the tracks when necessary.

The Board of Railway Commissioners has ordered the C.P.R. to build a news station at Eganville and put planks between the tracks through part of the village. The laurel wreath should rest on editor Dan A. Jone's brow. He forced the fighting.

Train service Now Open

Referring to the opening of the new train service on the C.N.R. from Quebec to Ottawa the Free Press says:

For a distance of 60 miles the line skirts the south shore of the Ottawa river, from the Capital to Hawkesbury. In this way a new chain of summer resorts for Ottawa people is opened up, and that many pleasure grounds will spring up along the river front is sure to be the case. The portion of the Ottawa touched is one of the prettiest sections of the entire river. Approaching Quebec the track skirts the St. Lawrence for a distance of 30 miles, making an excellent scenic route between Ottawa and Quebec.

But there is an advantage involved of greater significance to Ottawa, for a great distance the road runs through a country which has never heretofore been served by a railroad, and for its entire distance, the line gives a more direct connection with Ottawa of many busy hives of industry between Ottawa and the Ancient capital. A series of flourishing rural centres that the road will for the first time endow with the advantage of a railroad are Orleans, Cumberland, Wendover, Treadwell, Jessops Falls and L'Original. These are the villages of a prosperous farming community and all have a population of 5,000 people. With convenient local service these people acquire the habit of going to Ottawa to do their buying and general business. There is also afforded a more direct connection with Ottawa and the busy towns of Lachute, St. Jerome and Hawkesbury, which possess a population of 7,000. Trade between these places and local concerns is sure to feel a new impetus.

The equipment for the Ottawa division is as new and thoroughly up to date. A novel feature are the new palace cars of the convertible type, such as are in use on some of the larger American roads. The main feature of this type is that when the berths are not in use, they can be lowered in a recess beneath the car and moveable upholstered chairs take their place giving the car in the day time the appearance of a private or parlor car. At night the chairs are placed in the recess and the berths arranged in position. The porter in charge of one of the cars yesterday gave a demonstration of changing the car from one style to another, and all who witnessed it were much astonished at the simplicity and ingenuity of the arrangement, and also the comfort and roominess given to the car when used for day service.

The first-class cars are high backed 40 seat car finished in green plush and the second-class cars are comfortably upholstered leather seats.

A local service is provided for between Ottawa and Joliette daily except Sundays leaving at 8 a.m. and returning to arrive at Ottawa at 6.10 p.m. The daily through sleeping car service leaves Ottawa at 8.30 p.m. and arrives at Quebec at 7.30 the following morning. Returning it leaves at 11 p.m. and arrives at Ottawa at 9.45 the next day. Passengers from Ottawa can have their dinner on board when leaving and in the morning, returning, can procure breakfast on this train.

The temporary city office of the C.N.R. is located in the Russell House Block, and is in charge of Mr. S.J. Montgomery. A motor bus will leave the uptown office one half hour before each train is scheduled to leave or arrive and carry passengers and baggage to and from the station. Mr. John Leydon is in charge of the depot.

The C.N.R. proposed to commence construction early next spring of a line from Hawkesbury to Montreal. The route when completed will provide the shortest means of getting to the metropolis. That portion of the Ottawa Quebec line as far as Hawkesbury has been in operation for two years. The track in the immediate vicinity of the temporary station on Hurdman road is scarcely down a week so is in a rather primitive condition. Up to within half a mile of the city, the roadbed is well ballasted and in excellent shape.

10/12/1909 Eastern Ontario Review L'Original Clarence

Clarence. It is quite lively for those living close to the new C.N.O. railway with so many trains passing each day.

13/12/1909 Ottawa Journal Alexandria Chateau Laurier

The Grand Trunk has removed the switch and rails connecting the C.P.R. with the Chateau Laurier on the complaint of the C.P.R. This is the spur line which caused considerable difficulty between the two companies recently.

The arrangement as it was, was considered as interfering with the work of the C.P.R. main line.

The G.T.R. will make a change which will give access to the Chateau Laurier and at the same time not interfere with the C.P.R. main line.

16/12/1909 Chesterville Record Morrisburg and Ottawa Electric

By-Law No. 153 of the corporation of the township of Winchester for the granting to the Morrisburg and Ottawa Electric Railway Company a right of way along certain of its highways for the construction and operation of an electric railway under certain conditions.

By-Law No. 154 to authorize the issue of debentures of the township of Winchester to the amount of \$5,000.00 for the purpose of the granting of a bonus of \$5,000 to the Morrisburg and Ottawa Electric Railway Company in aid of the said railway company.

21/12/1909 Ottawa Journal Morrisburg and Ottawa Electric

Winchester requested to contribute \$5,000.

22/12/1909 Ottawa Journal Prescott Wellington Street viaduct

The Wellington Street Viaduct will be formally thrown open to public traffic tomorrow afternoon. More. Picture.

23/12/1909 Chesterville Record Morrisburg and Ottawa Electric

At a meeting of the Morrisburg Electric Railroad Company held at Winchester Springs, December 17th which was well attended by the people of the surrounding country.

Mr. Solomon Coons occupied the chair. The meeting opened at 8 o'clock, speakers present, Calvin Munroe, Mr. Willard, Mr. J. Bogart and Mr. J. McFarlane. Chairman's address opened the meeting by some very fitting remarks regarding the present scheme of the railroad proposed.

Mr. Monro followed stating that the cars would stop at every cross roads. The Bonus, he said would only cost the farmers about \$1.50 each and that it would be a great benefit to the farmer and merchant and in fact to every class of people that all would be made happy by it.

Mr. J. Bogart followed and explained what he meant by the right of way etc. He said it only meant the privilege of building the electric road on the road-side and that if the Company would settle for it with the farmers have offered to give twenty feet or more inside of their fence and a bonus of \$200.00 to have it pass their way.

He explained the change in the Ontario law regarding railway on the highway and that the grant was only for 22 years and then the Company would be at the mercy of the Townships and that the company would prefer having the road on the property of the farmers and settle with him for it and own the land the road is built on. He also showed the benefit of cheap electric light and electric power.

Mr. Willard was the next speaker and he went over the same ground covered by the two former speakers.

Mr. McFarlane came forward next and was somewhat abashed as he had lost his running mate Mr. Bishop, he having to return to Ottawa on account of illness.

He soon found his bearing and started off easy feeling his way very careful until he had his audience in his command and held them spellbound some scarcely breathing. He went into the cheapness of the Power and the great amount of horsepower (34 000) horsepower (sic) can be had at reasonable rates.

He told how hard it was for the Ottawa Street rail to sell its stock at first and how gratifying it has been to the stock holders since making 8 per cent and now paying 12 per cent and a nice rest (sic) fund of \$800,000, he showed how nice it would be for homes along the road.

They could have the electric irons for doing their ironing instead of heating up the house in a hot summer day. and how nicely he explained the carpet cleaner, that it would make home like heaven and then think of the electric heater to warm your bed room and other things too numerous to mention.

One could scarcely keep down when he portrayed the sublime thing that are in store for Winchester Spring and see the masses flocking to the Spring to get the healing waters.

Also, Uncle Sam's people coming over in amazement on beholding this fertile land flowing with milk and honey and longing to their business here.

The meeting came to a close by moving a vote of thanks to the Chairman.
