

# Local Railway Items from Ottawa Papers - 1923

*Thursday 14/06/1923 Chesterville Record Winchester Chesterville*

The CPR has made considerable change at the station by the removal of the freight shed from the site it has occupied since the road was built to a new site on the north side of the tracks east almost to the stock pens. The convenience of the public does not seem to have entered into consideration when the removal was planned.

*17/11/1923 Athens Reporter Westport Soperton*

A train derailed on Saturday 17 November 1923. Get copies of the newspaper articles on this.
